THE TRAVELLERS

Search for the true path

"Be in the world like a traveller..."

A misty, blue-toned landscape of jagged rock formations and sparse evergreen trees. The scene is atmospheric and serene, with a soft, ethereal light filtering through the fog. The rocks are layered and textured, creating a sense of depth and scale. Small, dark evergreen trees are scattered across the rocky terrain, adding to the natural beauty of the scene.

On the authority of Ibn Umar, may Allah be pleased with both of them, who said: The Messenger of Allah (peace and blessings of Allah be upon him) took hold of my shoulder and said, ‘Be in the world as if you were a stranger or a traveller along the path.’ And ibn Umar would say, “If you survive till late afternoon, do not expect [to be alive in] the morning. If you survive till morning, do not expect [to be alive in] the late afternoon. Take from your health before your sickness and your life before you death.”

FROM THE EDITORIAL DESK

In the name of Allah, Most Gracious, Most Merciful

With His grace and love, we meet again in the pages of Fikrah magazine for the year 2017. May Allah shower His barakah to all those who have tirelessly contributed to this magazine. My dua is also that Allah SWT will also continue to keep the children and the family of Adni in good health and the best state of imaan.

What a year it has been! Many things have happened but then that is what makes SIA, SIA each year tells its own story; each year is unique, holding within it gems of memories to be cherished. 2017 is no different. Fikrah 2017 like its predecessor before chronicles the journey of every student, every murrobbi and every soul that has been in Adni. For some, 2017 is the beginning of their educational journey (at taska) and for some it is the end of their teen year, well spent before they embark onto the world outside

But this journey in Adni is only a part of a greater scheme of things a bigger journey that all of us make a journey from Allah to Allah. It is the realisation of the importance of this journey that the late Puan Zaiton Malek felt strongly, a need to remind all that we are all mere travellers strangers and that this dunya is nothing but a temporary stop. Hence to do not dawdle, make haste your provision to meet your Creator for we do not know when our time will come

So this magazine is special it is special not only because it presents 2017, a year to be cherished but it is special because it is a reminder. For me, 2017 not only will remind me of the great things that happened throughout the year but it will remind me of the loss of someone so dear; to me and the school.. This year is a year of sadness, because on the 16th of October 2017, our dear mother, Puan Zaiton Abdul Malek, the wife of our Principal/CEO, a director of the school and a pillar of strength peacefully returned to her Rabb. (see In Memoriam page 207-210).

Puan Zaiton Malek left us as we were in the midst of working on our theatre whose concept was mooted by Puan Zaiton Abdul Malek, herself. She wanted us to produce something that would be impactful; that delivered a powerful message, a reminder of our existence she wanted us to be reminded that we are

just..TRAVELLERS..In memory of her, we have decided to produce a magazine with the very same theme.

So for this issue, we have two special sections. One section, appropriately named, the main feature dedicates to the story and reports of our biggest endeavour for 2017: the theatre production of The Travellers and the art exhibition, "Reflection of a Traveller." The other section entitled in Memoriam is a section dedicated to the remembrance one so loved and respected, Puan Zaiton Abdul Malek.

For me, each issue has its own story, its own memory in the course of producing the magazine. We would like to apologise that this issue may reach your table sometime towards the end of 2018; producing a magazine of this magnitude holds its own challenges and I had a few. Alhamdulillah, it is only bearable due to the support of many people that I have to give credit for; only Allah can reward all your sincere work. Firstly I would like to acknowledge the contribution of all murobbis, alumni and students of Adni for their articles, reports and pictures for which without them, we won't have a magazine. To the people that assist me to collate, type and edit the photos and articles, namely Ustaz Khusairi, Puan Nur Akmal, Puan Nilawana, Sister Nurul Ain and Sister Fazlina. I humbly thank all of you. To my colleagues in the management team who have supported and assisted in more ways than one, I too extend my thanks and doa to all of you. I accord special thanks to the chairman, Ir. Dr Fauzi Abdul Samad for his continuous support of the magazine. And finally, I would like to express my appreciation to Puan Laili Ismail and Puan Umairah @Lola for meticulously and lovingly editing the final draft of this magazine. Thank you.

The cover and format are based on the poster for the Theater: the Travellers, especially designed by independent expertise and as such is also unique and special. So do enjoy reflecting on what was 2017 like for all family of Adni. May this magazine rest on your table as a memory and testament to the times we've had in Adni for the year 2017!

Editor,
Azlila Hanita Abdul Aziz

MESSAGES

In the name of God, the infinitely Compassionate and Merciful. Praise be to God, Lord of all the worlds. The Compassionate, the Merciful. Ruler on the Day of Reckoning. You alone do we worship, and You alone do we ask for help. Guide us on the straight path, the path of those who have received your grace; not the path of those who have brought down wrath, nor of those who wander astray.

MESSAGE FROM THE EXECUTIVE CHAIRMAN

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

A major aim of education at Adni is to develop leaders that would make this world a better place for mankind in the future.

Glory be to Allah swt, the Most Gracious, the Most Merciful. From Him we seek Taufiq and Hidayah, and the strength to continue our jihad to educate, guide and inspire our students to excel in their lives in this world and in the Hereafter. Upon them we put our trust that one day they will lead the world and as future leaders of the Muslim ummah in particular. Do not betray our hope! May the blessings of Allah be with our beloved Prophet and great Leader Muhammad (saw), his family, his companions and his ummah who follow the Guided Path.

Once again, as usual, I would like to thank this year s Fikrah Adni Editorial Board for giving me this opportunity to extend a message of thanks, mainly to the Family of Adni (Keluarga Adni Sejahtera), for the support and commitment provided this far and hopefully into the future, as well.

Appropriately, the theme for this year is Be like a traveller search for the true path . Adni recently staged a theatre performance called The Travellers . As Muslims, we are truly travellers on a short journey. Upon birth we are reminded of by the Azan and/or Iqomah. After the journey of our life upon death, we are sent of to the grave with a prayer (Solat Jenazah). So basically, our life is just from the Azan and/or Iqomah to the prayer. How short our life is! From Allah we came and to Allah we return. What is there to be proud of? We are humbled by this fact of life that Allah has determined.

A major aim of education at Adni is to develop leaders that would make this world a better place for mankind in the future. During this digital era (where the globe has become a village), we hope to change the mind of young people to be able to think critically, act independently, respect diversities and develop social cohesion to eliminate social ills. We have to create a paradigm change in our education system in this digital era where uncontrolled information and communication affect social stability. Today, traditional institutions and communities are under threat.

Our education system must contain integrated knowledge, and be more resourceful to instil Islamic patriotism in the way of Allah s guidance.

At Adni, we have achieved many successes with some failures.

Congratulations and thank you to all those who have contributed for our educational program throughout. The school leadership has faced many difficulties in our struggle to adhere to our vision and mission. In syaa Allah, we will keep on, for the sake of Allah swt. This is our promise to all. May Allah swt reward us in this world and finally in the Hereafter. Ameen.

وبالله التوفيق والهداية والسلام عليكم ورحمة الله وبركاته

MESSAGE FROM THE PRINCIPAL/CEO

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

I pray that we, the family of ADNI become the dwellers of Jannah, Ameen.

All praises is due to Allah swt, The Creator and The Sustainer of the Universe. Salutations upon our beloved Prophet Muhammad our ﷺ role model and example to be followed. Alhamdulillah, I am very grateful to Allah swt for giving Sekolah Islam ADNI the opportunity to produce Fikrah ADNI for the year 2017, where this year marks our 25th year serving the Ummah through Education.

This year (2017) also witnessed the passing of my beloved wife, Allahyarhamah Pn. Zaiton Abdul Malek, the Board of Director of Sekolah Islam ADNI. I believe this event reminded us that we all belong to Allah swt and that our time here in this life is temporary, short and limited. Hence, we are, in this world, like travellers as stated by our beloved Prophet Muhammad ﷺ in a very authentic hadith narrated by Ibn Umar (R.A.), who said:

The Messenger of Allah ﷺ took hold of my shoulder and said, Be in this World as if you were a stranger or a traveller along the path. And Ibn Umar would say, If you would survive till late afternoon, do not expect [to be alive in] the morning. If you would survive till morning, do not expect [to be alive in] the late afternoon. Take from your health before your sickness and your life before your death. (Recorded in Sahih Bukhari)

This is a very profound and deep advice of the Prophet ﷺ for us, yet said in a simple manner. The hadith highlighted some very significant and important

points. He first mentioned that Muslims should live this life with a mindset and mentality of a stranger or traveller whereby as a traveller, one knows that time spent here in this life is short, the place of stay is temporary and baggage is to be kept at a minimum. He also said that a stranger or traveller does not expect permanency but temporariness, whereby one benefits the most from a short stay without expecting to return. Finally, the Prophet ﷺ emphasized on the idea that the blessings and circumstances that Allah swt grant us and put us in, in this life, is also temporary and always changing.

Nevertheless, what is more important in our short stay here, in this life (Dunya), is to prepare ourselves to meet Allah swt on The Day of Judgement. The Prophet ﷺ informed us;

When a man dies, his deeds come to an end except for three things: Sadaqah Jariyah (ceaseless charity); knowledge which is beneficial; or a virtuous descendant who prays for him (the deceased). (Recorded in Sahih Muslim)

The Hadith above quoted, his deeds come to an end, telling us that one is not able to perform any deeds anymore that will grant him/her reward (Ajr), except for the three categories of deeds for which one can receive as a reward (Ajr) even after death. This Hadith also guides us on how we should live our lives in this world (Dunya) and the kind of preparation we should make for our return to Allah swt.

I believe that Sekolah Islam ADNI could serve the family of ADNI in gathering provisions for the next life (Aakhirah); Firstly, through educating the students, one will receive the provision of Beneficial Knowledge when it is done for the sake of Allah swt. Secondly, through the monthly earnings that one receives and as long as one spends it in the Path of Allah swt, one will receive the provision of Sadaqatun Jariyah and finally, through developing and nurturing the students in ADNI, one will receive the provision of Soleh and Solehah children who will insyaAllah pray for our salvation on The Day of Judgement, Ameen.

I also would like to quote from Surah Al-Baqarah, Aayaat 179, where Allah swt says;

Take Provision, and the best of all Provisions (in the Journey of Dunya) is Taqwa (God Consciousness).

The Aayaat above highlights that of all provisions that we can gather in this life (Dunya), is the provision of Taqwa, the love and fear of Allah swt. Hence, let us race towards increasing our Taqwa in Allah swt, insyaAllah.

To conclude, I would like to remind myself and the family of ADNI, an Aayaat from the Qur an, Surah Al-A raf, Aayaat 96, where Allah swt says;

And if the people of the towns had believed (Iman) and had feared (Taqwa) Allah swt, certainly We would have opened upon them Blessings (Barakah) from the Heaven and Earth..

This Aayaat highlights the importance of strengthening our relationship with Allah swt and our absolute reliance on Him, so that we may achieve Iman and Taqwa, insyaAllah. I pray that we, the family of ADNI become the dwellers of Jannah, Ameen. May we be granted to be among those who constantly seek Forgiveness (Taubah) and Wellbeing ('Aafiyah) from Allah swt and May Allah swt grant Sekolah Islam ADNI and its inhabitants (family of ADNI), Barakah (Blessings), Rahmah (Mercy), Mahabbah (Love & Care) and Istiqamah (Consistency), Ameen.

ADNI CROSS COUNTRY 2017

14TH JANUARY 2017 | KEPONG METROPOLITAN PARK

Alhamdulillah as morning dawned on Kepong Metropolitan Park, the participants of the Cross Country competition were busy preparing for their run. The theme for the Adni Cross Country 2017 was "Run For A New Beginning and Run For Charity". As a kick-off event for the year, it was very much anticipated by students and parents especially for the new members of the Keluarga Adni Sejahtera .

The teachers also had been very excited to witness the first event of the year that contributed marks to their respective sport houses. The logistics team arrived at the location as early as 6.30 a.m. with all the necessary equipment for the event.

The girls event began at 7.45 a.m. with registration, launching ceremony, warming up session, briefing and eventually the release of the 7km run, followed by 5km run and finally 4km run which involved parents. MashaAllah, the turnout was very encouraging with some of the mothers finishing the course quite quickly. Many were impressed at how enthusiastic the parents were at participating in the running event.

The event for boys started at 9.30 a.m. as the girls had completed their run. After the briefing and warming up, the boys were released for the 9km run, followed by 7km run and lastly 5km run. Male parents were let off together with the primary male students and female parents with the primary female students.

Subsequently, the top runners from the primary and secondary categories along with the top five participants among the parents were awarded with prizes in the prize-giving ceremony. Finally, the event was concluded with a closing du a by the Principal, Dr. Hj. Hasni Mohammed.

Allahu Akbar! What a memorable day it was for the winners and an enjoyable one for all the runners. The event was definitely a booster to start the year and we pray that the spirit of competitiveness, determination and motivation will remain throughout the year for the sake of Allah swt. Ameen.

LITTLE MUTTAQIN CAMP 2017

27TH NOVEMBER 7TH DECEMBER 2017
RAUDHAH ADNI, TAMAN MELAWATI

How exciting it was! Even the teachers were excited! Imaginations ran wild as the teachers decorated the Bedouin tent with exotic drapes, cushions and even fanooshes (all hand crafted, made lovingly by teachers!) then teachers were the first to take a picture in it... imagine being in the middle of the desert in such a tent!

Every year, as organisers of LMC, we try to come up with something new and exciting as we continue the story of Rasulullah s.a.w, Ahabbuka Ya Rasulullah. Besides the tent, the cave is given a new lease of life and now becomes the Cave of Al Hiraq. This year we discussed the Hijrah, the calendar of the Muslims, the Hijrah of Rasulullah to Madina. Equally exciting this year, was our display of time pieces; children looked at how man designed ways to tell the time throughout history. So we looked at sun dials and how to read time for solat etc. They looked at interesting invention of clocks by Muslim scholars such as Al Jazari and his equally fascinating Elephant Clock wish we had the time and the resources to build a model of it!

Participants also learnt about the Year of Sadness in which, Rasulullah s.a.w lost two of his strongest supporters; his beloved wife Saidatina Khadijah and his uncle Abu Talib. Again, the wall of the lobby of Raudhah Adni was adorned with various interesting information that is open for everyone to read and observe.

Every year, our knowledge of Rasulullah s.a.w grows and our love for him too Solualan Nabi There is more to share. InsyAllah in 2018 we will continue the story .just wait and see what we have planned next Can you guess?

THE TRAVELLERS

Season Two: The Holy Quest

THE TRAVELLERS, AN ADNI THEATRE PRODUCTION 2017/2018

27TH & 28TH JANUARY 2018 | AUDITORIUM DEWAN BAHASA DAN PUSTAKA

Inspired by the hadith of Rasulullah s.a.w. " The worldly comforts are not for me. I am a traveller, who takes a rest under a tree in the shade and then goes on his way (Tirmidhi)

It was a few more hours before curtains, everyone was busy getting ready. Anxiousness and excitement rolled into one! This was the night! A night of reckoning! After all those months had passed, and all those roller coaster rides that we had been through, tonight was the night—the opening night! Every member of the team was at the edge of the seats .anxious with anticipation. Both Nila and I have had little sleep nights before, praying that everything that needed to be done, had been done and that the audience will like it. That was the day, that was the night...and slowly the seats were being filled and then the hall became pitch black, except for the spotlight on stage and the voice of our MC for the night, Ustaz Zulkifli Hashim echoed through the speakers Ladies and gentlemen .

Little by little the story unfolded on stage. I looked around to see the reaction of the audience. I could make out very little. There were members of the press, sitting 2 seats away from where I was seated. Thoughts raced in my mind, wondering if they would give us a good review. I would not know it until the next few days. Good or bad review, what mattered most was that the audience enjoyed and loved it. That night, the audience was so responsive. Clapping and cheering where appropriate especially at the dialogue which mentioned Mumin Maju . Only Adnians could relate to this, so we knew there were many Adni family members in the audience including alumni.

The show had dragged on rather late as I glanced at my phone and at last the last sow took its bow. The cast and performers took to the stage amidst a thunderous applause from the audience. We couldn t believe it, Nila and I were called to join them on stage. It was an overwhelming feeling!

No one except those involved could easily describe the feeling once it was over. The influx of congratulatory greeting that followed after the last curtain was short of unexpected. People hugged and shook our hands. Everyone was on high spirits. There were glitches, no doubt but what was inherently important they had loved it! We were exuberant! The cast and team had to be reminded we had another show the next day!

Simultaneously as the theatre is presented, at the lobby or front house was Adni First Art Exhibition entitled "Reflection of a Traveller". The works displayed were selected from the art workshop conducted earlier in October by two renown artists, Raja Azhar Idris and Brother Faisal Suhiff. The artworks proved the many art talents that existed in Adni from Raudhah, Primary and Secondary. Besides the students, there were also a few works by our talented teaching staff. Our very own artist extraordinaire, Ustaz Fauzi Yahya also showcased some of his works. The artworks were put on sale, with part of the proceeds donated to Hidayah Centre; an organisation working with reverts.

Alhamdulillah, the second show was also a success! The thumbs up by our Chairman that afternoon was enough to set me on a high spirit. We did it again! We wowed the audience! Some who came on the opening night felt that the matinee show was better. Some of the cast and team thought the first show was their best. Regardless of which was the better show, I thought the whole team of students and teachers came together, worked painstakingly and were determined to put up a good show .everyone.

None of the audience could imagine the challenges that were faced by those involved. Putting up the show itself had put all involved on some sort of journey, befitting the title; The Travellers. The journey started as early as September, with a few of us sitting down to come up with the concept of the theatre and finding the right venue for the performance.

We consulted Arwah Puan Zaiton Abdul Malek like we always did, when we plan a play or a performance. This time too she came up with the original concept. She wanted us to put up a show that was meaningful. The show should be a reminder to all, about our very existence and our final destination. Her last words to me were "If the story has no meaning, does not teach them or remind them of Allah Then better not have a show at all . Thus, the team sat down in what seemed to be endless discussions to come up with the storyline and finally a script that fulfilled those ideals but at the same time was enjoyable to watch materialised. It was also important that the students and teachers understood the storyline. Had the story been so abstract and philosophical, very few would have understood! Alhamdulillah, from the reviews we received through social media and such, we knew that the message was correctly conveyed.

I would like to take this opportunity to express my deepest admiration, appreciation and gratitude to the young murroibun and murrobiyat and of course the cast, who, not only had to endure the darkness and the heat at the backstage but with their blood, sweat and tears worked together to produce this theatre. Hats off to you...May Allah swt reward all your sincere efforts! Ameen.

THEATRE

Life's journey depicted in school play

BY SHEIKH MOHAMMAD NAIM

THE STUDENTS of ADNI Islamic School in Selangor recently showcased a theatre performance, *The Travelers*, at the Dewan Bahasa dan Pustaka Auditorium in Kuala Lumpur.

The *Travelers* gives a glimpse of what the journey is like for a servant of Allah. It revolves around the life of a boy named Haliz.

Haliz practices and memorises the Quran at a very young age, and gets second place at an international Quran recital competition.

His life is filled with blessings as he has a good job and is happily married. However, he begins to be blinded by worldly rewards. He is too busy with his work and neglects his family until his son falls ill. It is only then that he realises his mistake — his wealth and blessings come from Allah, and they can be as easily lost as granted.

The cast comprised both primary and secondary students. ADNI play director Robinnah Azzhar said it was done to showcase the schoolchildren's talents not only in the field of acting and drama, but also theatre management and prop design.

The idea for the play was conceived by the late Zaiton Abd Majid, who was a member of

Short song choreography was done by ADNI Islamic School's primary schoolchildren all dressed in colourful costumes to brighten up the mood of 'The Travelers'.

ADNI's board of directors.

"She wanted to make a play where *Travelers* means our travels through life from birth till death," Rahmah said.

The play is unique as it incorporates many types of performances. There was a choral speaking scene. Short-song choreography was done by the primary schoolchildren dressed in colourful costumes to brighten up the mood while nasheed (Islamic religious songs) were performed by the ustad (male teacher) of the school during intervals.

"It was a very challenging experience as we needed to find time to prepare. The plan was to have the performance last year, but it was postponed," said Rahmah.

The scriptwriters worked hard to make sure that the message and moral of the story is properly delivered to the audience.

Many teachers were involved in the production of the play, including managers for the scenes, props, costumes, technical audio and lighting systems.

The students also showcased their talents in poetry recital.

"As it is our first huge production, we have no plans for the play, but if we receive good feedback, we will consider making it an annual event," said Rahmah.

REFLECTION OF A TRAVELLER: 2018 ADNI ART EXHIBITION AND SALE

27TH & 28TH JANUARY 2018

AUDITORIUM DEWAN BAHASA DAN PUSTAKA

In conjunction with ADNI s Travellers Theatre Show held on 27th and 28th January 2018, the school also held its maiden Art Exhibition and Sale for charity purposes. The art exhibition actually dates back to the year 2015 when the school first held an art workshop. Realising the many talented artists among the students at all levels and also among the teachers, the school embarked on the art workshop to survey the interest in the field. More than one hundred students registered for the workshop when the target was only forty!

Soon after the workshop special art classes conducted by renowned artists were opened. At the preschool level an art class conducted by artist Faizal Suhif started. Faizal was selected because he had experience working with young children. At the secondary school level an art class conducted by renowned artist YM Raja Azhar was opened.

Since then the school had been polishing the talents of the students in art which is a great boost in the development of the right brain. In preparing for the maiden exhibition, three art workshops were held. One was held on the 27th and 28th of October at Taman Melawati for the Primary One and preschool students supervised by artist Faizal Suhif. Another two was held in Taman Sri Ukay on the 5th and 6th of October and 9th and 10th October for primary and secondary students. Both were conducted by YM Raja Azhar.

From the workshops the art pieces were selected and reselected to about 70 pieces required for the exhibition. The hard work and camaraderie shown by students, teachers and artists and the relentless support of parents in the whole process is something ADNI is very proud of and thankful for, alhamdulillah!

To make the exhibition more meaningful, the art pieces were sold for charity. Parents were given the first priority to buy their children s artwork and then open for sale to the public. Proceeds of the sale were donated to Hidayah Centre, an NGO dedicated to do dakwah among non Muslims and assist reverts after they have come back to Islam, inshaaAllah.

**1st Review by a mother**

29 January

Sabtu lepas Aspa and the 1st 2 Aisys pi the The travellers by Adni Theatre Production. So yesterday I asked the 2 Aisys what did they learn from the show? Aisy jawab le..semua orang akan mati suatu hari nanti. Pastu dia tanya, kenapa ramai sangat orang dalam gambar kat bawah ni (sbb dia nampak bunting or banner at auditorium tu masa hari kejadian kot), padahal the show focused only on Hafiz je? Kenapa dlm bunting/banner tu tak letak gambar Hafiz je tapi ramai orang? Sbb nak menunjukkan ramai2 org tu adalah Kita, you and me, -manusia. Kita hanya sebagai pengembara di dunia sementara ini. But at times, manusia lupa benda ini dan kita hidup di dunia ini mcm Kita akan hidup selama2nya di dunia.Kumpul harta bagai nak rak, buat salah dengan sesama manusia rilek je bagai tiada balasan akan diterimanya kelak dan lain2.

And I told her that, what I want you to see is Hafiz may have more or less the same background with you and Alesya.He went to Islamic school, became a Hafiz himself sesuai dengan namanya. His parents gave him Quran and instill Islamic values in him. But sadly, when he grew up, he deviated from his straight path just because he lalai with dunya. No longer read the quran, solat and his akhlak getting worse. He has the ilm but no Amal hence the deviation. But one day, something bad happened. His child died. He was fired from his job and had to pay back his employer. Bagai sudah jatuh di timpa tangga. And that was his turning point and he went back to the fundamental, things he learned as a Hafiz all came together and he finally found peace. So Aisy, I am sending my kids to Islamic school so that you can learn the Deen better than I did. I did not get the chance to understand Arabic,understand the quran,hafaz the Quran and the list goes on. Dah tua2 ni le baru terkedek2 nk belajar agama and back to our fitrah.

I believe this is the best education I can give to my children where some might think differently. But again I am hoping you and your other siblings will not become like Hafiz in 'the travellers' I pray that you and the Aisys will be steadfast in our Deen till the end of our life. Manusia bila susah baru nak ingat tuhan. Masa senang, tuhan sentiasa dilupakan. We need to remember Him during our hard times and even more when the good times come. Remember this.

Aisy angguk je le dengar mak membebel semasa sarapan pagi 11 pagi semalam. Anyway I hope she get the gist of our conversation. May all our kids will be steadfast in their Deen. Ameen.

Brilliant performances by the children and Asatizahs of Adni Islamic School. A thought provoking theatrical display. Kudos too to the Directors of the play. May Allah swt bless all of you and may the lessons from the performances be a jariah to all of you until Al-Jannah. Amin ya Rabb Alamin.

Amazing show! Enjoyed it through and through. Amazing storyline with bonus of whimsical dialogues. Great acting, superb choreography and excellent directing. Those who are still thinking of going, tomorrow is your chance. Don't miss this awesome performance! It's worth it! Congratulations to the teachers and students.

SPECIAL FEATURE

If you do deeds of charity openly, it is well; but if you bestow it upon the needy in secret, it will be even better for you, and it will atone for some of your bad deeds. And God is aware of all that you do.

BARAKA BLUE WAS IN ADNI: USING RAP AND POETRY TO TOUCH THE UMMAH

9TH MARCH 2017 | SEKOLAH ISLAM ADNI

Who is Baraka Blue? Some of you may ask; as I did when I received an email from a former Adni Staff and was informed that Baraka Blue wanted to conduct a poetry workshop with Adni students for free! Why not? But who is Baraka Blue? I hadn't a clue. I enjoyed poetry, spoken words and had always admired people who could pen down words to express oneself in a creative, poignant form that touches the heart. SubhanaAllah! After getting the initial permission from the management, I searched the net for some information. There wasn't much but he is well known amongst the Islamic literary circle. And this was what I found:

Ahmad James or his stage name, Baraka Blue is a highly acclaimed rapper and poet who hails from Seattle and based in Oakland, California. He has performed all over North America as well as the Middle East, Africa, Asia, and Europe. Baraka Blue is one of the few contemporary poets fully at home in both the traditions of Islamic Mystical Poetry, and American poetic forms such as Hip-Hop and Spoken Word. His work has been described as a meeting of two oceans and his original synthesis has been internationally acclaimed. He travels globally giving performances as well as workshops on creative writing and spirituality.

And so he came to ADNI as part of his tour in 2017 on the 29th of March 2017. He conducted a 2-hour session with students from the Islamic Performing Arts Club. Baraka Blue said that we all had something to tell, to share; and he, himself, shared one of his poems with us:

Bismillah

*may your day be, filled with love and light
may your rhymes be right,
may your songs be tight
may your words give sight,
may your nour shine bright
may you always be on the righteous side of the fight
may your rhymes be right,
may your lovers be loyal
may your soil be fertile
may your khakis stay crease
may your lock stay oil
may your plans never get foil
may your plot thicken
may your chicken be halal
may your style be sufficient
may your soul be free of its prison
Ameen
may Allah increase you and your vision
Ameen
may you find everything you've been missing
Ameen
may you wake for prayer before the sun has risen*

Baraka Blue

Adni Students were then asked to pen down their thoughts and emotions into a poem, after which they shared with everyone present. Baraka Blue applauded the poems that were shared that day and encouraged students to continue writing. Some of the works of our students can be read under the Creative Minds at Work section of this magazine. For more of his poems, you can search his facebook page or visit www.barakablue.com

PRIMARY EXTRA-CURRICULAR ACTIVITIES 2017

Alhamdulillah, all the ECA programmes went well for the year of 2017. Why ECA? ECA stands for extra-curricular activity which emphasizes on encouraging ADNI students to participate in positive and healthy activities whilst at the same time, instilling concern for the less fortunate and care for the environment.

1. **Cleaner Greener (Pick up Litter)**

Every week, during PE time, students went to the nearby parking lots and did some cleaning such as picking up litter to clean the area. Students were monitored by their PE teachers together with ECA coordinators. By this, we hope to develop self-discipline and instil care for the environment among the students.

2. **Exhibition on Rohingya, Syria and Orang Asli.**

We conducted an exhibition about Rohingya, Syria and Orang Asli Community. Each level 2 class prepared a scrapbook and poster which were displayed along the level 2 hall way. The objectives of this project was to instil care and concern for the less fortunate and to make Adni community more aware of the plight of our Muslim brothers.

3. **Futsal Tournament: Strength In Unity**

In conjunction with Islamic Studies, Hafazan and Arabic department month, ECA (Extra Curricular Activity) successfully organised a

Futsal Tournament with the theme: Strength in Unity. We invited students from Jasmine Ash-sham Alternative Education Centre (Syria) and Maahad Tahfiz Al Quran Al-Ikhwaniah (Rohingya). The aim of this programme was to give experience to the Syrian and Rohingya children to be in communication with the Malaysian community and vice versa to strengthen the Ukhuwah amongst the Ummah.

4. **Charity Sales**

Alhamdulillah, along with Futsal Friendly Match program, Extra Curricular Activities Unit also organized one more Project which was the Charity Sales, held on 3rd of August 2017. The Charity Sales Project was the project by Primary Five students with the help of their class teachers. Alhamdulillah, the profit (RM1663.40) from the charity sales were given to the students of Maahad Tahfiz Al Quran Al-Ikhwaniah (Rohingya). We also managed to provide a freezer to the Maahad as they need one to keep their monthly food stock.

May Allah bless all of our effort in contributing to the development of Khair Ummah. Amin

SPECIAL REPORT: INTERNATIONAL TRIP TO PERTH, AUSTRALIA

Assalamualaikum respected readers,

After 3 years of being in charge of the Efficacy Learning Programme (ELP) Department, conducting an educational trip out of Malaysia is something I have never thought of before. Alhamdulillah, the idea was triggered by Allah s.w.t after visiting Gading Kenchana solar farm in Melaka and after thinking how can this renewable energy themed project be extended.

After a series of research, finally I proposed to the directors of the school to have a trip to Perth, Australia, without any high expectation but more to experience the process. Alhamdulillah, I managed to find two institutions related to wave energy and biomass energy in Perth.

Everything has been arranged by Allah s.w.t, the land down under welcomed our group consisting of 15 students, a parent and I on a beautiful cold windy sunny day on the 25th November 2017. Subhanallah! Fish and chips at the Fremantle port nearby Indian Ocean perfectly served at a very beautiful restaurant absolutely satiated our hunger and tiredness.

The Pinnacles tour on the second day presented the extraordinary sandstone pillars at the desert sands of Nambung National Park. We arrived around early afternoon and it was sunny yet cool after a four-hour journey. On the third day, we went to Australia Islamic College at Thornlie, Perth. Mrs Endah Heyes, the principal of the school welcomed us and provided a tour of the school that has a unique mix of students and teachers from a wide variety of cultural and ethnic backgrounds.

Carnegie, Clean Energy company was our main agenda on the fourth day. The company is working to transform the global renewable energy market through its unsurpassed wave energy technology. Alhamdulillah, Mr Mathieu Cocho, the Analyst Engineer of the company with full of interest, explained about wave energy to the students. We thanked him for his support since the beginning of the project! The next day, Professor Anas Ghadouni from Indian Ocean Marine Research of University of Western Australia waited for us at the lobby of Energy Center. He elucidated on the biomass energy research done at the university.

Penguins Island was the last place we visited before returning home. We took the MRT for 45 minutes to the white sandy beach that is surrounded by crystal clear waters located south of Perth; The Island is situated at about a 5- minute ferry ride away in the heart of the Shoalwater Islands Marine Park.

During this programme, students were asked to make a cross-curricular project. Video recording and interviews are examples of the final products. The first experience of conducting this international programme was invaluable. The most challenging part was to make sure that the students engage in experiential learning cycle, such as the reflection and conceptualisation, effectively.

There are many IHES processes and approaches that can be improved in the next round. Another challenge was to construct good planning with very limited resources. Students also needed to adapt with the group work skills in managing their project since the places visited, involved long journeys and required effective communication. Despite that, many good memories with the students and lessons were learnt from this tour. Alhamdulillah, may Allah always help the ELP unit to produce even better programmes in the coming years.

Next! Tokyo, here we come. Insha Allah.

Thank you.

PRIMARY 1 TRIP 2017

Alhamdulillah for year 2017, Primary 1 managed to organize a Field Trip to Beryl s Chocolate and Farm In The City. The whole day excursion was held on Thursday, 21st September 2017. 138 students and 17 teachers took part in this year s excursion. First, we went to Beryl s Chocolate in Sri Kembangan. The students were exposed to a variety of information on the history of making chocolates. They even demonstrated how to make chocolates and gave students to taste of the chocolate. After that, the students were allowed to buy some chocolates to bring home.

Around 11.00am we continued our journey to Farm In The City. The students were able to learn and experience the wonders of animals and nature in the heart of the city!

Later we had our lunch at Kentucky Fried Chicken outlet nearby and performed our Zuhur prayers together at the mosque before continuing our way back to school. Alhamdulillah we managed to arrive in school before 4.00pm.

Every year, each primary level in Adni is given a chance to hold an educational trip. This trip is organised to expose students to places other than the school and how certain products are manufactured. Another objective of this trip is to strengthen the relationship between students and teachers, Insha Allah.

This year we visited Flip Out Indoor Trampoline Arena, Kota Damansara and Beryl s Chocolate, Seri Kembangan on the 13th of September 2017. We hired tour guides from Just Relax Holidays Sdn Bhd for this trip. The students along with the teachers had breakfast at school before departing to our first destination which was Flip Out Indoor Trampoline Arena. It took us around 40 minutes to reach the first venue. As soon as we arrived, we were brought to the counter and each of us was given an entrance ticket that looked like a wristband and a pair of grip socks (shoes are not allowed in the premise). Everyone, including the teachers, had the time of their lives jumping from one trampoline to another. There was a foam zone provided where visitors could fly through the air and land on soft foam pit. We thanked the instructors that were present at the venue for helping us monitor the children and coming up with interesting activities for them.

We spent about 2 hours there before we moved to the nearest KFC restaurant for lunch. After that, we performed Zuhur prayers at a mosque located next to Beryl s Chocolate factory. We were welcomed by a representative from Beryl s before we were ushered to a room where they showed us a video presentation on how chocolates are made. Next, we were taken on a short tour around the factory so we could get a closer look at how the staff prepared their products. We ended our trip by shopping for some chocolates from Beryl s.

Alhamdulillah, we reached the school safely around 4.00pm. Teachers were glad that the students enjoyed their trip. Hopefully, this trip would be of benefit to us, Insha Allah.

Alhamdulillah on Tuesday, 12th September 2017 at 8.00 a.m a group of 111 primary 3 students and 12 accompanying teachers managed to organize a field trip. The main objectives for this trip were; to strengthen the ukhuwwah between students and teachers while experiencing fun and interactive teambuilding activities. While waiting for the travel agent, each student was given special t-shirt, a bag and breakfast by the teachers. We started our journey to Beryl s Cookies Factory by 3 buses with recitation of dua led by the ustaz. We safely arrived there at approximately 9.00 a.m where we were shown a video of the history of chocolates and some cookies baking demonstration.

Our trip then continued to KFC for lunch before going to EnerZ Extreme Theme Park in Subang Jaya. All the students really enjoyed their time there as they were guided by the coaches with various fun and exciting activities such as trampoline jumping, Gut Builder, Gladiator, group competition and many other physical activities. Alhamdulillah, even though the students really enjoyed themselves, they still remembered to perform their Zuhr prayers there.

After a simple prize-giving ceremony, we headed back to school and safely reached there at around 4.30 p.m. Everyone seemed excited and was looking forward for the next trip, Inshaa Allah.

It has also a number of kid-friendly rides, including a merry-go-round (Carousel), scaled down rope obstacle courses (Low Ropes), and pedal go-karts within a 100-metre-long track (GoPedal). Islamic Arts Museum, on the other hand, is a place for the students to improve their knowledge about Islamic Art. Around 74 students and 8 teachers participated in this trip. The students were divided into 2 groups which were according to their busses and classes. We arrived safely at District 21 by 9.00 am.

There are 11 large activities in this indoor adventure park. The rides and game points are all well maintained, with sufficient ground staff to ensure that everyone's security is taken care of. PRIMARY 6 TRIP 2017

Every year, each primary level at Adni is given a chance to hold an educational trip. This trip aimed to expose the students to the outside world, other than the school and their homes. It is also a stress relief trip for the students and teachers after undergoing the challenges of a major examination. The trip not only seeks to open their minds but also as a means to strengthen ukhuwah between teachers and students, insyaAllah. After all, the Malays have a saying that says *Jauh perjalanan, luas pandangan* or loosely translated, the further you travel the wider your views.

For the year 2017, with 9 accompanying teachers and 63 students (boys and girls) of Primary 6 classes, they managed to visit Perak Darul Ridzuan. Perak was chosen in conjunction with the Visit Perak Year 2017 campaign by the state government.

At 8:45am on Friday morning one bus and 2 school vans departed from Sekolah Islam Adni on route to Perak. After long journey on PLUS Highway we arrived at Adni Cafe for lunch. Adni Cafe

The second day's destination after breakfast at the hotel, was the Laksa factory. Students were briefed on how to make Laksa traditionally and everyone had a bowl for tea. The next destination was Home Stay Labu Kubong. This Home Stay was chosen because it was awarded by the Ministry Of Tourism Perak, as the best Home Stay in Perak. This Home Stay is surrounded by paddy fields with hills in the background. A very cheerful welcoming ceremony was prepared by the villagers for the students. Students were then presented with a Malay traditional dance and Martial Arts called Silat. Students were also welcomed with a variety of Malay traditional kueh and Malay local food.

THAI ENGLISH IMMERSION PROGRAM 2017

3RD APRIL - 28TH APRIL 2017 | SEKOLAH ISLAM ADNI
Participated by 10 students from many part of Thailand.

SMA KHADIJAH – SEKOLAH ISLAM ADNI IMMERSION PROGRAM

31ST MARCH 6TH OF APRIL 2017

This year we received all female students for the SMA Khadijah Adni Immersion program. They arrived on the evening of 30th of April. They were welcomed and a taaruf session was conducted on the 31st of March by two Adni facilitators, Sister Wasilah Shaari and Sister Nurul Ain Azmail. Besides the taaruf session, the girls were divided into groups and had to invent and share the name of their group as well as their group's battle cry. The next day Adni two facilitators acted as hostesses and accompanied them on their first outing to Putrajaya. At Putrajaya they were taken on a tour of Astaka Morocco, Masjid Putra and of course, they also went shopping at IOI Putrajaya. Sunday was shop-till you drop day! The girls went shopping at Central Market, Times Square and Jalan Tunku Abdul Rahman.

The previous group did a project on a country of their choice. With this group, the teachers felt that being an all female program, it would be nice if they did a project on women who inspired them. In groups they selected their

intended study subject, did their research and prepared a presentation. Most of them chose Indonesian Women who inspired them. Besides working on their project, they managed to join Adni Classes and their student council representative met up with our prefectorial board for a fruitful exchange of ideas.

For their farewell on the 6th of April, they did not only presented their project but also shared a cultural dance and their school song. What was also impressive was a violin recital by one of the students. At the farewell, attended by Ir Dr Fauzi, tokens and gifts were exchanged, photos were taken and everyone said their farewells. The students and their accompanying teachers left for Singapore, which was part of their travel itinerary. Although this trip was brief, everyone including the facilitators forged a bond of sisterhood, Alhamdulillah.

UKHUWWAH ACROSS BORDERS 2017- PHUKET, THAILAND

29TH OF AUGUST 2017

Bismillahirrahmanirahim.

Alhamdulillah, on the 29th of August 2017, a group of helpful volunteers ventured to Phuket and Koh Yao Island off the coast of the beautiful Thailand. A team of 16 people, consisting of two adults and 14 students, willingly participated on this expedition with the objectives:

1. To promote and encourage ADNI students to participate in activities that are in the interest of and benefit to Muslims abroad,
2. To provide an opportunity to ADNI students and staff to experience and empathize with the lives of the Muslim minorities,
3. To develop a sense of gratitude for what Allah has endowed us with, feel love and care for others and,
4. To understand the life and culture of the Thai Muslims and develop friendship and ukhuwwah with the Thai counterparts.

The trip, a duration of five adventurous days, was an even split between community service and a little vacation to ease the participants' minds from the challenges in school, considering the fact that it was done during the school holidays.

Immediately after arriving via AirAsia from KLIA2, the team was sent to the first school on the list, Tariq Pittayapat School, a small primary school hosting a total of roughly 160 students. The school, established in 2009, first began as a nursery bearing the name "Tariq Genius House". The nursery then moved to Thalang in 2011, then with a total of about 20 students, was officially established as a private primary school in 2014.

During the introductory speech by the advisor of the school, Mr. Imran, the total number of schools in Phuket round up to about 115 with an estimated 73 thousand students in total. There are 3 special education schools, 56 government schools, 10 vocational schools, 31 private schools, and 15 local administrative schools, all of which are controlled by the local authorities. With this, Mr. Imran added on that the number of Muslim students are said to be about an estimated 18 thousand; Tariq Pittayapat

with 160, Banrung Paka School with 40, Muslim Wittaya with about 2000 and other non-Muslim schools with the remaining 15 thousand.

After a delicious Briyani lunch prepared by the school, the ADNI team were then surprised by a performance by the school's very own adorable students! The effort they put in singing a song in English, though barely understandable, captivated everyone's hearts and displayed how happy they were in receiving guests that were going to help them progress towards a better future.

At about 2 in the afternoon, the team then continued their mission to the second school, a much-bigger Muslim Wittaya School which is located in town. The school, rather large, has facilities such as a mosque, a science lab and a large field for physical activities.

A speech was given by the headmaster of the school who, coincidentally, spoke very fluent Malay as he had worked in Selangor for a period of time. According to him, the school was established 41 years ago and was built for the purpose of providing proper education for Muslim kids, who, in the past, had no schools that followed the Islamic syllabus. The subjects taught there include Diniyyah subjects such as Tajweed, Fiqh, Al-Quran studies and Arabic. Equal attention is given to regular subjects such as English, Mathematics and surprisingly, Bahasa Melayu as well. The school system houses students from primary all the way up to secondary 6. It was also mentioned that the school had made pacts with various universities in Dubai and the UAE to help fund the Islamic education. Students from the Muslim Wittaya School are also said to have much better ease in getting into local and international universities.

For tea, the team was served with banana and sweet potato fritters, alongside a cup of premixed coffee and were then given a short tour of the school. At around Asr time, the team then made their way to Dinar Lodge, their accommodation for the two nights in Phuket. The following day was filled with sightseeing and souvenir shopping for loved ones back home. Among the places visited were Phuket Old Town, Sunset Peak, and beaches like the famous Patong beach and Kamala beach were peppered with tourists from all the corners of the world.

The third day happened to be Merdeka Day and with the spirit of patriotism, a couple of enthusiastic students took the initiative to bring along the Jalur Gemilang and waved it proudly to show love towards Malaysia, even though they were 600 miles away! In the spirit of Merdeka as

well, the very-talented Teacher Zainab had designed the uniforms for the trip beautifully inspired by the Malaysian flag, with the bright blue, fiery red, pure white and striking yellow, which was worn proudly by the entire team.

After a boat ride that took approximately two hours (with a rendezvous at a hidden island and an unplanned snorkeling adventure with the singing of Negaraku in the ocean), the ADNI team safely arrived at the second intended destination for their humanitarian expedition, the hidden gem Koh Yao island. With sand soft to the touch, seashells as beautiful as jewels and amazing jade-coloured water, the team settled in in a homestay directly across the beach and were given time to rest.

On Aidiladha morning, the team travelled approximately fifteen minutes to a local mosque to join the Jama'ah Eid prayers, headed by the imam who gave a tazkirah, presumably on the history and the importance of Qurban.

The scenario was amazing. The locals accepted help from the ADNI team with open hearts, though there was a slight language barrier but our guide, Luqman, helped a lot, and the food cooked was more than delicious. Alhamdulillah, the team was fed very, very well!

It can be concluded that the goals that were set by the ADNI team prior to the trip had been successfully reached with the help of Allah SWT. As one of the participants of this journey (Alhamdulillah), from my personal perspective I had gained more than I had bargained for and had a wonderful experience discovering how Islam is practiced in different parts of the world, blooming a sense of gratitude that Islam isn't only just limited to a certain race of people.

The actual Qurban itself was done after a majority of the Jama'ah had returned, but a decent number of locals stayed to help along with preparation of the meat. The slaughtering of the cows began at around 11 in the morning (after the students had changed into their KRS clothes), with the first two cows being slaughtered on behalf of a few of the students and the students' family members who had paid for it.

In addition, the little memories collected, such as getting excited in 7-Elevens and sharing rooms with really good friends, has got to be hands down, the most memorable humanitarian trip so far.

And I hope that we get to continue this tradition for years to come, InsyaAllah.

Some of the male students were also given the opportunity to skin the cow, while the female students helped process the fresh meat for distribution.

- To learn about a new culture
- To learn how to adapt to a new culture
- To strengthen the ukhwah between teachers and students
- To give new experiences to the students
- To implement the Qur an in their daily lives
- To instill the habit of reading and as their point of reference
- To make the Qur an their best friend
- To remember to do such sincerely for the sake of Allah.

For the Prophet PBUH once said, The best among you (Muslims) are those who learn the Qur an and teach it. Sahih Bukhari.

We were gathered at Sekolah Islam Adni and taken to KLIA by the school van. We reached Jakarta Airport right after Isya and were met by two teachers from JIBS. Afterwards, we were driven to Puncak; and were accommodated with a resting place at the beautiful Villa Sakinah where we stayed for two nights.

On Monday morning, I sent the students to the school and were met by the headmaster. We were then given a tour of the JIBS school as wells as the new JIBBS boarding school. The next morning, I was taken around the premises of their preschool, JISC, where I was met warmly by the headmistress Miss Dwi of Tadika Jakarta Islamic School and the teachers along with their students who welcomed guests with unmatched kindness. From what I saw, the teachers organised and disciplined yet tender hearted demeanor which reflect positively on the overall environment of their classrooms. In the spirit of getting to know the teachers, I was asked to conduct a story telling session and shared a story called The Mousetrap for the children, next I participated in a sharing time with the teachers.

What intrigued me the most was the alternations of the uniform among the teachers and students, in which each day would call for a different colored uniform except Friday, whereby one class would have a non-uniform day on a rotational basis so that everyone would have the same opportunity.

After a week in Jakarta I was joined by our director, Puan Laili, Vice Principal 1, Puan Siti Zaitun and director of Adni Bangi Puan Rusmah. The itinerary of our tour of Jakarta were as follows:

Friday / 1 December	Puan Laili and the others arrived at Jakarta Airport and rest.
Sunday / 3 December	Attended Graduation Tahfiz Camp 30 Juzu' Awards at JIBS
Monday / 4 December	to Bandung
Tuesday / 5 December	to Darul Hikam Bandung then to Jakarta
Wednesday / 6 December	visit Gema Nurani and JISC
Thursday / 7 December	Flight to KLIA

In conclusion, I am very happy and thankful to Allah swt to have had this chance to experience a new culture and educate not only my students but myself on new teaching and learning styles.

As quoted by our beloved Prophet PBUH, If anyone travels on a road in search of knowledge, Allah will cause him to travel on one of the roads of paradise (Abu Darda in Sunan Abu Dawood).

DEPARTMENTAL REPORTS

And the life of this world is nothing but play and amusement. But far better is the house in the hereafter for those who are Al-Muttaqun (the pious). Will you not then understand?

(6: 32)

I shall remain patient until patience itself cannot bear my patience anymore. I shall remain patient until Allah grants permission to my affair. And I shall remain patient until patience knows that I kept patient on a matter which required patience.

VOCATECH DEPARTMENT 2017

The Vocatech Department 2017 with the driving force of eight talented and committed teachers has succeeded in the running of the departmental activities throughout the year, Alhamdulillah, below were a few activities that need to be highlighted:

1. The English-Vocatech Week

Overview

This time around, the Vocatech department is collaborating with the English Department to run its departmental week for 2017. The English-Vocatech Week was held from 20th of April 2017 to 25th of May 2017 (We had to stop a few times in between to give way for other school programs). The English-Vocatech collaboration came up with a humorous, lesson-to-learn drama about frauds and cheatings in businesses nowadays in the opening ceremony. The talented casting members were comprised of the Secondary 4 boys.

Vocatech Week Activities

This year, the highlights of the Vocatech Week were the Batik Workshop and the Mini Young Entrepreneur Carnival. These two unprecedented activities received good responses from the teachers and students.

(a) Batik Workshop

Organised by the talented artistic Teacher Zainab, this workshop, held at the Dataran Najah Adni offered a variety of intriguing batik painting activities, lovely products and souvenirs for sale. These activities were: batik painting, batik canting (batik drawn and painted using a special tool called canting), tie-dying for T-shirts and lastly, the Do-it-Yourself totebags and pencil cases. Students and teachers participated in batik painting or drawing, doing the canting on a piece of cloth and tie-dying. Some of the products were made to be sold.

(b) Mini Young Entrepreneur Carnival

In this two-day program, all the Secondary 4 students, acting as young entrepreneurs were given the chance to sell a variety of foods and goods. This was a good learning experience for them in setting up a business using their own capital, as what usually happens in real life. This program was organised by the committed teachers: Ustaz Nazmi, Teacher Nurhayati and Teacher Azeera.

(c) Apart from the highlighted activities, we also had our usual activities/competitions : Arts Competitions, Masterchef Competition, Accounting : Quizzes and Monopoly Games and the Design & Technology Assembly Quiz.

PRIMARY BAHASA MALAYSIA AND ENGLISH DEPARTMENT MONTH 2017

Alhamdulillah, the combined efforts of the English Department together with the Bahasa Malaysia Department initiated their first monthly department programme of 2017, at Primary School level, with the theme:

**‘Buku :Jendela Dunia
Books : My Window to the World’**

Unfortunately, reading habits in children are not as prevalent in today's era. Therefore, the language department strongly believed and decided that by organising fun activities associated with reading, it could encourage and motivate students in Adni to inculcate reading as their number one favourite past time, insyaAllah.

Our month started from the 13th of March to the 13th of April 2017. We conducted various competitions such as Reading Competition, Poster Competition, News Reading Competition, Scrapbook and Public Speaking for English. Meanwhile, for Bahasa Malaysia, we had Pertandingan Bercerita, Pertandingan Peta Minda dan Pembentangan, Pertandingan Buku Skrap and many more interesting competitions and activities. Besides that, we also organised quizzes during assembly.

For the launching, a window was made out of recycled items and hung during assembly. (Dr) Hj. Hasni Mohammed, our beloved Principal, was asked to open the window, which thus, launched the Bahasa Melayu and English Department Month for 2017.

Alhamdulillah, it was a great month. All this would not be possible without the hard work of the students and teachers, which made this month a memorable and beneficial department month. Until next year, InsyaAllah.

DATARAN ILMI (LAUNCHING EVENT)

GUEST OF HONOUR : Ir Dr Fauzi Abdul Samad
Hjh Rozana Hussien
Pn Nuraniza Kasim
Pn Nurakmal Abd Rahim

SUMMARY OF EVENT

Mathematics, Science and ICT Departments once again have collaborated in organizing departmental week of 2017. During the launching (gimmick), Ahmad Shaheen, Sec 4 At-Tirmidhi controlled a drone to bring one mathematics question to be solved by Dr Fauzi. He will opened a safety box containing a purple cabbage solution using this answer as the password and perform a simple science experiment involving the purple cabbage and another different indicator. The significant of this launching was as a reminder that we all come from the same Creator, Allah. Allah give us the ability to think and choose our way and improve our selves as mentioned in Surah Ar-Rad; 11,

For each one are successive [angels] before and behind him who protect him by the decree of Allah . Indeed, Allah will not change the condition of a people until they change what is in themselves. And when Allah intends for a people ill, there is no repelling it. And there is not for them besides Him any patron.

Among the activities held during the departmental week were:

1. Puzzle me Not! for IEC Class
2. Tarsia Jigsaw for Secondary 2
3. Algebraic Detective for Secondary 3
4. Trigo Engineer for Secondary 4 & 5
5. Gadgetmatic Teen Challenge for Secondary 1-5

Alhamdulillah, participation received was absolutely tremendous. Students were happy and they were looking forward for more activities in the upcoming years. PRIMARY TRI-DEPARTMENTAL MONTH (COMPUTER STUDIES, ART & CRAFT AND PHYSICAL EDUCATION) 2017

Once again, the Computer Studies, Arts & Crafts and Physical Education Departments joined forces to organise the Tri-Departmental Month for the 2017 academic year. It was held from 25th October to 15th November 2017 with the theme 'Empowering Healthcare and Art via Technologies', and was launched and officiated by the Principal/CEO of Sekolah Islam Adni, Dr. Haji Hasni Mohammed.

Among the objectives of the programme were to create awareness of healthy lifestyle among the students, and to enable students to understand the concept of a balanced life.

Various activities integrating the three subjects were carried out throughout the month including aerobic sessions for boys and girls, telematches, creating health posters, speed typing, making healthy food, fun run,

futsal, handball and netball tournaments, as well as several talk programmes. The Department Month programme kicked off with an aerobic session by an invited instructor, as a positive and healthy way to start our healthy lifestyle.

One of the talks involved a sharing on *Safe and unsafe touches: the danger of social media & pornography*. It was a very good talk as it exposed the students to the other, grimmer side of social media other than what they understood or was previously believed. Furthermore, it provided them something to think about the next time they are on social media. InshaAllah, they will act more wisely! An organic soap making demonstration was also conducted by an expert. They used cooking oil and another simple ingredient to produce the organic soap. The organic soap is usually used by people who have very sensitive skin and are not able to use any soap bought from the market shelves. It was an interesting demonstration for students who witnessed how the soaps were made, Alhamdulillah.

The month concluded with a prize giving ceremony for the winners of the contest and competitions held throughout the month. May Allah reward all teachers for their hard work and commitment to ensure the success of the events.

MESSAGE FROM THE HEAD OF HADHONAH ADNI

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

Everyone has a different path but as Muslims, the roads we take may be different but our destination is one – Allah.

Verily, all praise is due to Allah. We praise Him, we seek Him and we ask for His forgiveness and we seek refuge in Allah from the evil of our own selves and from the evil consequences of our actions.

Whomsoever Allah guides, none can misguide and whomsoever Allah leaves to stray none can guide him. I testify there is no God but Allah, and that Muhammad is the Prophet of Allah.

Alhamdulillah, we are able to meet again on the pages of FIKRAH 2017 with the theme Travellers . I am humbly thankful at the opportunity given to pen down my thoughts and ideas yet again, in the pages of the much-awaited school s year book.

The theme for FIKRAH 2017 draws its inspiration from the theatre produced and staged by Sekolah Islam Adni, entitled The Travellers . The title is based on the hadith by Rasulullah. Be in this world as if you were a stranger or a traveler along a path , The hadith sets to remind us all that we are just travellers in a temporal existence; that this dunya is just a place for us to seek our provision for the permanency of the hereafter. Our fate and final destination hinges upon what we do in this dunya, the deeds that we collect. The theatre chronicles the life of an insan on his journey in this world.

Travelling is said to broaden one s mind as the Malay saying goes Jauh perjalanan, luas pandangan . Travelling not only benefits the mind, the body but also has a spiritual transformative effect. Travelling, amongst other things, enables reflections (tafakur), elicit empathy, humility, patience and syukur besides enabling one to mature through the many experiences whilst on travels. Everyone has a different path but as Muslims, the roads we take may be different but our destination is one – Allah. But as with any journey it would begin with the first step.

As humans we begin our lives as cute adorable babies in the arms of our mothers. Tiny babies that come squealing into this world, as not only helpless, immobile little bundle of joys but having little or no knowledge. However, through the course of time and the hands that nurture the babies go from a state of immobility and helplessness to upright mobility and independence, from a state of not knowing to knowing more. And as the babies grow, they move from childhood to teen hood/puberty to adulthood and so forth .

A baby begins a process of development that includes physical, intellectual, emotional, social and spiritual. As the hands that nurtures, we need to ensure that our children gets the best of all aspects of a child s development. That is after all the mission and vision of the school: to develop a balanced and holistic individual with total submission to Allah. It is our responsibility as parents as well as teachers to ensure that our children are not only equipped with the knowledge of dunya but most importantly of akhirah; do not only have cognitive intelligence but also spiritual intelligence with good adab and akhlak.

At Hadhonah, as much as possible we try to stay true to our tagline: Laying the foundation with knowledge and taqwa. We realise that we are not merely your child s carers but also nurturers, not only nurturers but also educators. Understanding the important relationship of brain development and child development, we try our best to make the best of the early years, by providing a conducive environment for learning to happen. Engaging activities that are both fun and stimulating, created on a daily basis that targets those aspects of child development and developmental milestones.

Adab and akhlak are also fundamentals aspects that we strive to instil in the children through the daily activities that begin once they set foot in the centre. Every moment is priceless to us. Every moment is an opportunity to teach, to develop the children. The 4 years a child is with us at hadhonah sets the foundation or launch pad for a child for his/her educational/developmental journey. InshaAllah, Hadhonah sets the child for the next stage in her educational journey Next stop, RAUDHAH.

As travellers ourselves, we need knowledge and, will continue to acquire knowledge through the various training sessions and talks, so that we can do a better job as nurturers and educators of those in our care. It is hoped that through the partnership of parents and teachers and under the guidance of Al Quran and As sunnah , we would be able to provide better programs and activities for the children.

In ending, we would like to commend parents for their support and trust in us. Let s continue to forge alliances for the sake of our children s future and ultimately the future of the ummah. To the staff of Hadhonah Adni, I am humbled by the efforts that have been shown throughout the years through the blood, sweat and tears'... No words is enough to express the gratitude that I feel. To the board of directors and my esteem colleagues in the management, I owe each one a debt of gratitude for the support rendered thus far. May we continue to work together with mahabbah and ukhuwah for the sake of the future ummah. Ameen.

Yours sincerely,

Azlila Hanita Abdul Aziz

Head of Hadhonah.

Hadhronah 2017

To completely trust in Allah is to be like a child who knows deeply that even if he does not call the mother, the mother is totally aware of his condition and is looking after him.

Al Ghazali

Very young children can and do learn to read words, sentences, and paragraphs in exactly the same way they learn to understand spoken words, sentences, and paragraphs.

MESSAGE FROM THE HEADMISTRESS RAUDHAH ADNI

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

The aim of Islamic education is to form individuals capable of growing culturally, socially, and above all, spiritually.

All praise is for Allah; we praise Him, repent to Him and seek His forgiveness and help. We seek refuge in Allah from the evil of our own selves and our wicked deeds. Whomsoever Allah guides, none can lead astray, and whomsoever Allah leads astray, none can guide. And I bear witness that none has the right to be worshipped except Allah alone, and I bear witness that our Prophet Muhammad ﷺ is His servant and Messenger. May Allah send peace and blessings upon him, his family and his Companions until the Day of Judgement, ameen ya Mujeeb.

Congratulations to the Editorial team of FIKRAH ADNI 2017 for producing the latest edition of the magazine. I would like to express my heartfelt gratitude for giving me the opportunity to pen down a few words.

The teachings of Prophet Muhammad ﷺ and the history of Islamic Civilisation remind us of the importance of education for Muslims, and the need to be learned, trained, educated and ready to take on not only religious responsibilities, but social, cultural and professional ones as well.

The aim of Islamic education is to form individuals capable of growing culturally, socially, and above all, spiritually. Under the umbrella of Islamic teachings, a human being sets him/herself on a JOURNEY of self-discovery that would ultimately help him/her to recognise God in every action and moment of one's existence. Educational and religious organisations, or family nucleuses, can educate people Islamically if their transmission of knowledge has a religious perspective and orientation based on the teachings of the Quran and the Sunnah of the Prophet ﷺ.

Any claimant of following Prophet Muhammad's ﷺ way will ultimately have to live up to such a beautiful and all-encompassing example. To educate oneself Islamically does not end with teaching oneself or others – some basic rules of Islamic practices or how to read Quran. It is not about trying to Islamise knowledge, but rather about ensuring that every subject taught, such as Science, Mathematics, Language, Art & Craft etc., are taught in such a way that the student learns about the world, and the rest of humanity, through an Islamic worldview.

The early years of a child's education are critical in laying the foundation for learning in their future years. During this time, children absorb knowledge at amazing rates and develop the skills necessary for success in school and life.

Preparing your child for a lifelong journey of learning is the primary goal of RAUDHAH ADNI. Our small, nurturing environment and experienced staff focus on the cognitive, social, and emotional well-being of students while building upon the strengths of our INTEGRATED HOLISTIC EDUCATION SYSTEM (IHES). The Preschool schedule allows for the students to have ample opportunity for unstructured free play time with a balance of teacher directed time to help prepare the students for the transition to Primary One.

We encourage our students to attain their personal best and we celebrate their individual accomplishments. Recognizing that most learning occurs through active participation, our teachers help students stretch to take that next step.

At RAUDHAH ADNI, we strive to map academic excellence with a good human value system based on the Quran and the Sunnah which in myriad ways is ingrained in the culture of the school. To achieve this, we strongly feel that a paradigm shift in the minds of all stake holders should take place so that when the school becomes the hub to initiate and formalise education it has its tenets enshrined in a good value system; the extension of which is thereby taken home where it is further strengthened. And our commitment to such education will always persist in all our endeavours.

Our programme is designed around implementing the Quran and the Sunnah. Indeed the Quran and the Sunnah of the Prophet ﷺ encourage us to educate our students whom we shall regard as our own children correctly; ordering us with righteousness and good conduct ourselves as well as ordering us to prevent our families from falling into that which would result in their own destruction. As Allah says,

يَا أَيُّهَا الَّذِينَ آمَنُوا قُوا أَنفُسَكُمْ وَأَهْلِيكُمْ نَارًا وَقُودُهَا النَّاسُ وَالْحِجَارَةُ عَلَيْهَا مَلَائِكَةٌ
غِلَاطٌ شِدَادٌ لَا يَعْصُونَ اللَّهَ مَا أَمَرَهُمْ وَيَفْعَلُونَ مَا يُؤْمَرُونَ ﴿٦﴾

O you who believe! Save yourselves and your families from a Fire whose fuel is men and stones, over which are (appointed) angels stern (and) severe, who flinch not (from executing) the commands they receive from Allah, but do (precisely) what they are commanded.

Surah At-Tahrim 66:6

In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect. I also laud the relentless efforts of our teachers for giving their best in bringing out the best in each child. But I would exhort the students to be always modest, humble and disciplined, while being ready to expand the horizons of their knowledge and skills by dreaming big and working hard.

We are all TRAVELLERS moving forward towards our FINAL DESTINATION the meeting with THE ALMIGHTY ALLAH.

الْحَجُّ أَشْهُرٌ مَّعْلُومَةٌ فَمَنْ فَرَضَ فِيهِنَّ الْحَجَّ فَلَا رَفَثَ وَلَا
فُسُوقَ وَلَا جِدَالَ فِي الْحَجِّ وَمَا تَفَعَّلُوا مِنْ خَيْرٍ يَعْلَمْهُ اللَّهُ
وَكَزَرَوْدُوا قَلِيلًا خَيْرَ الزَّادِ التَّقْوَىٰ وَاتَّقُونِ يَا أُولِي
الْأَلْبَابِ ﴿١٧﴾

For Hajj are the months well-known. If anyone undertakes that duty therein, let there be no obscenity, nor wickedness, nor wrangling in the Hajj. And whatever good ye do, (be sure) Allah knoweth it. And take a provision (with you) for the JOURNEY, but the best of provisions is right conduct. So fear me, O ye that are wise.

Surah Al-Baqarah 2 :197

May Allah bind our hearts together and give us strength in fulfilling our responsibilities. Ameen ya Rabb.

MESSAGE FROM PRIMARY HEADMISTRESS

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

Nothing would be of value to a Believer except his good deeds and worship he put forth for the hereafter

Alhamdulillah, All praises due only to Allah SWT, The one who guides and blesses us with abundant ni mah, especially that of Iman and Islam. May the blessings and peace be upon our beloved prophet Muhammad (s.a.w), his family, companions and all those who follow his footsteps.

On the authority of Abdullah ibn Umar (ra), who said: The messenger of Allah (saw) took me by the shoulder and said, Be in this world as though you were a stranger or a wayfarer (a traveller along the path). And Ibn Umar would say, If you survive till late afternoon, do not expect [to be alive] in the morning. If you survive till morning, do not expect [to be alive] in the late afternoon. Take from your health before your sickness and your life before death takes you .

In this hadith, Our Prophet Muhammad (saw) is trying to tell us how a Muslim should be in respect to this world. For the believer, his ambitions and aspirations should not be based in this World because this world is not our home; it is not our final abode. Each and every one of us is actually travelling to another destination which is the Hereafter, which would be our permanent home and resting place.

The time we spend in this world should be like that of a traveller, such that we live and move, just as much as it is a path that would lead us to the next world. This world offers us a lot but most are merely amusement and diversion. Nothing would be of value to a Believer except his good deeds and worship he put forth for the hereafter. Hence, our actions should be based on true intentions, for the sake of Allah. As Muslims, we all believe that Allah will look at these deeds and reward us accordingly which will be of benefit to us on the day of judgement when our eternal abode will be decided.

We shouldn't be too attached to the things in this life; most of them will stay when we return to Allah, we do not and could not take them with us on the Day of judgement. Thus, the mindset of a traveller should be that; all the things that we have actually belong to Allah and is only loaned to us. We will be tested in the things we love and our hearts should not be fixed on anything except Allah and His Qadar. We sieve this life as a challenge, strive, embrace and work with all that Allah has blessed us with, to help us get to the final destination and to meet Allah.

Dear brothers and sisters in Islam, let's ask Allah to embrace this life as a character building experience, to be able to face the daily challenges, and to help us prepare to arrive to our destination, whoever we maybe, a mother, a father, a daughter or a son, or whatever position we may have, a teacher, a student, a worker or professional. May we all become the traveller that embrace the true essence and teachings of Islam; so that we may be able to go through this journey back to Allah and to our final abode in Jannah InsyaAllah. Amin.

SECONDARY

“O you who believe, let not your wealth and children divert you from the remembrance of Allah. And whoever does that, then they are the losers.”

(63:9)

Invite to the way of your Lord with wisdom and good instruction, and argue with them in a way that is best. Indeed, your Lord is most knowing of who has strayed from His way, and He is most knowing of who is [rightly] guided.

MESSAGE FROM THE SECONDARY HEADMISTRESS

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

We could become travelers who always strive to reach Mardhatillah and we earn Allah's pleasure, that is our ultimate goal, InshaAllah.

عَنْ ابْنِ عُمَرَ رَضِيَ اللَّهُ عَنْهُمَا قَالَ أَخَذَ رَسُولُ اللَّهِ صَلَّى اللَّهُ عَلَيْهِ وَسَلَّمَ بِمَنْكِبِي فَقَالَ كُنْ فِي الدُّنْيَا كَأَنَّكَ غَرِيبٌ أَوْ عَابِرُ سَبِيلٍ وَكَانَ ابْنُ عُمَرَ رَضِيَ اللَّهُ عَنْهُمَا يَقُولُ إِذَا أَمْسَيْتَ فَلَا تَنْتَظِرِ الصُّبْحَ، وَإِذَا أَصْبَحْتَ فَلَا تَنْتَظِرِ الْمَسَاءَ، وَخُذْ مِنْ صِحَّتِكَ لِمَرْضِكَ، وَمِنْ حَيَاتِكَ لِمَوْتِكَ

[رواه البخاري]

From Ibn Umar radhiallahuanhuma said: The Prophet sallallaahu alaihi wasallam held the shoulders of both my shoulders while saying: Be you in the world as a stranger or a wanderer , Ibn Umar said: If you are in the afternoon don t wait for the morning, and if you being in the morning don t wait for the afternoon, use your health for your (preparation for) your illness and your life for your death

Alhamdulillah, peace and blessings upon our great Prophet Muhammad s.a.w, his companions and their families as well as all those who followed His teachings to the Hereafter.

Travelers , the theme of our magazine this year acts as a reminder to us, how our Prophet Muhammad s.a.w demands the Ummah to lead their lives in this world with respect to their akhlaq and their submission towards Allah swt, before reaching the eternal destination, the Hereafter.

Based on the above hadith, it is concluded that our life in the world is just temporary. This reminds me of my teacher s words that our life in this world is like a journey. We are mere travelers and the captains of the Ark that leads us to an unknown destination (from the Prophet Noah s story). We should be wise in sailing the Ark that lead us to the true destination and not get easily deviated, by following the directions of the compass granted to us by the Prophet Muhammad S.A.W: the Quran and As-Sunnah. As such, to reach the eternal destination, we are strongly reminded to gather as many supplies as possible in this world. These supplies would guarantee us,our place in Jannah and we could be spared from the punishment of Hellfire. Put aside all the duniawi or the materialistic things in this world such as the excitement, enjoyment and wealth in this world as they become burdens in our journey to the eternal destination.

Therefore, as a traveler, we should be wise and prudent to identify the burdens and the supplies in this world as this would take us on the righteous path to Jannah in the Hereafter. Supplies are the worships to Allah, the Almighty that would help and save us in the Hereafter, while burdens are deviation that would complicate and delay our journey entering Jannah.

Remember, this world is a place to grow and it is just temporary, therefore grab as many opportunities as possible for the sake of Allah; for the Hereafter. Be ready for the world as if you will live forever and be prepared for the Hereafter as if you are going to die tomorrow . [Al-hadith]

Hopefully, you and I become wise travelers and always put pleasure in this world in the palm of our hands and not in our hearts. And always pray for other travelers and remember them in our prayers. My prayers are that; we could become travelers who always strive to reach Mardhatillah and we earn Allah s pleasure, that is our ultimate goal, InshaAllah.

Congratulations and Jazakumullahu Khairan wa Ahsanul Jazá to ADNI magazine staff for all your effort, patience, sleepless nights and energy contributed. We pray that all your hard work will be seen to be of great value by Allah swt. Amin.

Jazakumullahu Khairan wa Ahsanul Jaza

MESSAGE BY HEADBOY 2017

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السَّلَامُ عَلَيْكُمْ وَرَحْمَةُ اللَّهِ وَبَرَكَاتُهُ

**“Coming together is the beginning,
keeping together is progress,
working together is success.”**

School is not only an infrastructure, but it is a practice for future; the things taught in school are not the education but it is the means of education.

It is a privilege for me to be the Head Boy of Adni Islamic School for the second time. I thank the Almighty for blessing me with such a great school. I thank our principal, my teachers and my schoolmates for the trust they have placed in me and realizing the hidden potential of a leader in me and electing me as the Head Boy , To become a Diamond you have to be cut and Polished and To be a shining star you have to be burnt

I especially would like to thank LOHIKARME Thank you for being the shoulder I can always depend on.

Dollah: He helped me to control the school for the past 2 years and stopped the unstoppable because he is the beast. Akram: He was my motivator and I learned from him to never give up. (He said, Name me one head prefect from the past that juniors don't hate and respect, I see that you have put more emphasis on the students on being more discipline to Allah than the school rules). Naw: I learned from him how to keep students united and work as a team because of his leadership in sports. Kaif: The best assistant Head prefect I ever worked with even though he was no longer on the board but his heart always stays blue and keeps helping me until we graduated. Ali: He was always kind to me and never failed to help me whenever I needed him and that motivated me to do the same to my juniors. Nasar: I learned from him to get ready for the future and he always keeps me positive when he called me farmajo . Faris: He always makes us laugh and prevents the school from becoming boring. Rais: My first friend in Adni . I learned from him how to be good to others no matter what they did to you and this made me treat every one fairly too. Hassan: The nicest person I ever met. He really taught others what life is, actually. Umar: He was always patient whenever he faced difficulties and because of him I did the same. Aniq: He is a good hearted person and always kept supporting me. Chong: He taught me how to be responsible in every action I took. Shaf: He always treated me like a brother and kept me moving all the time. Zain: He always told jokes that made you do better.

To All my Thailand friends; thanks for taking care of me like a black diamond .

Because Allah says in his Al Qur'an, if you are not thankful to people you are not thankful to God. Lastly at the end, Adni was ruled by a bunch of Africans. So never forget that.

MESSAGE BY HEADGIRL 2017

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

Look after one another. We are one ummah; don't tear it apart. Be kind and forgiving, remind others constantly of Allah SWT, for it's in our nature to err and forget.

All praises due to Allah SWT, the All-Knowing, whose mercy and guidance do we seek for as long as we live. May Allah's blessings be upon the KhatamulAnbiya - our beloved prophet Muhammad SAW, his family, his companions and upon those who follow in his footsteps. I welcome you to this page with the beautiful greeting of Islam.

وبركاتها للرحمة عليكم والسلام

Were you surprised to find this page? I know that many of us tend to flip through the Fikrah ADNI just to count how many pictures there are of ourselves or our friends that we could possibly find (I know I did :P) Now and then I look back at my years in ADNI and I can't help but wonder, What have I done for ADNI? and even What has ADNI done for me? So come, I invite you to a little *Down the Memory Lane* with me!

Everyone's journey at ADNI is different, but even so we are taught the same message since we were young - to gain knowledge so that we can strive in Allah's path. I vividly remember starting ADNI in Primary 2, how easy it was to feel lost in a labyrinth-like school for the first few days, and forget where your class would be. Those years became very dear to me, as it had taught me a lot of valuable life lessons and skills that weren't only restricted to the four walls of a classroom. It was also then when I made friends whom I never thought would stick with me until the end. Every day was new; there was always something to look forward to, something new to discover about myself with the help of many supportive teachers. I found that as my academics and social circle develop, so did I as a person.

Enter secondary years. (Two words: Culture shock) Truthfully, every year feels so much harder than the last, it was overwhelming at times. Balancing between academics, CCAs, social life and so forth became a huge challenge that happened so suddenly, and I'm sure it was no easier for the teachers either. But as difficult as it was, I would never trade those memories of hardship and tears or laughter and cheers for anything. ADNI had taught me to direct all my emotions and situations to bring myself closer to Islam; to be grateful in times of ease and to be steadfast in times of despair. Because Verily, with hardship comes ease. (94:5) It's been a ride, and I proudly say that the batch of UNI7Y has left a number of legacies.

Now, being a prefect opened a whole new chapter in my journey. Oh believe me; becoming a prefect does wonders to you if you're looking to improve yourself. Though one should keep in mind that it's never about having authority - it means sacrificing a bit of your time and effort to give back to the school. It means listening to the problems of our peers and juniors, and aiding them in any way we can with the teacher's help. It means looking towards a brighter ADNI by upholding the oath and setting an example for others. It means inspiring others to do good, even if it's through a smile.

I spent a lot of time at ADNI, around ten years to be exact, that it naturally felt like my second home, my teachers were like my own parents, and my friends were my family. Without a doubt, ADNI holds a special place in my heart. I could go on, but I'll stop myself here. Your own experience in ADNI will speak for itself, so use it wisely, okay?

Before I end, I'd like to leave a piece of advice. After many years of being here in ADNI, I came to one conclusion: Look after one another. We are one ummah; don't tear it apart. Be kind and forgiving, remind others constantly of Allah SWT, for it's in our nature to err and forget.

Finally, shout-out to all the amazing teachers in ADNI for teaching all of us! On behalf of the students, we appreciate and love you! Only Allah SWT can reward you for everything you've done for us, and rest assured your efforts will not be in vain. Shout-out to all my friends and juniors for simply being there and being cool beans. Shout-out to the ADNI staff for ensuring that all is well and in order in our school. ADNI just won't do without you! Last but not least, shout-out to you, my dear reader. Thank you for taking your precious time to read!

Remember, while we might part into different ways, our goal is one.

This is Nurul Intan, over and out!

KADET REMAJA SEKOLAH

Kadet Remaja Sekolah Musleh (KRSM) is a compulsory co-curricular activity for all male (syabab) and female (fatayat) students (cadets) with one main objective to carry out the tarbiyyah process through a variety of outdoor physical activities and disciplined approach. This is in line with the Integrated Holistic Education system implemented in ADNI.

Cadets attend the weekly trainings to upgrade the required survival skills which are then assessed and evaluated through competitions and programmes during the Internal, Outbound and Annual Camps. Selected cadets are then assigned to attend several Musleh National and International Programmes to give exposure, enhance

their skills, as well as interact with other school members at both levels. All of the activities are strictly in compliance with the Islamic environment, which is made compulsory like having the congregational prayer, tazkirah, qiamullail and hirasah during campings.

Throughout the year, we have received full support from the school management as well as parents and guardians. We hope that we will continuously receive the support in our effort to produce future Ummah leaders and bring all of us closer to Allah swt. May Allah bestow all of us with stronger iman and taqwa throughout our journey in this world to another eternal life in the Hereafter.

ADNI TAEKWON-DO CLUB 2017 REPORT

TAEKWON-DO lessons as part of the co-curricular activities (CCA) was introduced in Sekolah Islam Adni in the year 2000. Students were initially affiliated and trained by Independent Martial Arts Academy Malaysia for 10 years, and later by Action Martial Arts Academy Malaysia for about 6 years.

In 2017, inspired by few events, Adni TaeKwon-Do Club (ATC) officially established itself under the name Adni Martial Arts Academy, with the following objectives of establishment:

1. To directly affiliate the TaeKwon-Do club in Adni with the Malaysian Ministry of Sports & Youth (KBS) and ensure all instructors are licensed by National Sports Institute (ISN);
2. To conduct grading three times a year, aiming to produce black belts in a shorter span of time; and
3. To expose TaeKwon-Do students to district, national and international-level tournaments and championships.

Major events in 2017 include Pre-Grading Seminar on 1st April 2017 and Black Belt Grading on 19th December 2017 which had successfully promoted eighteen Adni TaeKwon-Do students ranging from 12 to 15 years old to 1st Degree Black Belt, congratulations!

PRIMARY KARATE CLUB 2017

Bismillah Ya Rahman Ya Rahim

Alhamdulillah, praise be to the one and only Allah for making the learning and grading of this year s Karate Club successful. The lessons that had taken place at the school musollas every Tuesday were constantly receiving full attendance.

The beneficial activity is a proof that physical activities are not only necessary for health, but are also enjoyed by the students. Needless to say, activity like this promotes self-discipline, punctuality and improves self-esteem amongst the students. They also acquire self-defence in the end.

Grading on the other hand was done throughout the year based on students achievement. This again, was well-received by both parents and students. The Karate Club members look forward to having a better year ahead as they upgrade themselves with the continuous learning.

PRIMARY KARATE CLUB (LEVEL 5 & 6)

Day	: Thursday, 4.30 -5.30 pm
Teacher on duty	: Cikgu Zaimah Mohd Zain
Teacher in Charge	: Sensei Rijal

The Karate Primary Club involves Year 5 and 6 students. The students participation in each training session is very encouraging. Overall, with limited training, students could still understand and follow the techniques of self-defence well. However, the instructor strives diligently and earnestly so that the pupil can master all the defence skills. Pupils also undergo a level of mastery testing to find out their abilities. It is hoped that such activities will become the main asset for enhancing co-curriculum assessments.

ADNI DEBATE CLUB

In 2017, Nous Academy was able to execute its second phase of the process of revitalising the ADNI English Islamic Oratory Union (AEIOU). We had a consistent set of students attending both the public speaking & debate classes throughout the year. This included consistent attendance for the weekend classes held at the academy on Saturdays. Considering that the members were still beginners and had a lot to cover, they performed well in classes during sparring rounds and gradually improved when they applied their feedback into their training.

The most telling aspect of the group is that the students were well prepared and did bump up their desire to read more rigorously and spent time engaging in meaningful and quality discussions. This ultimately helped the debaters & public speakers improve and excel at the class under the guidance of trainers in both classes. We expect more is to come in 2018.

2 teams from the Debate class also participated in the Malaysian Debaters National Highschool Debating Open (MDHO) this year and were able to perform fairly decently. The team consisting of Muhammad Hadi & Nurnajla were able to accumulate an average of 1 point a round and totalled 5 points out of 15. That is fairly decent for 2 individuals at their first competitive tournament.

Muhammad Nornajmi from the Public Speaking class was also able to make it to the Quarterfinals of the Malaysian National Public Speaking Competition (MNPSC) and performed well in it.

Training had extensive sparring sessions and was able to test the students on issues they have heard about and also introduce them to new issues they were unaware of. A lot of basic conceptual discussions were made and applied to all sparring sessions they had with each other. Some topics were given before hand and some were given ad-hoc and were to be delivered via impromptu speeches.

On many occasions, the trainer had assigned work prior to class and had the participants read up and conduct some research prior to having training.

Training involved lectures classes, practical sessions where speeches and debates would be conducted, guided crowd-source discussions and skills related activities such as argument generation, rebuttal generation and POI exercises to test their knowledge and skills in all aspects.

All these exercises were used to better expose these students to the realities and pressures of real world debate tournaments and to prepare them to excel in those situations, which they eventually did later on in the year.

ADNI English Islamic Oratory Union (AEIOU) has two classes that operate within it. The ADNI Debate Club and the ADNI Public Speaking Club. The Public Speaking Club is open for all school members to join, subject to a stipulated monthly fee to be paid.

The same goes for the Debate club. To join the debate club, participants needed to partake in training in the Public Speaking class and be prepared by the trainers to be upgraded to the Debate class. Participants go through rigorous training in order to master the fundamental aspects of these skills to prepare them to either compete in Public Speaking or Debate tournaments.

ENGLISH CLUB 2017

Alhamdulillah ala kulli hal wa kulli nikmah. In the club's introductory year of commencement, it has already received such an overwhelming response from primary students with a whopping 34 participants comprising of Primary 4, 5 and 6 students.

The sessions were held every Friday from 3.00 pm to 4.00 pm. During the sessions, the students were initially exposed and taught public speaking skills.

The short-term goals were to equip students with necessary tools and skills needed to be a confident and apt speaker, conquer stage fright and nervousness and be able to properly write formal speeches.

Long term goals included to be able to develop the skill of thinking on one's feet and be able to differentiate between solid points and weak points in an argumentative speech. Students were also familiarised with the debate formats specifically the parliamentary style debate commonly practiced in Malaysia.

Alhamdulillah, students showed a great interest and effort in attending sessions as well as completing tasks put forth to them and they have given their utmost cooperation and participation so far.

Activities throughout the year:

1. Weekly speeches with various themes/motions such as academics, economics, humour etc.
2. Reporting on Masterchef Adni from first-hand point of view (POV)
3. Gathering information/data/statistics exercises where students were to conduct surveys through the means of interviewing
4. Video presentations on TED talks, Toastmasters and debate competitions

YOUNG JOURNALIST CLUB

Learning about journalism gives children a chance to build important skills such as researching, writing, interviewing and thinking critically. They also learn about the community and themselves. By reporting on certain topics, journalists; insyaAllah are able to give information needed to decide on anything, from which shop to buy the best toothpaste to which school they should send their children to.

The Young Journalist Club (YJC) in Adni consists of two levels; the Primary and Secondary Levels. Alhamdulillah for 2017, the primary students were very participative and active during club meetings. There were 30 students altogether. The students helped to plan and organise club activities throughout the year.

We had activities such as Newspaper Column where students were asked to write about events in Adni. They

wrote about the Swimming Carnival, Sri Sports, Puteri and Main Sports day 2017, the Department months, the TKRS camps, Qiyamulail and many more. The students learned to write according to the news format. They also had the opportunity to interview teachers and friends. Students also learned on how to write creatively and report honestly on certain events.

Hopefully next year, the activities will improve and be even more exciting as well as educational. The students loved YJC alhamdulillah. With proper guidance, insyaAllah these creative and talented students will one day become brilliant journalists who can change the perception and minds of the world, into becoming a united ummah and be closer to Allah SWT.

The Media club was established to develop students hidden talent as journalist as well as to express and share opinions and knowledge, enhance ideas and skills through journalism and multimedia.

- Posters and media competition in conjunction to Merdeka / Eid-Raya / Teachers day celebration.

Most students were enthusiastic to carry out their journalism task such as designing posters, writing reports and editing using editing software such as Adobe Photoshop.

In a nutshell, the club had done a tremendous job this year. Insha Allah, we hope for more participation from students next year as media is surely a powerful tool to transform people s minds. We hope to continue to spread love and positivity in our school community, insha Allah.

Amirah riding Remy and Solehah riding Cherry got 2nd and 4th places respectively in the senior category.

The 5 November 2017 dressage competition had 5 competitors from ADNI school. It was a good experience and exposure for three boys who took part for the first time. Haziq and Nur Iman got 2nd and 3rd place respectively alhamdulillah.

2017 saw about 50 students riding in 9 sessions on Tuesdays, Thursdays and Fridays at The Royal Selangor Polo Club (RSPC) in Ampang and on Saturdays and Sundays at the Malaysian Equine Council Arena at MAEPS (in Serdang). This year the practices revolved around basic riding skills for the new students and pushing it further for the senior ones.

DIVINE RETRIBUTION OR...?

BY ILYAS JOHARI

Alhamdulillah, all the ECA programmes went well for the year of 2017. Why ECA? ECA stands for extra- To put it in one word, the situation was pandemonium. On the streets, you would hear the large machinery in wait, their rumbling drowned by the cacophony of the arguing folk. Inside, you would find labourers lifting the last few tables and chairs out. Where the cars would have been, you would instead see the restless masses herded by authorities. And off to its side, you would see me, savouring my final glimpses of where I had survived for most of my life. You would see me, but you would not see me.

For the past 30 years, misfits just like myself had crossed arms to build a society where we could coexist and call home. Although I had not yet reached a 10th anniversary after being brought here, it was here where I had made a living to put food on my table, a light in my lamp and a person on my bed.

Despite that, in an instant, the yellow behemoths were soon shrouded in dust. Despite that, there were still those who swept in with the talons of vultures to scavenge anything they could find. Despite that, the tears did not remain from where they appeared. Prior to then, never had I felt any more vulnerable; never more extrinsic; never more invalid. But once again, I felt alone.

It was last year today when word had first gone around. My boss spoke much, but now I remember only “closing down” reaching my ears. Never before had I heard those words, and of course, then, it was only in a year.

But I also remember a man. That man who said he would help us; who would save us. He told us that he would get us a new home. But I also remember why he would be of no help. In truth, this place should not have been. The land I had been standing on had never belonged to me, or to any of us. If only I had known. If only I had acted.

With nowhere to go, I could only stand there, wallowing in sorrow. I stood there hoping it was all a dream. But I realise now, that I must reap what I have sown. They say that life wasn't meant to be fair. This may well be divine retribution, but it may be even more well that I deserve such things.

POEMS FROM THE BARAKA BLUE WORKSHOP

Ambition

BY AMIR AFIQ

Let me walk you through,
On an impossible mission,
Making it come true
To fulfil one's ambition.

Sit , ponder and wonder
In fact have a cup of tea,
Look beyond the rain and thunder
Say 'Hey! That's what I want to be!'

There will come a time when you fall,
And you'll feel really silly,
But remember first of all,
Nothing good comes easy.

Get back on your horse,
Just don't get swallowed in,
For not trying at all
Will be your greatest sins.

Trust me, you won't regret,
You won't feel hollow
The scoreboard will be tied a set,
And after every dark storm comes a rainbow.

It will make you shine so bright
Like a gem among the stones
So it's time for you to ignite
That spirit in your soul
Achieving a dream is good and all
But nothing is as it seems
And none of it will happen
If you don't go plant the seed

Time for you to see for yourself,
What you want, just envision
You can give a man everything in life
But you can't give him AMBITION.

Dreams: Nightmares and Ambitions

BY SAKINAH MUNAWARAH

Dreams are the past and the present
Of a single that sparks thousands
That brighten and enlighten
Of a simple and a vibrant

Dreams will chase
But be careful
Lest you fall
In utter haste

Dreams are ugly creations
Swimming in the darkest open vacuum.

Dreams are painful
Singing multiple songs at once,
Eerily alluring, eerily deceitful
Like a black cat in the woods

Dreams are splinters
Dreams are rainbows
Dreams are ideas
But always, always successful
Discomfort is what I feel
Of repeating dreams
In which you fell
And me and my eyes
Letting you fall, immobile

Dreams paint a splattering, painting red
And a soft tender blue
Combine it and you get a perky purple hue
It hurts and soothes
Quite anti-climatic, are you?

Dreams aren't solid nor liquid
Grasp your hands and you get hold of,
Emptiness
But fear , not..
Dreams are not part of you,
But inside the beautiful vessel I call you

I need dreams despite the ringing bells
So I come out a repaired human and ..ALIVE!

POEMS FROM THE BARAKA BLUE WORKSHOP

Poem by Anon

In silence he sat,
Mind deep in thought,
Reliving his past
For memories not gone

Quietly, he stays there,
Motionless in awe
As he goes over the wonders
Of what his mind has brought
Then a smile
So secretive you'd think
Oh.....nothing it means
Yet feeling a lot more, to him

Out with his ink
Feather in hand
Then comes the paper
On the table, it lands

With a smile,
He starts writing,
His hand, with no effort
Glides over the paper.

As he pours out all his feelings
He still stays deep in thought
Writing and writing
Thinking he will never stop

Alas, came the end
With a heavy heart
He puts down his pen
Parting with what he feels
His closest friend

But as he sits and reads
He now understands
That when there comes a start
So, follows the end

And he smiles for he knows
What his poem can bring
The joy and the sadness
All, inked on one page

Just for the people
To know the way that is right.

Colours in Dreams

BY NUREEN ADLINA 2 AN NASAIE

A dream is like a colourful miracle,
Yet they say it's always impossible
It feels like flying around puffy pastel clouds
Around the beautiful sky without any doubts

A dream seems like something that'll never came true.
Where people try to stop and bring you down
Insecure and feeling burdened while having no clue
Colouring your face with a frightful frown
Everything was suddenly gray and dark
The stars were gone, not leaving a single mark
Anxiety attacks at such an uninvited time
Colours and dreams were meaningless and it's all just,
blind

Feeling trapped in a narrow prison
Thinking negative thoughts with a blank vision
But what is life when you have zero dreams?
Start painting your life again and bring out
the light beams

Blue, pink, purple and red
Erase the shades and throw out the hates
Shine with a smile and believe in fate
Because drawing on a canvas is never too late

Birds and rabbits and a shallow waterfall
Kids playing around in a wide bright hall
It's all about happiness and freedom, you see
Chase your dreams again and set it free

From a black pencil sketch to rainbow picture
Those scars and wounds actually do have its cure
Since it's okay to fall down in confusion
Run forward towards those dreams because it's never an
illusion.

AS OF TODAY

As of today, I graduate in less than two months. I am anxious knowing these next months will be filled with tears, both of joy and sadness. Graduation is an important event in everyone's life and people all react differently. However, for me graduation will be an emotional roller coaster, bouncing off the walls happy one minute, sobbing reciting the school's pledge for the last time. A little over-dramatic you say?

Let me explain.

From January to November, from 7:15 am until 4:30 pm (2:30 pm on Fridays), my friends have been my second family. I have known most of my classmates since freshman year, some since kindergarten. Some I would die without, others just help me make it through the school day. Never the less, they are all my family.

My classmates are my support system and I love each and every one of them as if I was their sister. They have been with me through it all and the bond we have is unbreakable. Outside of my friends, I have made so many important connections with everyone in my school. Although we have not always gotten along, my teachers have encouraged me and taught me so much more than just math, history, Malay language, etc. I truly owe my success in high school to them. I have gained confidence in myself and my abilities and will bring that to college, whichever one I choose.

To think that in a couple months I will be walking around a college campus without my classmates is scary. Learning to navigate a college campus is overwhelming, yet I will be forced to do this all while living on my own for the first time in my life. Gone are the days of "rolling out of bed and going to school". The concept of having to wear something other than a uniform and maybe sit in a different environment in class still gives me a pit in my stomach. Do not get me wrong, I cannot wait for college, but I really will miss wearing Adni school uniform and following all the rules on a daily basis.

As I reflect on my last five years in high school, I get teary-eyed knowing I might not see some of my classmates ever again (or at least for a very long time). On the other hand, my heart is full because I know my friends are about to embark on this journey with me, making new best friends and facing new experiences.

I go into these next two months eager to spend as much time as I can with my crazy, wonderful class. I will walk into school and smile because I have learned to respect each other, doesn't matter who you are, where you're from and what your title is. I truly cannot wait to see what the future holds for me, but until then I will cry every time someone mentions about our memories in school.

Yours truly,
Seniors of Batch 2017

And do not turn your cheek [in contempt] toward people and do not walk through the earth exultantly. Indeed, Allah does not like everyone self-deluded and boastful. And be moderate in your pace and lower your voice; indeed, the most disagreeable of sounds is the voice of donkeys.”

MEET RAIHANA

Meet Raihana. She is from Kazakhstan. In 2015 at the age of 15, she and her family came to Malaysia so that she could learn English and gain some positive new experiences. At that time her English was very bad and thus, she was recommended to attend Adni's Intensive English Class.

Under the tutelage of Puan Umairah Diaz and Brother Renato, Raihana was able to improve her English in just 4 months. She became intensive English class best student that year.

She is now 22 years old. She is an entrepreneur, teaching English in Kazakhstan. She fondly remembers her days in Adni and lauds Adni teaching staff for their good teaching skills and professionalism. She especially feels indebted to Puan Umairah and Brother Renato for inspiring her to be an English teacher.

THEY CALL ME ABU BAKR

They call me Abu Bakr. Who? My friends in Adni call me Abu Bakr but my name is Manas Kraithad. I am from Thailand. I was in Sekolah Islam Adni from the year 2007 to 2012. I first joined Adni as an Intensive English Class student. Alhamdulillah, after six months in the intensive English class, I was able to join the mainstream classes, as my English had improved considerably. What was my secret? I merely followed the advice of my teachers. One of the most effective suggestions given was to communicate with my friends outside the classroom, using simple English sentences, which I did. Besides that, I consistently practiced my pronunciation of English words loudly during my free time. Over time, I was able to improve my English. Alhamdulillah, now, I am a 3rd year medical student in MAHSA University, Malaysia.

I would like to take this opportunity to thank all my teachers in Adni, particularly, my Intensive English class teachers for guiding and teaching me throughout my years in Adni. I would also like to express my sincere gratitude to my Adni friends who have motivated and helped me improve my English. May Allah reward all of you for your sincere efforts. Ameen.

MY NAME IS OKI

My name is Oki Mikio, and my Muslim name is Taqiyuddin. I am a Japanese Muslim.

Japan's Muslim population consists mainly of Indonesians, Pakistanis and other small expatriate communities, which represent less than 0.08% of the total population (approximately) since there is no accurate data, while the estimated Japanese Muslims consist of less than 10% of the total Muslim population. In other words you can only find 8 Muslims amongst a hundred thousand people. On the other hand, in Malaysia, Muslim population was recorded as 61.3% of the population in 2015. (official) And thus, to be in a minority Muslim society is not as easy as people think. In fact, many parents over there have, and are facing difficulties in educating and teaching Islam to their children.

These problems arise because; let us just say you are a mother of one, two or even three children... how do you educate somebody in Islam when you are the only person saying things which are different from the rest? For instance you are the only one saying that pork is prohibited but everyone around you is eating them. So which is true? It can be confusing not only for a little child but a teenager such as me! I was taught in Japanese schools to stress on logic and my favourite subject is mathematics. I am used to rationalising things including religion.

Though I perform prayers in school and fast during Ramadan, I did not face any big challenges of discrimination compared to my sisters. My sisters, who from their appearance were different from others with them wearing the scarves/hijab and covering their bodies. Although we were taught to respect others, it is common for teenagers to want to be like their peers who were not Muslims but were the majority. And this could be challenging!

Although I did not feel any discrimination but I used to doubt whether the religion of Islam is the true one. I believed in Islam, but I had my doubts. As I was born Muslim, I thought I am just a Muslim because I was born that way. I was in a situation where nobody could guide me, except for my parents. What would you do if you were in my position when 1000, or a million people say Islam is not a true religion but there are only 2 people who keep saying "YES it is"? If you were me, at the age of 7, 12 or even 14 years old, would you believe these 2 people instead the millions? Would you go with the majority? Wouldn't you be in doubt and question which is true?

I was sent to one of the best high school specialising in engineering with myself being the only student from my junior school that managed to be accepted. However my mother was very worried of my faith, as I was more academic inclined at that time. My mother emphasized that the most important thing is to have a close relationship with Allah. She then suggested that I move to an Islamic school located in Malaysia together with my sister.

I was then sent to Adni Islamic School. There, I confided my feelings of doubt to one of my teachers, in which he suggested that I try put 100% in Islam without trying to believe or not believe, and let Allah determine and resolve my predicament. So I agreed and decided to put 100% trust in Islam, in Allah! I submit totally and absolutely, without question! Alhamdulillah, after some time, I could feel peace in my heart and mind and blessings especially when performing Ibadah.

Perhaps other than my parents, my background of studying in Islamic school during primary 1-2 had helped me strengthen my faith. I am thankful for the opportunity given to be able to experience being in a majority Muslim community such as Malaysia.

I am also truly grateful to the people who have supported, guided and advised me in my times of doubt. I hope to repay this by being the supporter/champion of the future young generation of Muslims especially those who face struggles of being raised in minority Muslim country.

Graduated with Bachelor of Economics from Saitama University, Japan and now pursuing his Masters in Developmental Economics at Sussex University, United Kingdom.

A MOTHER FOR ALL: A TRIBUTE TO ZAITON MALEK

BY JULIA JAFFAR

Zaiton Abdul Malek was like a family to those who knew her, like our own flesh and blood. She touched many lives, in her own way. She was always a shoulder to cry on, a deeply loving and caring person. But what made me most proud was when anyone needed defending, her protection could be ferocious. For many, there is a sad but sweet remembrance of her, a memory fond and true and heartache, still for her.

It was around the year 1990 that I first met her, a soft spoken, all smiling and firm looking lady who was the personification of grace and discipline. A young mother herself at that time, she was very focused in child development and hardly missed any talks and conferences in and out of town, which was scarce at that time. She believed in giving only the best to the children.

It was during the time that I was running my own child development centre and she entrusted two of her older children to me. I nurtured her children for years, and this would later reverse in years to come. It came when I was posted to Sudan but was not able to be there due to delay in visa, while my three sons were already in Sudan, all by themselves if not for Puan Zaiton Abdul Malek and her husband, Dr Hasni. Separated from my children for the first time ever in my life, I was, of course worried sick. For almost a month, she took my children under her wing like they were her own, the same way she helped raised so many other children.

I have had my ups and downs after the death of my husband in 2005 and I remember during one of those bad moments when I poured my heart out to her while she listened intently and with a few words, she put everything into perspective. InshaAllah, the words syurga itu mahal (jannah is expensive) remain with me and I use it to comfort my family as well as others. I realised that Allah swt uses good people to do great things. We are forever grateful to Puan Zaiton Abdul Malek, for being a great woman, who used her life, time, skills, intelligence, creativity and energy for the sake of Allah swt, to serve His deen and the ummah.

The day she asked me to help her establish IIC (Integrated Islamic College), changed the trajectory of my life and from then on, the lives of so many children, young adults and individuals. Her goal was to establish pearls in them that would brighten the paradise with the beauty their deen would carry. She knew that the future of the ummah would be built on the strength of our children and she worked tirelessly to that end, without concern for herself. Even as her health showed us that she would soon return to Allah's grace, giving just as much of herself as she did when she was fully able.

For many who loved her sincerely in life, still love her dearly in death. In her final chapter, she left a hidden gift, inspiration. We ask Allah swt that He accept her sacrifice and enter her into the highest level of jannah alongside the martyrs, the prophets and the righteous. Allah swt was the destination that this shining star of a woman had directed herself towards, during her journey here on earth.

In Loving Memory of
**PUAN ZAITON

What friends and colleagues say...

Kak Ton was a colleague, sister and confidante to me. I always turn to her for her matured, well thought opinions and ideas. She taught me the real meaning of total reliance on Allah swt. Her last words to me was 'Kak Ton amat bersyukur di letak dalam keadaan seratus peratus bergantung pada Allah'

Laili Ismail.

Director of Sekolah Islam Adni

My time with Kak Ton was short and compounded by the few actual encounters. Nevertheless, she struck me as one who is very calm. When presenting any issues to her, calmness enables her to focus and digest facts critically and without prejudice or biasness.

She's a kakak to us, very wise and calm. Someone we can count on. May Allah bless her in the hereafter.

IISA

Allahyarham Pn Zaiton Malek as I could recall, had this serious aura about her - but if you knew her well enough she was actually a joyful person. She would occasionally tease me about my ballooning midriff (which, to this date - never seems to deflate) and my 'abnormally' wide strides whilst walking; but honestly, I had never found them offensive (and I am the type that wouldn't mind laughing at myself) maybe because I knew that she was just being casual and meant well (and seriously I missed those moments). She's a thinker, and I believe she was an ardent reader and would always kept herself abreast with the latest trends in education. She was one of the few people in Adni who would, without hesitation, pick up the rubbish when she bumped into one. She was open to new (and at times-crazy) ideas about the school. I remember quite vividly when she came back to work after having spent some time recuperating from her illness, I noticed that she had lost some weight, a lot indeed! Out of concern, I exclaimed; 'Are you okay Puan? You seem to lose weight?' And, with a grin on her face, she jokingly replied, "I pun nak jadi model..". And that was the Zaiton Malek that I knew - still managed to make us laugh although we knew by then how sick she was. Sadly, that was our last exchange of remarks. May she rest in peace, Amiiin.

Fauzi Yahya.

Research and Development Unit, ADNI

To me...she has always been the cool one, always observing but reserve her comments. That's akhlaq to the highest degree.

But once she opened her mouth, its always a nasehah, or a point that is so true, or suggestions that are wise. That's wisdom to the highest degree.

Her loyalty and support that she gives to her husband was admirable, solid! That's khadijah to the highest degree.

Her vision and mission for the ummah, to be with the best, to produce the best, to fight for the best. Thats the best to the highest degree for ummat Rasulullah s.aw

Dearest Kak Ton Malek...for you I pray that you will get Jannatul Firdaus... the highest degree of jannah and even more and more.

Missing you very very much

Fari@ Sabariah Faridah.

IISA

A mother to many of us, one whom had acknowledged anyone that crossed her path, may they be ones whom holding paper and pens to those holding brooms and mops. Never failed to ask about our families and ever generous with kind words and monetary rewards. With a warm smile, and a beautiful voice, she left us without we ever saying our goodbyes. What I remembered most, she often said; "Never quit, we must work till our last breath" and that was exactly what she did. Oh, she is so missed. May Allah forgive her, protect her from azab in the grave and azab in an-naar, may she be rewarded for all her kindness, may she enters Jannah without hisab. Ameen Ameen Ameen. We miss you kak Ton, no one can take your place in our hearts. May we be gathered together in Jannah Ameen.

Noraseken Abdul Rahman,

Suryaya Ahi Bakar,
DHM of Primary School.

They say, pictures tell a thousand words. Looking through the many pictures of you, brings back memories...and a yearning. Oh how we miss you....all we have are memories.. Memories are made of these....paths we tread , the journey we took, talks we had, jokes and laughters we shared, meals we had and the bond we made. You were always ready to lend your ear (and shoulder) and so generous with your motherly smile and advice. You exuded love, compassion and sincerity. You are loved, remembered and missed by all hearts that you touched. May Allah grant you an abode in jannah and protect you from azab of an nar. May Allah swt gather us in Jannatun Adni. Ameen.

What I remember most about Puan Zaiton Malek

It was Sri Sports Day in 2015. I was in the midst of choosing the right size at one of the stall which sells tudung when Puan Zaiton Malek came. I introduced the seller (whom apparently was Adni new parent) to her. She was also interested with the tudung and chose a few for herself. She paid and walked away. When I already made up my mind and wanted to pay, the seller said, mine was already paid by Puan Zaiton Malek. I was so touched of how generous she was. In general, when it comes to staff benefit and welfare, she would always wanted to give more. May Allah be pleased with her always and grant her with the highest paradise. Aamiin.

Our Hearts still ache
With sadness and
Many tears still flow
What it meant to lose
You, no one will know
We hold you close
Within our hearts
And there you will remain
To walk with us
Throughout our lives
Until we meet again

A FAREWELL POEM

Thank you,
To you,
Who saw potential in us,
Who saw what was hidden beneath us,
And helped to bring it forth to the world when we felt like dust.

Thank you,
To you,
Who had several other batches in your books,
Yet still saw us in favour,
Saw us to be one of those for you to cherish and remember.

Thank you,
To you,
For sacrificing weekends and holidays,
Fought against us sometimes to have us hear what you have to say,
For now we understand you were just working hard for us to have better days.

Thank you,
To you teachers,
Who had always called us “my dear”,
Making us feel loved and cared upon for months to years,
For now we have gained this connection that was a barricade once,
That has now turned into sincere acceptance.

Thank you,
To you teachers,
For giving us the most lending ear,
For compromising with our criticisms - with our cries,
For being patient at times where it felt difficult at all our tries.

Now, at last,
You will see us grow
From the teenagers you saw lined up in assembly with crooked rows,
To adults standing on stage,
Pledging our very last but not least Adni vow.

Now at last,
You will see us strive,
With the potential you saw when we've been in classes together,
With the light you saw that was shining upon our chests,
Trust us, our dear teachers,
We will do our very best.

Now at last,
These are my final words to you,
For the days you were by our sides,
For the days laughters were shared,
For the days teamwork was there,
Thank you,
To you,
For making us people
Who are united and noble.
