“And remember when your Lord proclaimed, ‘If you are grateful, I will surely increase you in favor; but if you deny, indeed, My punishment is severe.’”

*Qur'an: Ibrahim, Verse 7*

A grateful heart is the  
beginning of greatness

# FROM THE EDITORIAL DESK

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

Gratitude towards Greatness is the theme for Fikrah 2019, which was also the theme of our recognition day this year. Gratitude is not only the heart and essence of Islam; it is also the key to attracting abundance, prosperity, peace, and success in one's life. We can say that Gratitude and/or Shukr are the most important aspects of Islam. We as Muslims should always be thankful to Almighty Allah for all the blessings that are given by Him. He is the Creator of this world alone and He is The Most Merciful to all His creations.

**"Be grateful to Allah for who so is grateful is grateful for the good of his own soul"**  
(Holy Qur'an Luqman, verse 3)

Let us render thanks to Allah swt for the innumerable blessings He has bestowed upon us in this world. Expression of gratitude is one of the secrets of happiness while ingratitude is one of the causes of worry, depression and misery. A grateful person is always praising Allah whatever may be his lot for he realises that there are many far worse off than himself. It is also a mark of a true Muslim, who expresses gratitude when granted prosperity be it in words or action and is patient when facing adversities. The Prophet Muhammad (may peace and blessings of Allah be upon him) has declared that for a true Muslim life is full of good all the time:

"For a Muslim, life is full of good and nobody but a true believer finds himself in that position, for if he meets with success he is grateful to God and becomes the recipient of greater favours from Him. On the other hand, if he suffers pain and tribulation he endures it with patience and thus again makes himself deserving of God's favours."

Both gratitude and patience will result in Allah's favours, Gratitude has been described as the memory of the heart. God has not only expressed his love for those who are grateful but has also promised reward for them:

**"And Allah will certainly reward the grateful"**  
(The Holy Qur'an Ali Imran, verse 145)

And the reward for the grateful is Allah will give you more... In the Holy Quran, Allah Almighty says: "And remember! Your Lord caused to be declared: If ye are grateful, I will add more unto you" (Quran, Ibrahim-7).

Alhamdulillah, we are indeed grateful that this year we are able to share with you another edition of the school magazine...FIKRAH 2019. The magazine lays out the myriads of activities that our children, teachers and staff were involved in throughout the year. This in itself is a blessing to be grateful for... Many skills were acquired; many knowledge gained, many lessons learnt, many hearts touched ...and insyaAllah good adab and akhlak imbued. Alhamdulillah.

This year, you will be presented with a different FIKRAH but not so much in the layout or presentation. You will notice there are an increasing number of bylines with the names of students. Alhamdulillah, this was what was envisioned for the magazine: a magazine written by the students for the students and the Adni family. May this magazine slowly develop as such.

This magazine would not find its way to your table, if not for the tireless efforts of the backbone of any educational institution – the educators of Adni, the murroibun and murrobiyat of SIA. Although saddled with many workload as teachers, they were able to find time to write and contribute to this magazine. I am truly grateful to be able to work with you. May Allah swt reward your sincerity and hard work.

As for the students who contributed to this magazine...Hats off! I am so proud of you even though I could not put a face to the name. Am proud to read and edit your works. May Allah continue to guide you and mould you into individuals of great stature to the nation, to the ummah and Islam. Ameen. Allahu Akbar!

As you flip through the pages and read the reports, let it be known, that the magazine would not be what it is without the assistance and support of our ceo/principal Dr Hj Hasni, our director/editor/contributor Puan Laili Ismail, co editor Puan Umairah Diaz and the rest of the management team. There are many who have not only contributed reports but those who have worked with the editorial team in ensuring that articles and reports reaches the desk of the editor especially those who have helped to collect and collate articles and reports from the contributors. I feel humbled by the opportunity to work with you. May Allah swt reward all your sincere efforts.

Last but not least. Be grateful, not merely for the nikmah but also for trials and tribulations. For every cloud has a silver lining..a hikmah to be grateful for. Be grateful that you have this magazine... The magazine that sets to remind you of your days in Adni, the good times and the bad, achievements and pitfalls... Share it, cherish it..Alhamdulillah.

## GRATITUDE: PATHS TO SUCCESS & HAPPINESS IN THIS LIFE AND THE HEREAFTER

أَعُوذُ بِاللَّهِ مِنَ الشَّيْطَانِ الرَّجِيمِ ، بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ  
الْحَمْدُ لِلَّهِ رَبِّ الْعَالَمِينَ ، حَمْدُ الشَّاكِرِينَ حَمْدُ النَّاعِمِينَ ، حَمْدًا  
يُؤَافِي نِعْمَهُ وَيُكَافِرُ مَزِيدَهُ ، يَا رَبَّنَا لَكَ الْحَمْدُ كَمَا يَنْبَغِي لِجَلَالِ  
وَجْهِكَ الْكَرِيمِ وَعَظِيمِ سُلْطَانِكَ ، اَللَّهُمَّ صَلِّ وَسَلِّمْ عَلَى سَيِّدِنَا  
مُحَمَّدٍ وَعَلَى آلِهِ وَصَحْبِهِ أَجْمَعِينَ

Assalamualaikum Warahmatullahi Wabarakatuh

I begin with the praises and gratitude to Allah swt, the Creator and the Sustainer of the Universe; the One who provides, suffices, knows the needs and the state of all His creations including a fallen leaf. Allah swt says in the Qur'an:

**"And with Him are the keys of the unseen; none knows them except Him. And He knows what is on the land and in the sea. Not a leaf falls but that He knows it. And no grain is there within the darkneses of the earth and no moist or dry [ thing] but that it is [written] in a clear record."**  
(Surah Al-An'am, ayat 59)

My *Shukr* to Allah swt for His countless Blessings and Mercy upon humanity and, upon us, Muslims who have been given the sweetness of *Islam* as a way of life (*Ad-Deen*). My *Salawat* and *Salaam* upon our beloved Prophet Muhammad saw, a mercy to all creations, our role model and our guide until the arrival of The Hour or The Day of Judgement; a day where Allah swt describes in the *Qur'an*:

**"And do not disgrace me on the Day they are (all) resurrected - The Day when neither wealth nor children will be of any use (to anyone), except him who comes to Allah with a Sound Heart."**  
(Surah Ash-Shu'ara, ayaat 87-89)

*Alhamdulillah*, my immense and heartfelt gratitude to Allah swt for allowing Sekolah Islam ADNI to once again complete and release its annual Fikrah ADNI for the year 2019 where we share our philosophy and concept of Education from the worldview (*Fikrah*) of Islam. As usual, our Fikrah ADNI also features some of the many activities that our children have participated in throughout their 2019 academic year, which I believe and pray, have greatly contributed to their holistic human potential development. My thank you to all our parents and guardians who continuously support their children to be actively involved in all our school programmes so that they get the most from our integrated and holistic curriculum and programmes, *Alhamdulillah*.

To my respected and supportive parents, guardians, *Murobbun, Murobbiyaat*, and most importantly to my beloved children, anak-anak Pak Hasni yang dikasihi dan disayangi, in this piece of writing I have a very important message and reminder that I would like you to hold on to as it will be beneficial for all of us on walking this journey of temporary life in this world towards our eternal Home in the Hereafter, insyaAllah.

I would like to quote this very important message from a very important book called *Al-Waabil as-Sayyib min al-Kalim at-Tayyib* (On the Invocations of God) written by one of our greatest scholars of Islam, Ibn Qayyim Al-Jawziyyah *Rahimahullah*. In his introduction (*Muqaddimah*), his words of wisdom quoted;

“There is neither strength nor power except in Allah swt. It is Allah swt we implore and whose answer we await to watch over you in this world and the Hereafter, to shower you with His graces, outwardly and inwardly, and to make you among those who, **when blessed, give thanks (SHUKR); when tried, persevere (SABR); and when sinful, seek forgiveness (ISTIGHFAR)**. For these three conditions are tokens of the servant’s happiness (*sa’adat al-abd*), and the signs of his success in this world and the Hereafter. No servant is without them, but is always shifting from one to the other.”

In short, Ibn Qayyim *Rahimahullah* highlighted that if a servant seeks success (*Falah*) and happiness (*Saadah*) both in this *Dunya* and *Aakhirah*, one must acquire the virtues of **SHUKR, SABR** and **ISTIGHFAR**.

The first virtue to attain is **SHUKR** which means gratitude or thankfulness. When one is continuously blessed by Allah swt, what secures him is **SHUKR** or gratitude in these three ways: first, is to have internal recognition of the blessings; second, is to express external acknowledgment and thanks for it; and finally, to use it in a way that pleases Allah swt to whom the blessings and grace truly belongs and who truly bestows it. To respond in such manner, the servant shows his gratitude for the blessings regardless however short or little he receives. In addition to having the virtue of **SHUKR**, Allah swt mentions in the *Qur’an*:

“And (remember) when your Lord proclaimed, ‘If you are grateful (SHUKR), I will surely increase you (in favour)’.....”

(Surah Ibrahim : ayat 7)

Here, Allah swt promises the believing men and the believing women that if they are grateful, Allah swt will increase for them their favour in so many ways that they may not even expect it. In another *ayat*, Allah swt confirms in the *Qur’an*:

“..... And whosoever fears Allah and keeps his duty to Him (*Taqwa*), He will make a way a for him to get out (from every difficulty). And He will provide him from (sources) he never could imagine. And whosoever puts his trust in Allah, then He will suffice him.....”

(Surah At-Talaq : ayaat 2-3)

The *ayaat* above highlights that if a believer has *Iman & Taqwa*, Allah swt will find a way out for him (solution to every problem), gives provision to him from sources he least expect it and suffices his everyday needs in living this life in this *Dunya*. Allah swt also mention in another ayat from the *Qur'an*:

**"Guide us onto the Straight Path; The Path of those you have bestowed Your Favour and Grace (Ni'mah)....."**

(Surah Al-Fatihah : ayat 6-7)

In this ayat of Surah Al-Fatihah, Allah swt says whosoever chooses the path towards Allah swt will be granted His favour and grace (*Ni'mah*).

Based on the verses (*ayaat*) mentioned above, it is to note that the outcome or consequence of having the higher virtues of **SHUKR**, IMAN & TAQWA are the same; that is the infinite provisions (**Rizq**) from Allah swt in various forms such as Help, Guidance, Assistance, Mercy, Grace, Prosperity, Well being, Happiness (**Saadah**), Peace & Tranquility (**Hayyin**), attainment of other virtues such as sincerity (**Ikhlas**), reliance on Allah swt (**Tawakkul**), morality (**Layyin**) and many more both in this *Dunya* and the *Aakhirah*. How gracious and merciful Allah swt is to all His servants who are grateful (**SHUKR**), has IMAN and TAQWA.

In the following *ayaat* of the *Qur'an*, Allah swt reminds us:

**"Alif Lam Mim. (These letters are one of the miracles of the Qur'an that only Allah (Alone) knows their meanings). This is the Book about which there is no doubt, a Guidance for those who are Conscious of Allah (Taqwa)."**

(Surah Al-Baqarah : ayat 1-2)

This *Surah*, Allah swt begins with the *ayat* of *Mutashabihaat* whose precise and accurate meaning are only known to Allah swt. It then continues stating the fact that the *Qur'an* is without a single doubt, a book of Guidance ONLY for those who are conscious and fearful of Allah swt (*Taqwa*).

These *ayaat* point out the following; the idea that human beings are to some extent, limited in their knowledge and comprehension of Allah swt, life and the wisdom (*Hikmah*) behind the creation of the universe and its dynamic activities in comparison to Allah swt; meaning, there are some knowledge that are veiled to us and only known to Allah swt, The All Knowing. Take for example, our time in this temporary *Dunya*; we all know that we are living in this *Dunya* only for a short period of time and we will return to Allah swt on a day, time and place that we don't even know except Allah swt.

Another is the idea that the Knowledge, Guidance (*Hidayah*) and Wisdom (*Hikmah*) within the *Qur'an* will ONLY be apparent, clear and be of benefit to those who first and foremost seek to believe, have confidence in Allah swt, fearful and are hopeful in His Mercy and Grace; which is all within the virtue of TAQWA. Like the virtue of **SHUKR**; when a servant is grateful for whatever given to him by his Lord, Allah swt, He will send down blessings (*Barakah*) from the heavens and the earth in many forms such as Knowledge, Guidance (*Hidayah*) and Wisdom (*Hikmah*) which are key to attain TAQWA. Only then our lives will be transformed and reform towards success and happiness. How wondrous is the Love, Mercy and Grace of Allah swt towards His servants, *Subhanallah*.

Furthermore, when a servant attains the higher virtues of **SHUKR**, **IMAN** and **TAQWA**, Allah swt not only blesses him with success and happiness in this *Dunya* and the *Aakhirah*, He will also cause the heart of the believing servant to have **REDHA**, the willingness and joy of accepting an affair for the sake of Allah swt alone. In return, Allah swt gifts him with the gift of *Jannah*. Allah swt says in the Qur'an:

**"Their reward with Allah will be gardens, underneath which rivers flow, they will abide therein forever, Allah Well-Pleased with them and they are Well-Pleased with Him. That is for whoever has feared his Lord"**

(Surah Al-Bayyinah : ayat 8)

Nevertheless, the greatest *Ni'mah* that anyone can get out of this life and the Hereafter are the favour and grace of Islam, Iman, Taqwa, Ihsan and Al-Birr (Righteousness or Goodness) and the ultimate reward that we continue to seek is the gift of *Jannah*; and as we all know, the only reason a servant enters *Jannah* is because of the Love, Mercy, Grace & Blessings of Allah swt upon His beloved servants, not because of our good deeds in *Dunya*.

We are all indeed on a journey towards Allah swt. It is only with **SHUKR**, **IMAN** & **TAQWA**, that we gain the Guidance (*Hidayah*) from Allah swt. Once we are guided by Allah swt, our hearts become God-Centred, God-Conscious, constantly filled with the Remembrance of Allah swt that we become certain of His Love, Mercy, Blessings, Provision, Protection and all His other attributes. Even if our surroundings get more and more complexed and compounded with trials and tribulations, our hearts remain calm (*Hayyin*) and not tempted to the worldly desires because we have already understood the true meaning of life in this *Dunya* and the eternal life and promises of the *Aakhirah*, *insyaAllah*.

May Allah swt grant upon the family of ADNI; Board of Directors, Teachers, Students, Parents and Guardians, His Grace, Mercy, Love, Blessings, Forgiveness, Well-Being, Guidance of The Straight Path and *insyaAllah* the highest *Jannah*, *Ameen*.

## PUTERI SPORTS DAY 2019

1st March 2019  
Stadium Sayidina Hamzah, IIUM Gombak

It was still early in the morning. The girls were not gathered at the usual place at Adni Taman Sri Ukay. Today it was a special occasion where the girls were given the chance to cheer and to contribute towards the winning battle of sport houses. As early as 7.30 am, the field of Sayidina Hamzah IIUM Gombak was filled with the colours of blue, green, yellow and red. The students were preparing themselves for an opening of an epic battle of their student lives!.

By 7.50 am, the stadium was overwhelmed with the marching sound of Ruhul Jadid. The ADNI KRSM Fatayat proudly led the march pass in their fully geared uniform, followed by the other four houses, moving one after another, passing by the Grand stand, saluting the guest of honour and spectators and finally standing tall, warrior- like on the field getting ready for the next event on the agenda.

Next was the Sports Pledge led by our beloved students of secondary 5- Siti Nuradriana, Elza Sofie and Dina Aisyah. Welcoming speech was then delivered by Pn Laili Rusmah Mohd Noor and then followed by the launching by the Guest of Honour, Sister Nurul Syazwani Haris, a young lady who represented the state for karate tournament in Sukma 2016 as well as the Japan World Cup 2018. The moment the speeches were over, the opening ceremony had reached its climax. Winning the various competitions throughout the sports and the never ending weeks of efforts and teamwork, could not be compared to the most awaited event of the Puteri Sports Day – the battle cry. Drums and cheers echoed throughout the stadium loudly and with fiery

determination and confidence. Each house put their utmost best and energy for this epic performance to steal the hearts of the judges as if this was their last effort to win the sports most coveted cup. The equally impressive ADNI KRSM Fatayat performance signaled the end of the opening ceremony.

From 9.30 am to 12.30 pm, came the display of the fierce competition by the best runners from each house. The track events of 100m dash, 200m dash, 400m, 800m, 4x100m and 4x400m were taken to the field one after another. The prize giving took place in between the events. The parents' 100m dash event marked the end of Puteri Sports Day.

The Queen of the day or the champion of Puteri Sports 2019 was crowned upon the fiery house of red: Uhud!. Meanwhile, the Puteri Secondary Athlete was won by Nur Aliyah Nurmirafudin and the title of Puteri Secondary Sportswoman went to none other than Yasmin Diego. The Puteri Primary Athlete was awarded to Zainab Taofek while Khayra Naveda was honoured with the trophy for the Puteri Primary Sportswoman of 2019.

In Adni, it is hoped that the students would define sports as a medium to enhance their leadership skills, to explore their hidden potential in sports through tournaments and to challenge their patience and determination by working in a team. Sports in Adni enable students to train themselves on how to overcome stress and to learn to strategize in order to win. Therefore, we can conclude that Sports in Adni is not as simple as merely achieving physical fitness and health.

9th March 2019  
Stadium Sayidina Hamzah, IIUM Gombak

Alhamdulillah, Sayyidina Hamzah Stadium was chosen as the venue for Adni's 21st Annual Sports Day for its facilities and a strategic place for the event.

The event started peacefully with the parade led by the Brass Band of Batalion Pertama Rejimen Renjer Diraja, Wardieburn Camp, followed by Kadet Remaja Sekolah Musleh (KRSM) contingent, and the four sports houses - Hunain, Uhud, Khandak and Badar. The 21st Annual Sports Day of Sekolah Islam Adni was officially opened by our beloved CEO/Principal of Sekolah Islam Adni - Dr. Haji Hasni Mohammed. In his speech, he reminded the teachers and students the importance of the young generation to be healthy and strong for the sake of an excellent ummah. Our guest of honor was Sensei Fadhil Zakariya.

This first big event of the year became more meaningful with the first-time participation from a school from Thailand in the 4x100m relay inter school competition. All in all, it was another great sports season for Sekolah Islam Adni led by Brother Mohd Firdaus Bin Rusli and his team. A special thanks to the supportive management team and all the teachers and staff for extending their support for the smooth running of all events.

Appointed floor managers reported to the campus supervisor and the class teachers did a roll call to make sure all the students were present in the emergency assembly area. A fire awareness talk was given by the officer. Selected teachers, staffs and students were provided with training to use fire extinguisher so that they know what to do in the event of a fire. # HADHONAH & RAUDHAH RECOGNITION DAY

# RECOGNITION DAY 2019

16th November | Kompleks Darul Puteri Cheras

Recognition Day is the culmination of all hard work and a year of study. It is the day when we, students can say, "I've done it".

It is an annual event at SEKOLAH ISLAM ADNI and on 16 November 2019, Adni Islamic School had its Recognition Day in order to recognise the outstanding and talented students that have performed well throughout the year 2019. This magnificent event had taken place at Kompleks Darul Puteri, which was beautifully decorated with fresh flowers that had brightened up the hall.

The guest of honour at the event was Ybrs. Encik Hassan Nudin Bin A. Hamid, Bahagian Pendidikan Islam said, as of today, schools no longer function as an institution which provides knowledge, but it is also a place to mould the youth to become a knowledgeable generation with good akhlaq. Alhamdulillah, Adni has taken a step ahead with its IHES program which has marked positive results in the education

system. It is my honour to congratulate the school for taking such innovation through continuous efforts and strategic planning. The education system should be dynamic and progressive to cope with the challenges and changes of the modern world. Influential Muslim philosopher, Imam Al Ghazali once said "The source of Iman and Amal is knowledge. Knowledge is obtained by learning. Iman is meaningless without amal and amal is meaningless without ikhlas".

The event started with melodious performance of dikir barat that managed to bring us back to the olden days with its traditional tune and warrior-like outfits worn by all performers. The event was then continued with a special award giving ceremony for students who

showed outstanding performance throughout their learning years in Sekolah Islam Adni. The recipients of the awaited Khalifah Award were finally announced. Secondary five students, Nur Dina Aisyah Bt Mohd Saaroni and Irfan Qayyim Bin Abdul Muhaimin were called on stage to receive the honor. All their efforts had brought them to where they were, standing on the stage with smiles on their faces making their parent's hearts swell with joy. Following the award was an adorable performance from the primary students that had us reminiscing the days when we were young, filled with joy and laughter.

After the performance, an award giving ceremony for secondary one, two and four students took place.

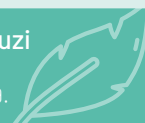

These students also had succeeded in making their parents proud. Following that was an entrancing choral speaking performance from primary students continued with the last award giving ceremony for primary four and five categories, Hafazan and the SPDU department. This series of events was closed by yet another amazing performance given by

the Grand Finale team and the closing speech and du'a that marked the ending of Recognition Day 2019.

In conclusion, it is hoped that with the success of this glorious ceremony, all students will be more motivated to perform better and are able to participate next year with more wonderful spirit and enthusiasm, teamwork and camaraderie. As the saying said, once you are determined to do better, only the sky is the limit.

# LITTLE MUTTAQIN CAMP

27th Nov - 6th Dec  
Raudhah Adni, Taman Melawati

Alhamdulillah, praises be upon Allah swt who has yet again enabled us to organise and conduct the Little Muttaqin Camp for 2019 thus continuing our journey of love for Rasulullah swt. Honestly, the team, as usual were excited as we sat in our first meeting to discuss the camp, Each of us were given our manuals, listing the content of the camp this year. Soon the meeting room was buzzing with excitement...this year we will be going for 'haj'. That was amongst the highlight of the camp. Soon after, we set off to prepare the materials and the 'stage'.

The lobby was to be transformed for 'haj'. We had to place every element of the haj from the Kaaba to th Jamra. One day was devoted for haj. Each jemaah had to make a passport and come in, in their ihram. The teachers became the mutawifah and took the children through the haj. SubhanaAllah, for some of us, it was very meaningful indeed.

Besides haj, the children had fun learning about the wars, mainly Badar and Uhud, They also learnt about the function of mosque and how idul adha and idul fitri is celebrated in various parts of the

Islamic World. They were also awed by the stories of the sahabah of Rasulullah saw ie Uthman Al Affan and Salman Al Farisi.

As in the previous camps, after 8 days the participants of the camp including the teachers learned many things which, insyaAllah has increased our love for our prophet, Rasulullah saw, befitting the name of the camp..Ya Habukka ya Rasulullah. Insya Allah, the year 2020 we will continue with the story of Rasulullah.

ADNI Islamic School has set the benchmark for conducting activities in such a way that the students not only enjoy but also learn a great deal from it. With the same perspective in view, ADNI choral speaking team participated in Choral Speaking Competition during Karnival Rahmah 2019 that was held in Putrajaya on Saturday, 30th September.

The event started at 12 P.M. with the arrival of participants and judges before the choral speaking competition kicked off. With the topic "Gratitude towards Greatness", ADNI choral speaking team amazed us with their magnificent performance in front of a huge crowd as the seventh performer out of 10 teams participating. The audience cheered so loud. Despite getting a rush of adrenaline competing with school teams that have experiences in choral speaking, they managed to do their best. As a result they won third place in the choral speaking competition. All of them were overjoyed to hear the announcement as they never

expected it as they only practiced for two weeks. In the evening, they made a journey back to school and reached at 6 P.M. Overall, it was a great and enjoyable experience and I think some of them were already thinking of performing again.

Although being second runner up, Adni Choral Speaking team had the pleasure of being invited to perform at the official opening and closing of Parliamentary style Debate Competition 2019, organised by Majlis Agama Islam Wilayah Persekutuan.

## PRIMARY 1 TRIP 2019

Every year, each primary level in Adni is given a chance to hold an educational trip. Alhamdulillah, for 2019, Primary 1 managed to organize a field trip to two interesting places. The whole day excursion was held on Wednesday 28th August 2019. A group of 106 students were accompanied by 15 teachers and our Headmistress Puan Maimunah Baharudin for this trip. We started our journey at 8.30am in a convoy consisting of three buses. Our first venue was Domino's Pizza located in Cyberjaya. Students and teachers had a 'hands-on' experience of making twister bread and then ate pizza too.

Around 11am we made our way to The Aves World Eco Farm in Semenyih. Students and teachers were given a brief explanation of the animals (which consisted mainly of birds), as well as rules and regulations for the place. The students were divided into two groups

and each group was accompanied by 8 teachers. The students learnt and experienced the wonders of animals, planted corn seeds and many others. We spent almost three and half hours in the Aves World Eco Farm and had our lunch there before we continued our exploration after the rain stopped. Around 3.30pm, we went to a nearby mosque to perform our Zuhur prayer and continued our way back to school.

Even though the students and teachers were exhausted, we really enjoyed the trip and had a great time. Due to heavy traffic and bad weather, Alhamdulillah we managed to reach school by 4.45pm.

Around 85 students and 12 teachers participated in this trip. The students were divided into 4 groups according to their classes and buses. We arrived safely at Super Park at 9.30 am.

There were 18 large activities in this indoor adventure park. The activities ranged from those suitable for 6 year olds such as trampolines, a mini-climbing area and a mini climb with a slide to much more extreme challenges with a minimum height requirement of 150 cm. The rides and game points were all well maintained, and there were sufficient ground staff to ensure that everyone's security was intact. This place benefitted

the students because they were able to challenge not only the physical but also their mental abilities.

On the other hand, Beryl's Chocolate Factory is a suitable place for students to get knowledge about chocolate from around the world. The best moments here were when students became so impressed with the flavors of the chocolates such as dark chocolate, mint chocolate, white chocolate and the benefits of each chocolate.

By 12.30 pm, the students had their lunch together at the KFC restaurant. After performing Zuhr prayer together at the mosque, the students continued with the visit to the chocolate gallery. The bus arrived at school around 4.30 pm and the students dispersed around that time, happily with bags of chocolates in hands.

Place : KIDZANIA- The City of Kids,  
Curve NX, 18 Jalan PJU 7/5,  
Mutiara Damansara, 47810 Petaling Jaya,  
Selangor Darul Ehsan, Malaysia.

This trip was a one-day educational trip to above mentioned place. Kidzania Kuala Lumpur is a safe and interactive edutainment centre where children can experience the world of adults in a replica of a real city. Various role play activities are specifically designed to aid physical and intellectual growth.

The site is a mini-world where all the adult facilities, occupations and day-to-day activities have been scaled down to suit children. Here children can drive around in toy cars, go on a toy bus, enjoy restaurants and cafes where the tables and chairs are made for kids and walk around the Kidzania city. In Kidzania the kids started off with 50 "Kidzo", the currency of Kidzania which they can use to "spend" in Kidzania. Once they run out of the cash they need to take up one of the professions to earn more "kidzo" money which they can then go and spend in the Kidzania stores or put in the Kidzania bank. The kidzania staff will explain about the various jobs and guide the kids through career tasks which last about 30 minutes. This way, the kids can try out several professions within

one visit. Among the activities conducted by the staff were baking and preparing food in the restaurants which kids got to help out with. All the activities were conducted in English.

Venue : Movie and Animation Park Studios (MAPS),  
Taman Rekreasi Gunung Lang and Universiti Teknologi Petronas (UTP)  
No. of Students : 55 students  
No. of Teacher : 6 teachers

On the beautiful Monday morning of November 18th 2019, 55 students and 6 accompanying teachers took part in the annual Primary 6 trip. This year, the destinations were the Movie and Animation Park Studios (MAPS), Taman Rekreasi Gunung Lang and Petronas Technology University in Perak. After having breakfast, a briefing and dua' session at Dataran Ilmi, a double decker bus with a group of excited students and teachers departed from school at 9.30a.m. Alhamdulillah at 1.40pm we arrived safely at Labu Sayung Restaurant, Ipoh for lunch.

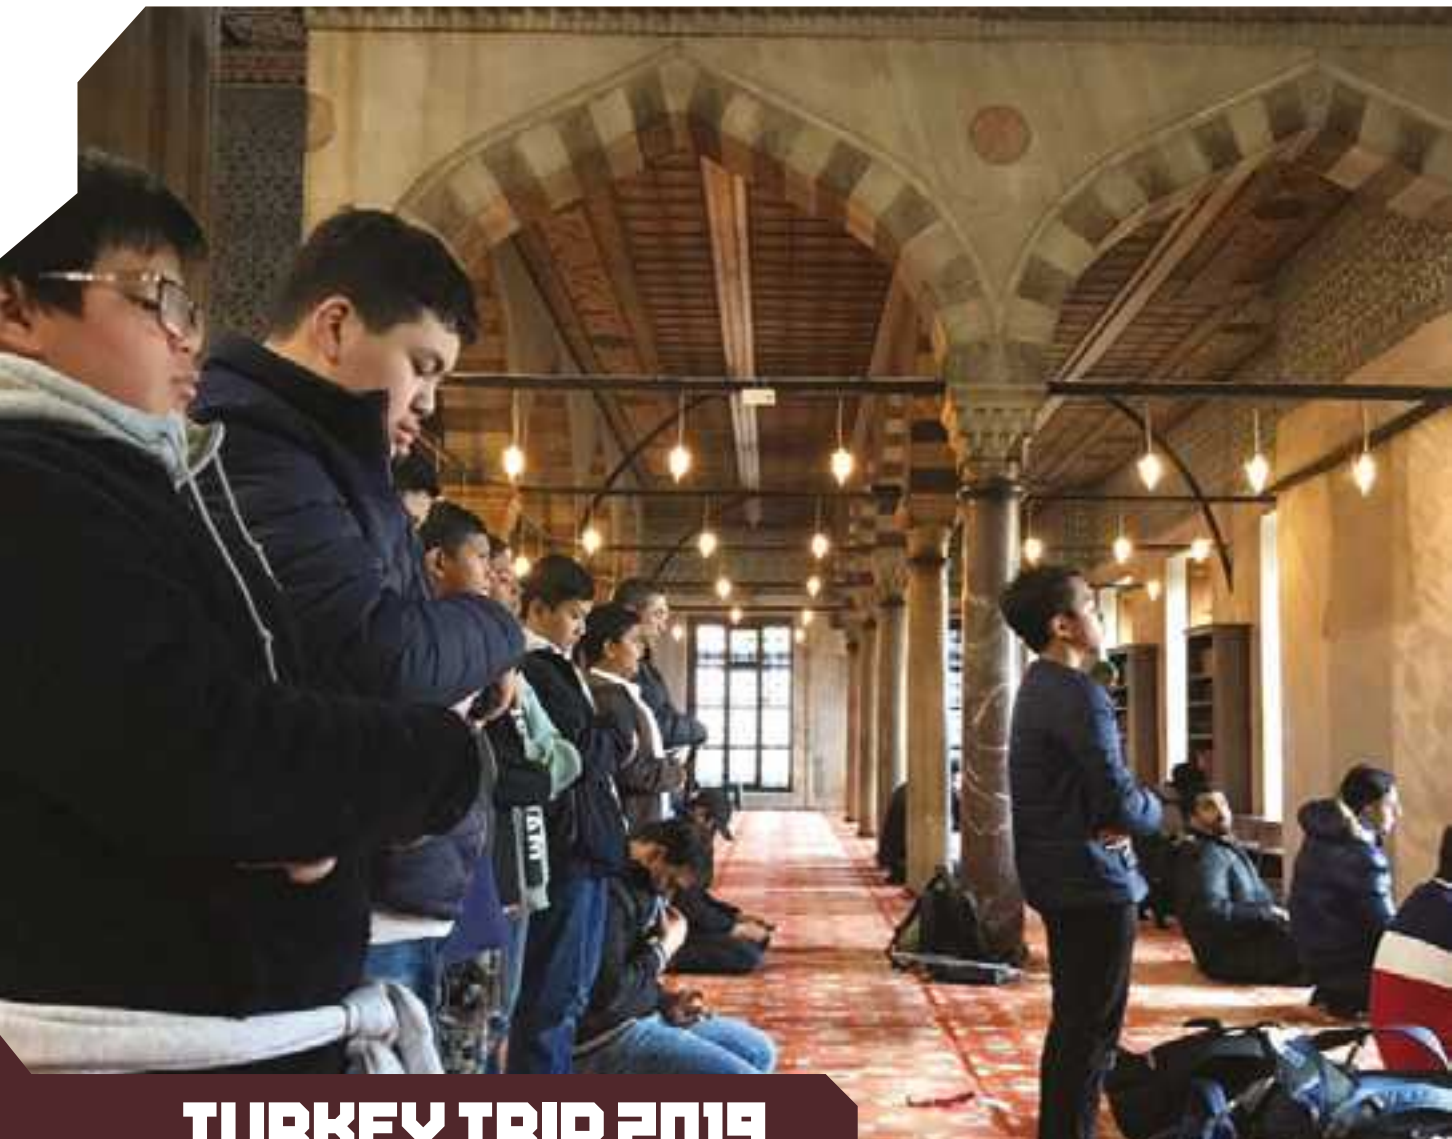

In spite of the long hours of journey, the students were very happy to have arrived safely in Perak. After having their traditional local cuisine lunch, the bus headed off to Cute Hotel, Ipoh where they were to spend the night. After jama' prayers of Asr and Zuhr at 4.00p.m, the group departed to Movie and Animation Park Studios (MAPS). Students were divided into small groups with one accompanying teacher. All participants were able to try all activities provided with their group members. After enjoying dinner at MAPS, the bus took the worn out students (and teachers) back to the hotel for a night's rest .

The second day started with a bus ride to Taman Rekreasi Gunung Lang, Ipoh. It was a place to learn about animals amidst a beautiful natural setting with the limestone hills of Gunung Lang and Gunung Bilike as the backdrop. Participants had to take the boat ride for them to reach the Mini Zoo. The boat ride made it possible for the group to enjoy the beautiful natural scenery of Gunung Lang and it's surroundings. At 11.00a.m, we then arrived at the next destination on our trip itinerary: Universiti Teknologi Petronas (UTP). We received a warm welcome from our guides; 2 university students assigned by the university to accompany us. After lunch and jama' prayer, we were guided to the lecture hall for an introduction session by UTP staff about the university itself and students were given the opportunity to ask questions. At UTP, participants were taken on a tour of the UTP Main Building which included the Main Hall and the UTP Information Resource Centre. Participants were able to explore the UTP library known as Information Resource Centre which is a four leveled building that houses approximately 210,000 volumes of items and collection comprising a wide variety of printed and non-printed materials, from books, periodicals, in-house reports, audiovisuals and multimedia. It is indeed a huge complex. Before leaving UTP, participants took the time to visit the souvenir shop. At 5.00 p.m the bus departed UTP heading back to Kuala Lumpur and Sekolah Islam Adni.

Alhamdulillah all students and teachers arrived safely at Sekolah Islam Adni, around about 9pm. Despite feeling very tired, they really enjoyed the trip, as this is the first Primary group to visit Universiti Teknologi Petronas, Alhamdulillah.

## TURKEY TRIP 2019

### DAY ONE: TRAVELLING DAY

The title ‘MUSAFIR’ was attained as we gathered for our flight to Havalimani Airport, Istanbul by 7:00 PM at KLIA. Efficacy Learning Program (ELP) overseas trip is the most awaited program of the year by the students. Ust Saiful the head of ELP waited for us and we were graced with Puan Zaiton and Puan Laili’s attendance at the airport to send us off. We were to push our trolley down to the baggage counter. A dua recitation to bless our journey was led by Imam Aiman and a lot of photo sessions. By 10 pm, we were ready to head to the departures gate, bidding goodbye to our families.

At midnight, Our flight KLM was already at the altitude of 35,000 feet from the ground heading to Amsterdam Airport for a flight transit. We were excited even though we still have another 16hours of journey.

### DAY TWO: STILL TRAVELLING

Fast forward to the airport customs in Amsterdam, it was hectic although it was only 5 am. After that, we immediately went to the meditation center, which was a prayer place for all of the religions, which was cool. We planned to have a self-tour of Amsterdam in the first place. But it was revoked since the immigration was just as hectic as the customs. Therefore, we stayed at the airport for the whole flipping day.

At 2 pm, we went to our gates to wait for the next flight. Then, we got an announcement THAT OUR FLIGHT WILL BE DELAYED (with a frustrating face). So, we waited there for a good 45 minutes and a bit of a chat with a nice old lady and her husband.

Upon arriving in Istanbul, we were greeted with ‘Marhaba’ which means Welcome. After all those

baggage claims and stuff, we proceeded to find our tour guide and a ride for 45 minutes to our respective apartment to get a rest (but we did not thanks to jetlag). We were defeated by the tiredness.

### **DAY 3: OUR FIRST DAY IN TURKEY**

Our first day in Turkey was on Tuesday, the sunlight was sunny and warm despite the cold weather. We went downstairs to the apartment lobby and proceeded to get into our van, to get to our first destination, Panorama 1453 (not that camera panorama), which was quite far from our apartment. In the museum, as usual, we filled lots of time taking pictures and recording videos. And we learned a little a bit of the history of Constantinople City or otherwise known as Istanbul. In front of the museum, there's a gigantic wall of Constantine.

Our tour guide sprinkled in some of the information about the wall in detail. We came across a Turkish ice cream stall that's known for doing those unnecessary cool movement.

Next on the agenda, we visited the Eyup Sultan area. The place has an aesthetic view of the city. Taking pictures here is highly recommended but to all people who are scared of height, I'm not sure if you want to go there. The Masjid of Abu Ayub Al-Ansari was quite enormous and beautiful though. We ate a Turkish dish that was scrumptious down the street near the Masjid.

After we prayed Maghrib, we met a guy wearing some kind of wearable pot filled with pomegranate tea, again I would recommend this tea because it has no sugar, sweet and good for those who have a sore throat. Then it was back to our apartment to get a rest.

### **DAY 4: MARHABA ADNI**

With our outing shirt, Adni's logo on display, the students were ready to spend the whole day with our new mates at Imam Hatip school.

At 11:00 am, we were warmly welcomed by the students and teachers of the school. The program began with an opening speech by the headmaster and dua recitation. We were separated to form a group and made some new friends as they were friendly and sociable. Ustaz Saiful who was our teacher for the day, briefed all of us on the project. A little icebreaking was done, as we're given a chance to talk to each other, one of the senior schoolers, Bilal, tour guided us around the school and to be honest, the school is 5 times larger than our school. We even met an ex-Adni student.

Later, we advanced to the canteen to eat and go to the musholla to do our prayer. After that, we had a

discussion to make a model of a Muslim spaceship. Personally speaking, it put our teamwork and drawing skills to the test. School session ended and we proceeded to get back to our apartment to watch the whole series of Harry Potter (for the 3rd time) and relax.

At 8 pm, we went out to have dinner, we took the tram for the first time in Istanbul. We were homesick, therefore, we ate at a Malaysian restaurant.

### **DAY 5: PRESENTATION DAY**

The next day, we presented our model to the teachers in charge and had to explain the design of the spaceship. And the winner was group one, we had fun with everyone. Carry on to the next one, we went to eat and pray before we went on a tour of the hostel.

Our tour did not last long. As our session ended, we took photos with the students and teacher and as an appreciation, we were given a Turkish delight. Anyway, we still remain in touch with each other until today.

During the evening, we went to the same restaurant as yesterday (I honestly do not know why). I forgot to mention that the name of the restaurant is "Nur Muhammad Istanbul Malaysia", and please have a meal there during your visit to Istanbul because the food was very classic and appetizing (I wasn't paid to say that):)

### **DAY 6: CHOCOLATE AND THEME PARK**

Our day started at 9am. The van came to take us to the chocolate factory. We were greeted with open arms by the employees and the manager. Before they started to explain about the safety measures, WE WERE GIVEN FREE CHOCOLATESSSS! and we appreciate it 100%. Then they explained the safety measures and gave those masks which were rather annoying. We did a tour and took pictures. We even got a free box of chocolates.

Vialand Tema Park is our next destination and yes it is spelled "tema", This theme park was in a mall just like in Times Square Mall but instead, it is an open-roofed park. Students were allowed to scatter around the park for only 3 hours since we had to pray and have some lunch.

One of the rides in the theme park was a boat ride that told us about the history of the war in Istanbul during Sultan Mehmed II time (if I'm not mistaken). Though, we didn't understand a single word as the language during the ride was Turkish, we got the point of what the speaker delivered. Other than that, maybe you should go and see it yourself because that place is flipping massive. We went back to the apartment and did the same thing as what we did yesterday (watching the whole series of Harry Potters for the 5th time).

## DAY 7: HISTORY DAY

The last day came and we woke up with a super low temperature outside! the temperature was 7 degrees Celsius. and we met a new tour guide who knew better how to treat kids. The destination we're going to was The Topkapi Palace and we got there by train, getting a grip of the local train station. The Topkapi Palace is the Sultan's living place where he ruled and observed the city. This palace has changed into a museum. We scattered around for a bit. They kept some items of our beloved Prophet S.A.W., the other prophets, and some of the sahabah in the museum. The next place we visited is the Blue Mosque or what the locals call as Sultan Ahmet Camii. The wudu place water was freezing cold; some of us took the challenge to take wudu with that cold water. We prayed congressionally and took pictures in the masjid as memories. We ate at the same place as day 4.

During the last night, WE HAD PIZZA FOR DINNER AS OUR LAST DINNER and that night, we packed our bags and watched Harry Potter, for the umpteenth time!!

## DAY 8: THE LAST DAY

Our dreaded flight to Amsterdam was scheduled around 5.55 pm. Our remaining hours after check-in was allotted as free and easy session. By 5.15 pm, everyone had easily made their way to the gates. Our flight at 5.55 pm had allowed everyone to rest for a while until we reach Amsterdam for the next flight. It was probably 5 degrees Celcius to 6 degrees Celcius in Amsterdam since we can easily see visible air when we exhale. We had a few minutes before the next flight, therefore, we ran to a stall that's very far from the gates to get snacks and water. We came back at the perfect time when everyone was beginning to board. We were then able to rest peacefully until we reach Malaysian skies.

It was a priceless memory in Istanbul. Alhamdulillah. Thank you ELP Adni.

# SECONDARY ISLAMIC STUDIES DEPARTMENT ACTIVITIES 2019

Bismillahirrahmanirrahim

“A faithful believer to a faithful believer like the bricks of a wall enforcing each other”  
Muttafaqalayh

Islamic Studies Department had planned various activities throughout the year 2019. The purpose of these activities was to polish the talents and potential in students in various aspects. In addition, it also provided a platform for them to apply their knowledge (Islamic Studies) and to provide opportunities for students to develop their interest in learning Islamic Studies.

Our theme was “Reviving the Islamic Ethics towards development of Sahsihtul Muslim”. As a core subject in our school, Islamic Studies activities need to be planned well to achieve the following objectives:

1. To instill awareness (Tau’iyah) on Akhlak Islamiyyah among Adni students.
2. To educate students on practicing the forgotten sunnah such as Solat Khususuf, Solat Istisqa’, Solat Jenazah.
3. To reinforce Jawi competency among students.

For the year 2019 Islamic Studies Department planned a series of programmes, beginning with the launching, from 23rd May 2019 until 20th June 2019.

## **Programmes and activities planned:**

- Launching of Islamic Studies Month
- Exhibition on Islamic Ibadah,
- Trip to Nasyrul Quran,
- Jawi transcribe Competition / Poster Jawi/Jawi Recitation and

Through the activities, we had hoped to make students understand the benefits of being united like how together, everyone would achieve more. More importantly, how it is crucial to get the physical, mental and spiritual feeling of peace and tranquillity. The Jawi competition was intended to introduce the students to the tradition of Jawi and its glorious place in Malay culture. Hopefully, all students enjoyed all of the activities and benefitted from all of the programmes.

The Islamic Studies Department is truly grateful for the relentless efforts and unwavering support from all the teachers as well as the students. Barakallahu fikum.

Students and parents bought books from this moving library (lorry which sells books). Throughout the month, teachers and students worked hard and had fun. At the end of the department month, InsyaaAllah, we hope that students and teachers realise that spreading goodness is very important in life. This competition had successfully boosted student's confidence to speak Arabic and perform in front of a crowd despite their little exposure and knowledge of Arabic language.

To make this a success, we had to go through a lot of training and challenges from the preparation of the script to the props. Though the students had their own opinions about the storyline, we managed to collaborate all the ideas into a single script. Alhamdulillah, we ended up the first runner up amongst all schools participating in Selangor.

Nonetheless, it was a milestone achievement for students. The competition was an enriching experience and insyaAllah would open possibilities for them to use Arabic in their future careers.

After that we were brought to two respective venues for male and female participants to observe the current Karantina's programme students' routine. Fortunately, at that time QAI was also having one of our own Adni's student, Salma of Primary 5 participating "Karantina Menghafal al-Quran 30 Hari".

The next day, on 2nd September 2019, Puan Siti Zaiton and Teacher Zati departed from Jakarta Islamic School (JISC) at 9.30 am for their visit to Darul Hasanah, Cianjur-Cipanas, Puncak. The journey took about two hours. During the journey, we witnessed the beautiful scenery of highland Cianjur-Cipanas, tea plantations and colourful fruits and vegetable.

Upon arrival at Darul Hasanah, we were welcomed by Ustazah Astuti and her husband, who managed the Darul Hasanah School. While being briefed on their program and Quran memorization methodology, we were served with several local kuih. Then, we took a tour around the area. At Darul Hasanah, they do not conduct classes in a formal way, so all students have their Quran class in front of the house in the garden with beautiful surrounding scenery. Later after performing Solat Zuhr and Asr, before our journey back to city of Bekasi they treated us with local Sunda dish at Warung Nasi Alam Sunda. On the way back, we stopped by at Taman Bunga Nusantara and headed back to Ibu Fifi's (the owner of JISC) house and arrived at 7.00pm for dinner.

Later ADNI School chose Darul Hasanah for its students' 2019 Karantina Quran programme.

## A VISIT TO JAKARTA ISLAMIC SCHOOL (JISC) PRE SCHOOL

On Monday, 2nd September 2019, I Teacher Nadia Azhana from Raudhah Adni visited Jakarta Islamic School (JISC) with Puan Laili, Puan Siti Zaiton, and Teacher Zati Syahmeena. We were there by 9 am. We gathered in JISC before we went on our assigned separate ways. I stayed in JISC Preschool to have a look at the school and its surrounding.

I was welcomed by The Headmistress, and a few teachers. The students were gathered together

outside, in front of the main building for their morning recitation. They were around three and half years old until six years old. They lined up according to their respective classes and followed the recitation by the teacher who handled the assembly. After the recitation, the teachers took them inside the building and they arranged their shoes on the shoe racks.

A teacher invited me to her room and welcomed me with local desserts. It was yummy. She shared with me some basic information about the preschool. There are around 8 classes. Four classes for 3.5 years old to 4.5 years old. Four classes for 4.5 years old to 5.5 years old. Each class has about 12 to 15 students and 2 teachers. The class for 3.5 years old to 4.5 years old are separated into two. Tahfiz and non tahfiz. There are also two sessions. 830 to 1030, and 1030 to 1230. If parents decided to enroll their child for tahfiz class, the child has to stay for extra 3 hours during school session.

and recitation together. The children were seated in a circle and one teacher will lead the recitation. From what I heard, teachers in JISC Preschool use Mish'ary's recitation as reference.

I left JISC around 12.30 with Puan Laili and had lunch together with a few JISC Management members. It was a good experience for me to see a different style of teaching at a different place. What amazed me was how the

teachers managed to stay calm most of the time. I was there for 3 hours, but I did not hear any of the teachers raise their voice to the children. They speak in a subtle way, soft and low keyed. It is something I must learn and adapt in my life. It always seemed impossible until it's done.

After explaining about the structure, she then invited me to look around the school compound and classes. When I entered some of the class, there were about to have their morning meal. One teacher will guide them while the other one will check their hafazan or qiraati individually. Some class was doing a hafazan

## SHORT VISIT TO PUNCAK

On 2nd September 2019, Puan Laili was assigned to visit the new all girls JISC Secondary Boarding Schools at Puncak. The first batch of around 25 students main aim was to memorise the Quran but not neglecting the academic studies. The beautiful villa and cool climate at Puncak provided a very conducive environment for studying and memorising the Quran. Puan Laili gave a short but meaningful tazkirah to the girls and also had a short sharing session with the dedicated teachers.

On 2nd September 2019 Ustaz Saiful Ridzuan arrived to conduct a 2 days training with Puan Laili at Horison Hotel, Bekasi, Jakarta. It was a sharing session on IHES - 21st Century Learning for Jakarta Islamic School.

# TEACHERS TRAINING AT JAKARTA ISLAMIC SCHOOL

## Background and Objective

The training session aims on sharing ideas between Adni Islamic School and Jakarta Islamic School on how Integrated Holistic Education System (IHES) impacts 21st Century learning. It is hoped to increase the collaboration between IHES sister schools in research and development. The initial session mainly brain stormed the process flow on how Efficacy Learning Program (ELP) tools translate into the 5 outcomes of IHES in 21st Century Learning environment.

Reference to the IHES 5 processes and 3 approaches mainly guides the participants of JISc leaders in the sessions. The activities started by collecting related analytic information as the summary of scheme to be reviewed to the extensive areas in 21st century Learning. From the feedbacks, the participants reviewed the program as resourceful as to increase interaction between these two components, IHES and 21st Century Learning.

## Training Methods and Activities

The two days training session was divided into two main activities which were brain-storming and workshop on the construction of the activities. Information to be considered were around the vision, mission and challenging statement. These were collected to be analysed and tools were planned to be used to link with 21st century objectives.

Simple presentation based on rotation were carried out to present the data. The findings were summarised to be referred to in the workshop session. The tools suggested were structured in the workshop. The participants were given a template of ideas so that the tools can be coordinated for classroom activities and project-based learning.

## Key Findings and Recommendations

A proper program is needed for the teachers to reach out to the school's aspiration towards 21st Century learning. A standard process and approach is very important to assess the effectiveness of the program. From my point of view as one of the trainer, more sessions should be executed in a proper continuous scheduled planning in order to have an effective impact that will benefits both schools until a point is reached where a solid action is determined to help both schools move forward productively.

## EXPERIENCE IN KEMNAS IV

15th – 22rd November 2018 | Cibubur, Jakarta, Indonesia

All praises due to Allah S.W.T, the All Knowing whose mercy and guidance do we seek for as long as we live. KEMAH UKHUWAH NASIONAL (KEMNAS) is an international camp organised by PRAMUKA Jaringan Sekolah Islam Terpadu (JSIT). PRAMUKA is the Indonesian version of something like the world wide boy scouts and girl guides. Four ADNI students and an accompanying teacher went under the invitation of KRS Musleh Malaysia.

For us, KEMNAS forged a relationship which cannot be attained in one day. We were divided into groups. Each group was grouped as such that they did not have the same students from the same school. At first, I thought I would not have even one friend in my group, but I put my trust that I could and I did! Every single activity held there also made me feel it was worth joining. Frankly, at first my friends and I were very disappointed when we first arrived at the campsite, because of the conditions there and at that time only Allah knew our feelings. Again, I trusted that there would be something beneficial behind it, and I continued to fight my 'bad feelings'.

There were many activities that I never thought would be held there at KEMNAS. For example an Islamic concert held during the second night from 7.30 pm until 12.00 am. The concert made us feel that the Indonesians' ukhuwah were better than ours, Malaysians. In the concert we did not feel there was any waste of time. They discussed about their friends in Palu and Lombok, and about who will give donations towards their friends. I am so proud that the majority of people that came up to the stage were mostly Malaysians that willingly wanted to help the Indonesians in Palu and Lombok.

In conclusion, I learned many new things at the camp, for example, the Indonesian culture and language from different provinces such as Papua, Kalimantan and more. I also learned their language and it was quite exciting when I mastered a little bit of it! Not to forget their ukhuwah, and the food was the best!

Despite many shortcomings, I would recommend ADNI students to join KEMNAS 2021!

## KARANTINA

To fulfil one of the missions of the school which is “Developing excellent, holistic individuals towards building an excellent generation based on total submission to Allah swt”, the school embarked on a programme to send some QGDP students to Darul Hasanah, Cianjur, Indonesia from 5 December 2019 to 2 January 2020 to memorise the Qur’an within one month. The objectives of the programme were:

1. To gain experience in memorising the Qur’an using Karantina (quarantined) approach and methods.
2. To catch up memorisation of Al Qur’an and optimise the school holidays in memorising the Qur’an.

Seven full time QGDP students namely Ahmad Zafran Syahmi Bin Ahmad Lufti, Muhammad Ashraf Bin Ahmad Lufti, Luqmnul Hakeem in Qhaireel Anwar, Muhammad Ilman Aiman Bin Mahadi, Ilma Nabihah bt. Mahadi, Yasmin Diego and Maryam Nadiyah binti Muhamad Munawer attended the course.

The group left Kuala Lumpur on 5 December accompanied by 3 teachers who were Puan. Siti Zaiton Abdul Aziz, our Vice-Principal 1, Sister Nurul Syairah bt Kaswan and Teacher Umairah Diaz. Upon arrival, a briefing was conducted inspiring us that memorising the Qur’an was easy and fun. Their method is very good. With zero Arabic, one can read the Qur’an in 5 hours. SubhanaAllah.

It was a one- month fully packed programme. Wake-up call was at 3.30am with the following activities: Tahajud, solat subuh, murojaah. Then the students revised their memorisation. They were also given rest time in the middle of the day where it was compulsory to sleep for an hour. The day ended at 11.00pm. Visitors were only allowed to come on Friday afternoons so that the programme was not disturbed. Using the method of Darul Hasanah, one can memorise one page of the Qur’an within 30 minutes. In a period of one month the whole Qur’an can be memorised.

A major part of the day was spent memorising the Qur’an however, the physical and social aspects were also taken care of. Before breakfast students enjoyed group exercise in addition to two -hour afternoon sports time like archery, playing football and long brisk walks around the town. Two outings during the whole month were also scheduled. The group went to Taman Bunga Nusantara and to the Taman Safari, Bogor.

Accommodation was superb. The place is safe and secure and very clean inside and outside. The rooms were mopped daily with Clorox. We were fed 4 times a day-breakfast, snack, lunch and afternoon tea. The daily dose of blended avocado which was very yummy always made our day. The laundry was also up to date. It was an unforgettable experience for everyone. If given another opportunity, the group would like to go back to Darul Hasanah, insyaAllah.

# HADHONAH

“It is He Who brought you forth from the wombs of your mothers when you knew nothing; and He gave you hearing and sight and intelligence and affection: that you may give thanks (to Allah)”

(An-Nahl, 16:78).

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ  
In the name of Allah, Most Gracious, Most Merciful  
السلام علیکم ورحمة الله وبرکاته

All praise is for Allah; we praise Him, repent to Him and seek His forgiveness and help. We seek refuge in Allah from the evil of our own selves and our wicked deeds. Whomsoever Allah guides, none can lead astray, and whomsoever Allah leads astray, none can guide. And I bear witness that none has the right to be worshipped except Allah alone, and I bear witness that our Prophet Muhammad ﷺ is His servant and Messenger. May Allah send peace and blessings upon him, his family and his Companions until the Day of Judgement, ameen ya Mujeeb.

"And if you should count the favor of Allah, you could not enumerate them. Indeed, mankind is [generally] most unjust and ungrateful." (14:34)

Gratitude towards Greatness can be construed as achieving success and prosperity by being grateful. Developing the attitude of Gratitude towards Allah will change your life. One will not only enjoy the blessings of his Lord, thanking his Lord for those blessings and praising Him but he will also have a positive disposition. Being grateful or syukur is also the characteristic of a true Believer.

Allah reminds us: " And whoever is grateful, he is only grateful for the benefit of his own self" (Luqman 31:12). "For surely if it was not for the grace of God on you and His mercy, you would have been among the losers" (Al-Baqarah 2:64).

Shukr will also lead to abundance in Allah's favors:

If you appreciate Allah's favors, He has promised increased Rahma or mercy for you. Allah's reward for your gratitude is unlimited and unconditional. "If you are grateful, I will surely give you more and more" (Ibrahim 14:7).

So it is important to inculcate the attitude of gratitude in children as early as possible. The environment created need to be an environment of gratitude for young children to learn what gratitude is. How then, do

we teach little kids to be grateful? How do we create that environment? By being grateful ourselves and reflecting it in our words and action.. For the little kids, they have to consistently and constantly hear us express our syukur. They need to be reminded time and time again who is the

Bestower of rezki. In all the themes and activities, the children are reminded of this through expression, doas and stories.

Stories has been one of the most effective tool that can be used to illustrate what is gratitude and how gratitude can benefit us. Songs and consistent use of the kalimah Alhamdulillah, be it after finishing a meal or completing an activity sets out to instil the concept of syukur. InsyaAllah, although teaching is a process, eventually children will grasp the idea of gratitude. It may not manifest in the years that a child is in hadhonah for the first 3 years are years of imprinting the concept. The actualization will happen later, insyaAllah.

On a personal note, I would like to take the opportunity to express my gratitude for the years that have been granted to me in the field of early child education and the time given to contribute to the community through Adni. I am also grateful for the team that I have who are key people in ensuring that the programs at hadhonah are carried out. No amount of words or gratification can rightly compensate the things that the teachers have done to develop the little children. Only Allah swt can reward what you rightly deserve.

In closing, let me share with you this, rendered in a child-like simplicity:

Thank you for the world so sweet  
Thank you for the food we eat  
Thank you for the birds that sing  
Thank you Allah for everything

Alhamdulillah rabbi Alamin – All perfect praise is due to Allah alone...Lord of All worlds.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of Allah, Most Gracious, Most Merciful

السلام عليكم ورحمة الله وبركاته

All praise is for Allah; we praise Him, repent to Him and seek His forgiveness and help. We seek refuge in Allah from the evil of our own selves and our wicked deeds. Whomsoever Allah guides, none can lead astray, and whomsoever Allah leads astray, none can guide. And I bear witness that none has the right to be worshipped except Allah alone, and I bear witness that our Prophet Muhammad ﷺ is His servant and Messenger. May Allah send peace and blessings upon him, his family and his Companions until the Day of Judgement, ameen ya Mujeeb.

Congratulations to the Editorial team of **FIKRAH ADNI 2019** for producing the latest edition of the magazine. I would like to express my heartfelt gratitude for giving me the opportunity to pen down a few words for this year's FIKRAH ADNI with the theme **GRATITUDE TOWARDS GREATNESS**.

According to Islam, one of our foremost duties is to be grateful to Allah for all of His blessings. We can describe three levels of thankfulness:

1. To realize and appreciate all blessings by and within the heart.
2. To say thanks with the tongue.
3. To express gratitude by doing righteous deeds.

In other words, the first level is the gratefulness that we feel in our hearts. Then we fortify that thankfulness through our speech. And the third level is when we prove by our deeds that we are truly thankful to Allah.

At times we may wonder whether it is truly beneficial to be grateful to Allah. In the Quran, Allah answers,

وَإِذْ تَأَذَّنَ رَبُّكُمْ لَئِن شَكَرْتُمْ لَأَزِيدَنَّكُمْ وَلَئِن كَفَرْتُمْ إِنَّ عَذَابِي لَشَدِيدٌ ﴿٧﴾

And [remember] when your Lord proclaimed, 'If you are grateful, I will surely increase you [in favour]; but if you deny, indeed, My punishment is severe.'

**Surah Ibrahim: 7**

This verse proves that our gratitude is beneficial for us alone, and our ingratitude is harmful to us alone.

وَلَقَدْ آتَيْنَا لُقْمَانَ الْحِكْمَةَ أَنِ اشْكُرْ لِلَّهِ وَمَنْ يَشْكُرْ فَإِنَّمَا يَشْكُرُ لِنَفْسِهِ وَمَنْ كَفَرَ فَإِنَّ اللَّهَ غَنِيٌّ حَمِيدٌ ﴿١٧﴾

And We had certainly given Luqman wisdom [and said], "Be grateful to Allah." And whoever is grateful is grateful for [the benefit of] himself. And whoever denies [His favor] - then indeed, Allah is Free of need and Praiseworthy.

**Surah Luqman : 12**

Gratitude is not only the heart and essence of Islam; it is also the key to attracting abundance, prosperity, peace, and success in one's life. Practising gratitude in Islam is the means to greater prosperity.

Gratitude makes a person's life more peaceful and contented, which are among the qualities required in ensuring that one has a happy life. Unfortunately, like other emotional traits, not everyone is born with gratitude. For many, it has to be nurtured, practised for a period of time before it finally becomes ingrained in them. A perfect time to start is during childhood. As the motto of **RAUDHAH ADNI** goes, **"A CHILD WHO STARTS AHEAD STAYS AHEAD"**, so as teachers, it is our duty to instil gratitude in our children so that they will hopefully grow into thankful servants of Allah (SWT).

The early years of a child's education are critical in laying the foundation for learning in their future years. During this time, children absorb knowledge at amazing rates and develop the skills necessary for success in school – and life.

Preparing your child for a lifelong journey of learning is the primary goal of RAUDHAH ADNI. Our small, nurturing environment and experienced staff focus on the cognitive, social, and emotional well-being of students while building upon the strengths of our INTEGRATED HOLISTIC EDUCATION SYSTEM (IHES).

The Preschool schedule allows for the students to have ample opportunity for unstructured free play time with a balance of teacher directed time to help prepare the students for the transition to Primary One.

We encourage our students to attain their "personal best" and we celebrate their individual accomplishments. Recognizing that most learning occurs through active participation, our teachers help students stretch to take that next step.

At **RAUDHAH ADNI**, we endeavour to map academic excellence with a good human value system based on the Quran and the Sunnah which in myriad ways is ingrained in the culture of the school. In this pursuit of excellence, I appreciate our parent fraternity for supporting the school in every aspect. I also laud the relentless efforts of our teachers for giving their best in bringing out the best in each child. But I would exhort the students to be always modest, humble and disciplined, while being ready to expand the horizons of their knowledge and skills by dreaming big and working hard.

To sum it all up, the poet Rumi once said:

***"WEAR GRATITUDE LIKE A CLOAK AND IT WILL FEED EVERY CORNER OF YOUR LIFE."***

The fact is, there are not enough words in the world to explain about the many benefits of being grateful, but I personally feel that this quote nearly captures them all. Sometimes, all it takes to make the world a better place to live in is simply a shift in the way we look at things. So start making gratitude a focus in your family today. Life will be a lot more satisfying once we start to appreciate all the things around us.

May Allah bind our hearts together and give us strength in fulfilling our responsibilities. Ameen ya Rabb.

# RAUDHAH ACTIVITIES 2019

# PRIMARY

We endowed Luqman with wisdom: “Be thankful to God: whoever gives thanks benefits his own soul, and as for those who are thankless God is self-sufficient, worthy of all praise”

(Luqman:12).

بِسْمِ اللّٰهِ الرَّحْمٰنِ الرَّحِیْمِ  
In the name of Allah, Most Gracious, Most Merciful  
السلام علیکم ورحمة الله وبرکاته

Praise be to Allah, the Lord of the worlds. May peace and blessings be upon the truthful and the Honest, Prophet Muhammad, peace be upon him and upon his family and companions.

I would like to express my thanks and respect to the Editorial team of Fikrah ADNI 2019 for giving me the opportunity to include a few words in this Fikrah ADNI.

"...Anyone who is grateful does so to the profit of his own soul...."  
(Al Quran Luqman:12)

In other words, being grateful for our life will benefit and purify our soul. "If you are grateful, I would certainly give you more; and if you are ungrateful, My punishment is truly severe." (Al Quran Ibrahim: 7)

Basically, if we are truly grateful for what we have, Allah will reward us for showing Him this greatness. ".. If anyone desires a reward in this life , We shall give it to Him; and if anyone desires a reward in the hereafter, We shall give it to him. And swiftly shall We reward those that serve us with gratitude."  
(Al Quran Ali Imran:145)

Dear brothers and sisters in Islam, Gratitude or Shukr (thankfulness) in Islam is a powerful instrument that can push us towards contentment and abundance. The road to greatness begins with gratefulness. It is expressing Thanks to Allah in both words and actions.

"It is gratefulness which makes the soul great, never let the things we want, make we forget the things we have".

It is well-known that Allah, Glorified and Exalted be He, has bestowed upon us abundant blessings, so He deserves to be thanked for His many Favors.

Blessings are commensurate with our gratitude. If we thank Allah for His favors, Allah will increase and bless them.

Allah's gifts are always innumerable, and sometimes His withholding is itself the best gift we need. We may never fully be able to recognize or show gratitude for all His favours in the manner worthy of their appreciation.

"And whatever of blessings and good things you have, it is from Allah " (Al Quran An Nahlu: 53)

Blessings are of various types. They include having good health, a sound body, hearing, seeing, safety, secure homeland, family, property, intellect, organs, etc.

The greatest favor is ISLAM, holding fast to, caring for, and comprehending it.

Allah, Exalted be He, states: "This day, I have perfected your religion for you, completed My Favour upon you, and have chosen for you Islam as your religion/a Deen (way of life for you)". (Surah Al Maidah, 5 : 3). This is the Greatest favour for which we should thank Allah immensely.

Gratitude, in fact, is to repay Allah's favour upon us by believing in Him and in His messengers, loving Him and confessing His favour.

Gratitude's importance was emphasized by the Prophet Muhammad (saw) when he took the hand of Mu'aadh ibn Jabal and said : "O Mu'aadh, by Allah I love you, by Allah I love you." Then he said, "I advise you, O Mu'aadh, do not fail to say this after every prayer: O Allah help me to remember You, to thank You and to worship You properly."

اللَّهُمَّ أَعِنِّي عَلَى ذِكْرِكَ وَشُكْرِكَ وَحُسْنِ عِبَادَتِكَ

Allahumma a'inni 'ala dhikrika wa shukrika wa husni 'ibadatika  
O Allah! Assist me in remembering You, in thanking You, and in worshipping You the best of manners."

[Sahih Ahmad 5:245, Sahih abu Dawud 2:86, an-Nasa'i]

Dear teachers , parents and beloved students, gratitude has been describe as the memory of the heart. Allah has not only expressed His love for those who are grateful but has also promised reward for them. In syaa Allah, all of us are in the group of people who are grateful. The grateful person is always a happy person. He/she spends more time thanking Allah for His favours than he does in asking for them.

Finally, remember that being grateful is not an option and we should clean our hearts to thank Allah for everything that He has provided us.

Alhamdulillah Rabbil'alameen for every single blessing Allah has given me, hidden and apparent. All perfect praise is due to You oh Allah, the Lord of all the worlds.

Ameen.

## GRATITUDE TOWARDS GREATNESS

"...If anyone desires a reward in this life, We shall give it to him; and if anyone desires a reward in the Hereafter, We shall give it to him. And swiftly shall We reward those that (serve us with) gratitude."(3:145)

The verse above is actually explaining that if you are truly grateful for what you have, Allah

will always give you more than what you can have ever imagined.

Gratitude can be defined as shukr or thankfulness towards God the Almighty. So how can gratitude lead to greatness? The key actually lies in the word gratitude itself. Gratitude is such a big word which has a big meaning. It is expressing thankfulness to god, people, environment, your surrounding in both words and actions. Gratitude is indeed a powerful instrument that can push you towards contentment and abundance.

When we show appreciation for the wonderful and abundance of sustenance that we receive, it helps to foster a stronger sense of happiness and well being and this could create positivity and invite more in our life. It is actually the law of attraction. What we think, what we focus on grows and what you repeat you create. Recognizing even small stuff teaches us to pay more attention on every little thing that happens in our life and thus, empowers and strengthens our mind to broaden our focus. It creates the hunger of feeling joy, happiness and positivity. That is how gratitude could lead to greatness.

Gratitude inspires you to greatness because you are becoming someone that is more grateful. The more your gratitude grows, the more greatness you will receive. Greatness here can be defined as being the best version of you. You do not have to compare yourself to others, but comparing your progress every day. Greatness helps you in appreciating and accepting yourself more while actively developing yourself and producing the best result.

There are many ways for us to be more grateful in our lives. First and foremost is of course by saying Alhamdulillah often. A constant utterance of this

phrase reminds us of the source of all blessings and happiness in our life. "So which of the favors of your Lord would you deny?" God has showered us with endless blessings which cannot be repaid with even our lives.

Mankind has been regarded as Allah's best creation but that will not make us any better if we do not fully use that opportunity to serve our main purpose in worshipping Allah. As stated in a Hadith Sahih al-Bukhari 1130 Narrated Al-Mughira:

The Prophet used to stand (in the prayer) or pray till both his feet or legs swelled. He was asked why (he offered such an unbearable prayer) and he said, "should I not be a thankful slave."

From here we can observe that the Prophet who is free from sin always perform sunnah prayers in order to express his gratitude and be thankful towards Allah. Therefore, we as normal human beings and ummah of the Prophet should embrace this routine of performing sunnah prayers and go beyond the bare minimum to show our appreciation to our Creator.

We could also express gratitude by appreciating and thanking other people even for the littlest thing. The prophet said "The one who does not give thanks for a small blessing will not give thanks for a great blessing, and the one who does not give thanks to people will not give thanks to Allah." Take the moment to thank others for their thoughtfulness and remember to always be kind to others too.

With that, from the bottom of my heart, I would like to express my gratitude to the Fikrah magazine team, with Puan Azliha Hanita as the coordinator and editor of the magazine, for their great effort in producing our yearly magazine. Last but not least, let us value this quote; "Gratitude turns what we have into enough"

Being in Adni for 11 years has taught me a great deal on life. Adni is personally what I considered to be a second home but sadly a home that I have to leave to embark onto the sea of reality. 2019 has been a year full of lessons for me and I am forever grateful for being given the opportunity, the trust. If I were not to be in this blue uniform, I would not be the person that I am today. To quote my predecessor Omar Awale: "To be a shining star you have to be burnt."

Word of advice as a brother, be kind even with the smallest acts, a small tap on the back or a word of encouragement might make someone's day or even better, it would inspire them. A perfect example for this advice would be our prophet Muhammad PBUH.

I would like to express my sincerest gratitude to everyone in Adni especially those who consulted/ reminded me when I have wronged. To my dear teachers, my friends, my batch mates, my alumni, and my juniors, I am forever grateful for all those memories, criticism and support. ADNI holds a special place within my heart.

Before I end, I would like ask forgiveness from everyone, as humans we err and forget. And I know I have made my fair share of mistakes throughout my journey. Last but not least, thank you to you my dear readers for taking your precious time to read. I make dua that Allah gathers us all in Jannah. Ameen.

Wassalam

In the name of Allah, Most Gracious, Most Merciful

السلام علیکم ورحمة الله وبرکاته

Before Adni, I only had a basic understanding of Islam. Although my family are practising Muslims, my knowledge of Islam was somewhat minimal especially since we lived in the UK for three years. I went to a "church school" and my friends were mostly white British kids. I performed my daily prayers and observed Ramadan but I knew only

bits and pieces of Islam. After coming back to Malaysia, my parents enrolled me at Adni with a hope that I would catch up on my religious education. Alhamdulillah, they have not been disappointed.

So, throughout the 7-year span that I had spent in Adni, I began to learn and accept it sincerely in my mind and heart through classes, tazkirahs and experiences. It was hard in the beginning though, the terminology used were gibberish to me as I did not understand Arabic. Nevertheless, with patience, determination and an open heart, I was able to come through. And so can you!

I am sure that most alumni would agree with me that Form 4 is the hardest year. New subjects, new teachers that you have only seen twice during your lower secondary years and upcoming exams (SPM or/ and IGCSE) that might determine the beginning of your future. Stress is inevitable but with the right tools, people and mind set, you can reduce the stress level. If you are experiencing problems with your mental and physical health, please go see a professional outside of school to avoid any sort of conflict.

Beware as this is the part where I get mushy.

I would like to thank my teachers for their patience and hard work in educating me, guiding me and tolerating me. I would not be the person I am today if it were not for my dear teachers. I would like to give my special thanks to Tc. Nilawana for her understanding and unwavering support, I could not have done it without her help. I would also like to give my thanks to Ust. Harmizee for helping me understand and appreciate the brilliant monstrosity of Add Maths.

My fellow prefects, thank you for all the support that you had given me and the High Committee. I admit that the journey was at times rough, tiring and confusing but in the end, we prevailed. I would like to thank my dear High Comms for sacrificing their time, effort and mental space to bare the load of the Prefectorial Board with me. To the future prefects, I sincerely believe you can make a huge difference to the school when you respect everyone, attend to your duties, support each other and learn from our mistakes. Insha Allah, the Prefectorial Board will strive.

To my good friends, batch mates and juniors, thank you for the times you brighten my day. Thanks for the wonderful memories that we made together, forever I will cherish. There were times when we would butt heads, however, we were able to compromise in the end and for that, I am truly grateful.

Finally, I would like to thank the school for giving me the opportunity and, more importantly, trust to carry the responsibility as the Head Girl.

# AL HIKMAH LIBRARY ACTIVITIES 2019

Al-Hikmah Library has been providing and supplying reading materials to teachers and students of Adni. The library also provides audio-visual room, games and other materials to support learning in order to produce first-class minded students in line with school objectives which is to build an excellent Ummah. The objectives of these events are to challenge students' capabilities and skills in an interactive, fun and educational way, as well as to maximize the function of the library. These are the programmes held throughout the year:

- 21st February 2019 : Librarians' Investiture
- 16th May 2019 : Teachers' Day Competition (Making Poster)
- 20th July 2019 : Educational Visit to Darul Hikmah Library, International Islamic University Malaysia.
- 31st August 2019 : Merdeka Day Competition (Writing poem about National Fighter in Malaysia)

## 2019 LIBRARIAN INVESTITURE REPORT

The Librarians Investiture is a ceremony that formally officiate and congratulate the appointment of Adni school librarians. February 2019 marks the official appointment of a group of 30 librarians. The group of librarians have gone through a rigorous selection process. They are representatives of the student body and they represent the best in student qualities that the school has to offer.

### Programme details:

Name: Librarian Investiture 2019

Date: 21st February 2019

Venue: Dataran Adni

Theme: Read to Lead

School Librarians (2019): 19 from primary and 11 from secondary students.

In conclusion, the school hopes that the appointed librarians will carry their 'amanah' with responsibility and integrity. Anas (may Allah be pleased with him) reported that the Prophet (peace be upon him) said:

'Indeed Allah will question every leader about his subjects: did he fulfil the amanah or waste it'.  
(an-Nasa'ie)

## 2019 NILAM PROGRAMME

NILAM is an intensive reading programme planned for all pupils in the school, a collaborative effort of Adni teachers and library's staff. All teachers gave good cooperation towards this programme. We recently acknowledged that year by year, the number of students who borrowed books from library have increased, alhamdulillah. However, not all students wrote the summary in their Nilam books. These pupils need guidance from teachers so they can enjoy reading and not feel left out. However, we librarians believe most teachers find it straining to cater to this large number of pupils as teachers have many other responsibilities at school. As a conclusion, both teachers and parents must support students by motivating them to read more books and fill up their progress in the Nilam book. With this, we hope that this programme will continue and become more successful in future.

# PRIMARY PEER COUNSELOR REPORT

The establishment of the Primary Peer Counsellor began in 2019 under the supervision of Teacher Najwa, the School Counsellor at Adni Islamic School. The Guidance and Counselling unit offers services to all the students and staff of the school. This unit began with 13 in-training students in basic listening skills to help their peers to manage the feeling and emotions in their daily lives. They are from Primary 4 until Primary 5 students.

As many students wish to “help my friends with their problems” they must first understand that they are only one small group of that class. The peer counsellors in any way, do not take the place or function of a school counsellor nor a trained professional mental health care worker at any time. Rather students are trained and taught about identifying which problems would need to be referred to a school counsellor. Peer counsellors as a team collaborate on ideas when they see an area which can be improved from motion to an action. It is important that the teacher and students meet frequently to discuss and understand the concept of Peer Counselling.

Students learn helpful attitudes, values, and skills by modelling and reinforcement. Peers are often interested in sharing, comforting and empathizing with others. They learn social skills such as desire control, communication, creative and critical thinking and friendship skills. Peer counsellors should be responsible but do not need to be a top student. They need to take any issue seriously and yet be able to keep confidentiality. Peer counsellors are also taught to be sensitive to the needs of others and have a strong desire to learn about helping people.

The “peer” helps “peer” concept is a very effective supporting mechanism to fill the gaps within the current guidance and counselling service.

# MUSLEH INTERNATIONAL STUDENTS TRADITIONAL ARCHERY 2019 (MISTAC)

27th July to 28th July | Kem Bina Semangat Ampang Pecah, Selangor

From the 27th of July to the 28th, 7 students were chosen to represent ADNI Islamic School for MISTAC 2019, an international event. Among those 7 students, 3 were from primary school and 4 were from secondary school.

The 3 primary students were Ali Imran Hanafiah, Muhammad Azfirussholeh, and Eva Alina. Meanwhile, the 4 secondary students were Adam Iyad, Emir Khalif, Ahmad Annuar, and Nurul Solehah. Also, there were teachers who volunteered to become chaperones to support the students. Those teachers were Ustaz Azlan, who handled the secondary students, and Ustaz Khusairi, who attended to the primary students.

In the weeks leading up to the event, the students trained relentlessly to be able to give it their all in the competition. Therefore, extra training sessions were held by the coach and training sessions were also offered by a generous parent.

On the morning of the 27th, the students and the teachers gathered at Dataran Ilmi and departed to Kem Bina Semangat Ampang Pechah, Selangor. They arrived at the location around 8am.

The category for the 1st day was called "Faster Shooting". The rules of the category was that each participant was given 1 minute to shoot 7 arrows and the distance between the archer and the target board varied for each age group. Primary students shot a distance of 20 meters, whilst secondary students shot a distance of 35 meters.

Alhamdulillah, the students were able to achieve impressive scores despite competing on an international level. Alhamdulillah I managed a spot in the top 20 for this category within the secondary level. For the 2nd day, the category was called "Kneel Shooting". Each participant had to shoot the target board whilst kneeling within a short amount of time. This category was quite challenging for the students as it was something quite new to them. Then, on the same day, they attended the closing ceremony although unfortunately none of the students received any prize. The students and teachers returned to school exhausted, but mid-journey, they stopped at McDonalds to celebrate their participation in MISTAC. Alas, the true prize earned by the students was not the medal or the certificate. Instead, the true prize of participating in MISTAC 2019 was the experience gained, lessons learnt, and friends made. Now, I'm already in my last year as a student of ADNI, but I believe that my juniors, with passion and determination, shall improve and surpass me insyaAllah. With the guidance of Coach Adil, and the support from the teachers who volunteer to contribute to the growth of these students as archers, insyaAllah, they will succeed and surpass expectation.

Apart from that, students had fun and enjoyed the sessions a lot.

Alhamdulillah, for the past 9 months, our students have skillfully mastered the archery techniques. A total of 25 students which consisted of 16 boys and 9 girls joined this class. The classes

# PRIMARY 2 ARCHERY ACTIVITIES

Coach : Coach Luthfe Firdhaus  
Venue : Adni @ Taman Melawati  
Day : Monday  
Time : 5:00 – 6:00pm  
Numbers of archers : 24 archers  
Teacher-in-Charge :  
Teacher Liyana

Alhamdulillah, for the year 2019, with dedication and hardwork the students managed to complete all 20 traditional archery lessons. They were trained using the traditional archery sets; bow and carbon arrows with feather fletchers, and techniques.

Archery is a sunnah sport that trains archers to be focused and disciplined. Learning archery will indirectly teach them to control their emotions and to be patient and calm. All of these are necessary for the archers to aim and shoot at the target accurately and this will undoubtedly benefit them tremendously in other aspects of their lives.

During these 20 lessons, students were trained in two techniques; standing upright and kneeling down. Both these techniques may look easy but it actually requires a lot of physical and mental endurance and a high level of concentration. Most of the students managed to acquire and develop the skill and it is hoped that these students will continue learning and mastering this sport to preserve the sunnah of the Prophet (PBUH) and to develop them into an all-rounder person, InshaaAllah.

Alhamdulillah, all praise be to Allah, we manage to complete the 20 traditional archery lessons for the year 2019. The students were trained on how to master basic skills in archery, and students were accessed by using 4 aspects; technical, physical, mental, tactical. We hope that in the coming years, we can achieve our goals to make the students better individuals who are strong both in character and academics. And hopefully with this archery program we can introduce and remind them that this is one of the Sunnah of our beloved prophet Muhammad pbuh. Hopefully this club will grow as a strong and reliable club, InshaAllah.

- NADA MAISARA BINTI MOHD RADZI

Alhamdulillah, all praise be to Allah. For the year 2019, Adni Islamic School managed to get 26 students to join the PRIMARY ARCHERY CLUB. The number of participation, Alhamdulillah, is more compared to the year of 2018. We managed to perform some activities with the archers to enhance their skills with the help of the coaches. They were divided into groups based on their experiences. The beginner learnt the basic of archery: bow and its part, arrow and its part, the stance, the target, how to shoot and so on. Those with basic skills, were taught and guided by the coaches to improve their shooting skills.

Like previous years, Adni Islamic School managed to send the students to participate in MSSD (District level) tournaments. This year, it was held at Sekolah Menengah Kebangsaan Sungai Pusu, Gombak. Alhamdulillah, all of Adni archers displayed magnificent performances and some of them received medals for achieving good results. The students that represented the school were:

One of the archers, Arlia Nur Falisha was selected to represent Gombak district for MSS Selangor. Congratulation Arlia for your excellent achievement. InshaAllah, your teammates will follow your step.

InshaAllah for the year 2020, we hope that more students will be interested to join archery. Archery has a lot of benefits and it gives advantage to the students. It is also the Sunnah of Prophet Muhammad (S). Malaysia's ranking in the world for archery is quite good, so we hope that Adni Islamic School can contribute in shaping good archers to represent our country, inshaAllah.

# HORSEBACK RIDING CLUB

By the war horses that run with panting breath  
 And those that strike sparks of fire  
 And those that charge in the morning  
 And they raise the dust in clouds  
 And they penetrate forthwith into the midst (of the foe)  
 en masse  
 (Al-Adiyat, 100:1-5)

These verses in the Quran describe horses as handsome, strong, brave and fast creations of Allah swt that they are. Give a horse trust and confidence, it will give you back love and loyalty. That is the beauty in dealing with this magnificent creature of Allah swt.

2019 saw nearly 50 students joining ADNI horseback riding club. Many ride on weekdays at the Royal Selangor Polo Club and the rest ride weekends with Malaysian Equine Council (MEC) riding instructors at MAEPS. A few have also started horseback archery at Rubinga Equestrian at MAEPS too. The many programs at ADNI school which coincided with RSPC programs meant students did not have a chance to participate in dressage and other events there in 2019. However, new riders continued acquiring basic riding skills whilst senior riders tried to improve and hone their riding abilities.

2019 saw the Riding Club opening a new venture for ADNI SPDU (Special Potential Development Unit) students. Working hand in hand with MEC it arranged for 30 students to attend a five hours stint with horses in a program named GETTING CLOSE TO HORSES, an opportunity towards hippotherapy on 3rd September 2019. The students not only enjoyed the joy rides but were very happy to feed and bathe the horses

as well. This was followed by a briefing and demo on hippotherapy for their parents. It was held in two batches on Sunday 13th October and Saturday 19th October, both at 3pm. Both sessions were attended by about 20 parents and 20 children. Parents listened to briefings and participated in demos held by the team from Happy Farms Hippotherapy Malaysia led by a medical doctor, Dr Kamadev Sonamuthu and Ms Nurirdiyana Idros, the only occupational therapist in Malaysia who is actively practicing hippotherapy. Students were entertained by ADNI SPDU teachers to feed and be closeup with the horses. Followup meetings were held to arrange for hippotherapy sessions for interested parents and students inshaaAllah in 2020. From 26th to 31st December 2019 eight teachers underwent a 4-day course in December 2019 to familiarise themselves with relevant horse related matters so that they may be one of the two side walkers during the hippotherapy sessions inshaaAllah.

On 6th-7th September 2019, 16 riders, juniors and seniors joyfully participated in the Basic Stable and Horse Management course conducted by MEC at MAEPS specially for ADNI riders. It was a useful and necessary course for students to be more adept in basic horse related knowledge. Puteri Batrisya from Secondary 4 wrote: *"The course taught me many things related to horses, including grooming and tacking the horse and even cleaning the stables, which i can now execute easily. I strongly encourage new horseback riders to go for the course so that they can manage and handle the horses independently"*.

"I really like the camp because it taught me many different things in archery and horseback riding. I learnt to trust the horse that I rode in the three days, to be brave and try new things like horse grooming. Thank You, jazakallahukhairan!  
(Siti Qistina, Primary 5, novice group)

The highlight of the year was the Horseback Riding and Archery Camp held in Ladang Alam Warisan (LAW) on 10th-12th November 2019. 22 students joined the camp with two accompanying adults. Students had both theory and practical sessions on horseback riding and traditional archery in 4 groups: novice riders, those with few years riding experience, senior riders and the archery group. Everyone enjoyed the challenge, knowledge and skills gained from both sports. Five students were selected to further train in horseback archery at LAW which started with a whole day session on 22nd November 2019, followed by two more on 3rd and 31st December 2019 and will continue into 2020. InshaaAllah.

On Sunday 17th November 2019 six students had the opportunity to go for an outride on the undulating tracks through the MARDI orchards at MAEPS. This is what Aishah Muthia Putri who called herself a hardcore ADNI horseback rider wrote:

Here are a few comments by camp participants:

*"I really liked the camp because it was terrific. I also got to learn alot about horses. It was lovely"*  
(Nada Maisara, Primary 4, archery group)

*"Joining the outride session had been a blast, a fun'tastic experience, where we were able to use most of the riding skills and knowledge that we learned within the sanctity of a paddock or an enclosed riding arena (besides using them in horseback related competitions). An outride session which gives a sense of freedom when riding out in the open grounds is a 'must have' experience for passionate horseback riders."*

*"The camp had an impact on me. The experience was full of valuable lessons, including these 5 important concepts to internalise and act upon: Bila memamah NIAT (your target), DOA (minta pada Allah), USAHA (do your best), TAWAKAL pada Allah and REDHA with the outcome"*  
(Nurul Solehah, Secondary 5, senior group)

*"The camp was a very joyful and enlightening experience where I learnt more about horseback riding and archery. The knowledge that i gained is priceless!"*  
(Siti Hajar, Primary 6, few years riding group)

We look forward to more activities in 2020 inshaaAllah!

## SECONDARY ATHLETE CLUB

Every Wednesday, 5:00- 6:30pm | Kompleks Sukan Kampung Pandan

### OBJECTIVES :

- i) encourage the students to apply correct techniques
- ii) develop muscle strength and prepare the students for MSSD tournament.

Athletic Club activity started with selection of students during the month of July. Alhamdulillah the week after, the students started training. We were very fortunate to have training from a great coach, Coach Sabtu. This club had 7 members from secondary 2 to secondary 5 with one accompanying teacher. Every Wednesday, the students started training with dynamic warming up. Here, I would like to share the experience from one of the members:

"As a member of the athlete club, joining it was one of the best experience I have ever gained this year. My friends and I were honored to be given the chance by the teachers to join this club. It had taught me a lot of things I never knew for instance how to stretch properly before doing an intensive training, how to conserve our energy in running to make sure that we don't get worn up easily and many more. If it weren't for my coach, I wouldn't have gained the knowledge I have today. It is undeniable that joining the club is tiring and it takes up our energy as well as our time,

but I have faith that all of it will turn out to be totally worth it in the end. What my coach always says, and I quote 'You can't move on to the next level until you have mastered the basics.' With that being said, with no pain there will be no gain. Last but not least, I would like to convey my deepest gratitude towards our coach for such an astounding effort for always having the patience in tolerating and understanding us in order for us to become better athletes in the future"

# THE YOUNG JOURNALIST CLUB

More than just the savvy playwright he was, Tom Stoppard once said, "I still believe that if your aim is to change the world, journalism is a more immediate short term weapon."

Though the news and events we had covered were nowhere beyond the blue gates of Adni and nothing close of an artillery; we are still proud to uphold the notion of being "Journalists".

With a team of 20 students, The Young Journalist Club had an incredible year with several accomplished objectives and projects on the run. Under the guidance of Teacher Suhaida Adlina and Teacher Aisha Humaira, the club had envisioned on unleashing, enhancing and developing confidence of the students through the aid of Creative Design, Photography and Journalism. Moreover, the club had also provided a platform for the students to learn on strategic communication, teamwork and the art of news sharing.

Weekly meetings are held every Thursday from 5.00 PM to 6.00 PM at the computer lab. To ensure productivity and efficiency, the students are divided into units, namely; The Designers, The Photographers and The Writers. The units are designated with tasks in relation to Creative Design, Photography, Event Coverage and Article Writing.

This year, however, our young journalists were introduced to a new activity. With the aim of allowing students to journalize their experiences and happenings in school, The Young Journalist Club had kicked off a new project: Web Construction.

The YJC team had worked hand in hand throughout the year to produce a website for students and teachers to share their stories and bridge communication among the members of the school community.

The newly designed web will be featuring blogs, announcements, a photo gallery and a site for students to submit their work for a chance to be featured on the web. Titled The Adni Scribe, the website will be making its ever-awaited debut in the year 2020, Insha Allah.

Alhamdulillah, our budding wholesome journalists had an eventful year of:

- Video and writing coverage of school events
- Designing posters and newsletters
- Photography workshop
- Blog Writing
- Article Writing
- Web Construction
- Photography tasks
- Trip to MMU's Faculty of Design, Strategic Communications and Applied Communications.

In addition, the students were also taught on how to sharpen their writing skills, emerge with prolific ideas and to work with camera lenses and natural hues. They were also tasked to do live news report and coverage of school events. With their YJC vests on, they were usually set out to interview guest speakers, the Board of Directors, teachers, students and even the staff to gather different perspectives and feed backs of the happenings in school. The club is also a platform for the students to advocate on cleanliness, patriotic spiritword, awareness and spread Islamic values among the school community. Less importantly, we have also gotten ourselves official YJC shirts to match!

In a nutshell, The YJC had taken several steps to venture through different efforts in strengthening the Ukhuwwah among the Adni Family this year. The students had also put tremendous efforts in ensuring bona fide products to share. We hope that The Young Journalist Club could continue to play an essential role on shaping the role of media in the development of the Muslim Ummah and inspiring young creative minds to use their power of the pen in shaping the world.

# SECONDARY TABLE TENNIS

Training Venue: ELP Hall

Training Day: Every wednesday evening

Trainer: Ust Safwan

First and foremost, thank you to the school management for giving students a big opportunity to learn about table tennis. However, throughout the year, we did not participate in any tournament outside the school in spite receiving several invitations. The reason was, we were still focusing on internal training and developing basic forehand skills or backhand skills. So, we were still sharpening our students' skills and still learning the basic knowledge of table tennis. All students gave 100% effort including those from SPDU (Student Potential Development Unit). We hope that after 2 years and after sufficient training, we would be completely prepared and would be able to compete in tournaments.

## ENGLISH CLUB 2019

Alhamdulillah ala kulli hal wa kulli nikmah. The amount of support and cooperation from both parents and students have been nothing short of exemplary. In its 3rd year of inception, the total number of students who decided to enroll this year was 30 students from Primary 4, 5 and 6.

The sessions were held as per usual every Friday from 3.00 pm to 4.00 pm. During the sessions, the students were unceasingly coached the basic public speaking skills such as speech writing, capturing the audience's attention and projecting their voices.

Students were also taught the basic format of a parliamentary-style debate which is the most favored style of debate used in competitions worldwide. This skill was put to the test through numerous debates with motions such as 'This House Believes that Homework Should Be Given to Students During the Weekends' and 'This House Believes that Uniforms Should Not Be Made Compulsory in Schools'.

Alhamdulillah, students have shown an utmost interest and have given their full cooperation during sessions. They have been able to complete all tasks excellently and I hope that they have gained a lot from the sessions throughout the year, InshaAllah.

Activities throughout the year:

1. Weekly speeches with various themes such as academics, economics, humor etc.
2. Show and tell activities with various themes.
3. Public speaking exercises where students both present and judge each other's speeches.
4. Mock debate competitions with different motions
5. Researching about iconic figures, world-changing moments and historical sites through the Internet or informational magazines such as Time, National Geographic and Reader's Digest.
6. Movie watching and video presentations on TED talks, Toastmasters and both national and international debate competitions.

## FRENCH CLUB

The Adni French Club (AFC) was finally brought back from the dead after countless hiatuses, during the second semester of 2019. Albeit its late entry into the year, Alhamdulillah, we received an overwhelming response from the students, with 40 ecstatic members joining right off the bat.

The objectives of the AFC are to expose and enrich students with Francophone – not just French – culture, as many countries such as Canada, Switzerland and countless African countries have French as an official language; and to promote enthusiasm for the French language itself.

We held numerous activities that the students had loved, including an Eiffel tower trivia quiz, reading *Le Petit Prince* (The Little Prince) together, watching French movies and TV shows, playing Bingo in French, and even having a French food cooking show using a Thermomix machine.

All in all, the students very much enjoyed participating in the activities introduced, and were very open to learning and experiencing new things. Insha Allah, the AFC will be just as loved next year and the years to come, Amin.

# ADNI ENGLISH ISLAMIC ORATORY UNION (AEIOU)

2019 REPORT

**Head Coach - Mr. Faizal**

**Public Speaking - Mr. Haziq**

---

**Debate - Mr. Hazim**

# DEBATING

The 3rd phase of ADNI's English Islamic Oratory Union saw it take a leap into the future of skills training & learning. ADNI's Debate Training included many aspects, such as discussions on evergreen issues, case building practices, debate sparring amongst students & the trainers and discussions of newsworthy stories both from the past and what may come in the future. Our activities ranged from individual to team activities that also pressed on mannerisms and strategy to engage and discuss topics with finesse and style.

Training was conducted both at the premises of the school and online to accommodate those with busy schedules who still wanted to be apart of the Debate and Public Speaking family of ADNI. This was an initiative taken by the Head Coach to improve attendance, to allow students to manage their time better and to participate in future tournaments with adequate training. This system proved to be a hit as training happened anytime they had the chance for it, and from anywhere the students were.

ADNI sent a team comprising of 4 new debaters to the annual IIUM Inter-school Debating Championships and they fared well, ranking 33rd Overall for the tournament. This was a great attempt by a team that at the start of the year, was engaging in debates for the very first time. Throughout the event, they managed to make new friends, learn from the judges, and debate topics that they found to be interesting and challenging. Mr. Hazim, our 2nd coach for this team was in attendance throughout to watch and give feedback round-by-round so the team would be ready for each round.

ADNI's Debate Classes will be moving entirely online in collaboration with Nous Academy & Events in 2020 and our hopes are to see students find the time to learn for the comfort of their homes and excel at learning skills of the future, with future tools.

# PUBLIC SPEAKING

ADNI's Public Speaking Training is conducted throughout the year. This year was even more exciting than the previous year. The main objective of this class is to introduce Public Speaking skills to the students in a manner that is fun and entertaining. However, we always ensure that the in-class experiences is always of high quality content. The basics for every new batch of students cover, structuring speeches, adding one's own style to a speech and the creating good and engaging content for a speech.

Besides the theoretical parts of the class mentioned above, there were many activities conducted such as **"Charades"**, where students had to act out certain activities given to them. This helped to improve their presentation skills, using body language. Another activity we conducted was the **"Event Management"** activity. Here, students were given challenging situations where they would need to react via speaking and acting, to best manage a situation. This taught them how to manage their reactions to stressful situations, where they were meant to channel their reactions through conversations and speeches, just like any other real world situation one would be in.

We also conducted **"Presentations"** as a form of activity. Students were given different themes of speeches in order for them to learn how to present different types of content, with the right manner. This was wholly entertaining and was a fun activity for all. Other activities included **"Group Based Activities"**, **"Storytelling"** and even a Friday's prayer **"Khutbah"** where students would give speeches based on their own ideas and past content used by actual imams in mosques. Through all of these activities and lessons, everyone managed to improve their writing, presentation, and critical thinking skills.

ADNI's Public Speaking Classes will be moving entirely online in collaboration with Nous Academy & Events in 2020 and our hopes are to see students find the time to learn for the comfort of their homes and excel at learning skills of the future, with future tools.

# PRIMARY BADMINTON

Alhamdulillah, kelab badminton Sekolah Islam ADNI (rendah) telah menamatkan 10 sesi latihan bagi tahun 2019. Dengan jumlah ahli seramai 20 orang, sesi latihan pada tahun ini telah diadakan pada setiap hari Isnin pada jam 5-6 petang di Kompleks Sukan Setiawangsa.

Dan pada tahun ini juga, telah berlaku sedikit perubahan sepanjang 5 kelas terawal di mana seorang jurulatih tambahan telah dibawa masuk khusus untuk melatih ahli kelab yang masih berada di peringkat permulaan.

Ini telah membuka ruang untuk ahli yang lebih ke hadapan dilatih dengan lebih terperinci dan diberi perhatian lebih oleh jurulatih bagi menambah baik kemahiran mereka di dalam sukan ini.

Hasilnya Alhamdulillah, peningkatan yang sangat baik dapat dilihat di kalangan ahli kelab pada penghujung sesi latihan tahun ini. Dan sepanjang sesi latihan dijalankan, ahli kelab bukan sahaja didedahkan dengan kemahiran dan ilmu permainan badminton, tetapi juga ditekankan dengan disiplin yang tinggi, dan kepentingan menjaga keselamatan diri sepanjang permainan.

Malah mereka juga didedahkan dengan tips gaya hidup sihat oleh jurulatih yang sangat berpengalaman di dalam sukan ini sehingga ke peringkat antarabangsa.

Diharapkan agar sukan permainan badminton ini terus dikekalkan di ADNI dan mampu melahirkan generasi pelapis yang akan membawa nama Sekolah Islam ADNI ke peringkat yang lebih tinggi insyaallah.

Majulah sukan badminton untuk ADNI.

## Report

Academic year 2019, ADNI TKRS-MUSLEH managed to have twenty four sections which had fourteen sections of boys and eleven sections of girls. As a compulsory CCA to all students of primary 4, 5, and 6, this session was conducted every week on Wednesdays from 3.15 pm to 4.30 pm. There were 8 modules covered in TKRS as follows:

1. Basic Self Defense (BASED)
2. Cookery
3. Sewing
4. Rope Binding
5. First Aid
6. Self-management
7. Drill
8. Camping Skills
9. MATRA (Archery)

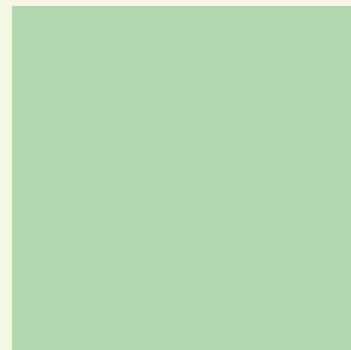

Alhamdulillah, during the first semester, an Internal Camp for only Primary 4 boys and girls was successfully organized at Dataran An-Najah, ADNI Islamic School. Most of the students passionately attended this camp. They tried their best in polishing their skills through the camp session.

During Semester 2, we managed to organize an Annual Camp for Primary 4 & 5 boys and girls at Kem Lembah Genting, Batang Kali, Selangor. This Annual Camp was held from 9th until 11th August. Alhamdulillah, students gained new experiences and knowledge especially through survival activities in the forest. This annual camp is a yearly program of ADNI TKRS MUSLEH.

For Primary 6 students, they managed to have a one day camp at Nur Laman Bestari on 8th July. Alhamdulillah, students achieved the objectives of the camp in terms of teamwork, self-discipline and punctuality.

Overall, most of the modules and activities prepared for the students were carried out successfully. Any shortcomings will be improved for better achievement next year, Insya Allah.

# SERGEANT, STAFF SERGEANT AND WARRANT OFFICER COMMISSIONING COURSE 2019

23th March 2019 | D'Amir Chalet, Perak

On the night of 23rd of March, brimming with emotions of anxiety and excitement, 9 girls along with 11 boys from secondary school gathered together for a final polishing of the skills that would be used in the next 6 days to come. Early next morning we were joined by our juniors from primary school and we were off to D'Amir Chalet, Perak. At around 11am we arrived at the place where we would hold camp for a near whole week.

Having got off from the bus, we were welcomed in a short opening ceremony by the camp commander. We were soon divided according to our ranks and we bid our temporary goodbyes as we parted, preparing to face the challenges that would soon come our way. Those who were to become sergeants stayed at the present location whilst our potential staff sergeants and warrant officers were sent off to their respective locations.

The following days were filled with constant practices, exams and lessons for all. We had needed to go through tests for 'kawad kaki', 'BaSeD' and even sat for a written exam. The sergeants-to-be had definitely felt the most pressure as it was all a completely new experience for them. Nonetheless, everyone managed to pass their exams and achieve their new ranks with high praises.

We even managed to have some fun on the second last day with some kayaking activities which was, without doubt, a huge refreshment for us all.

However, none can ever reminisce those memories without remembering the hardships we were put through. Admittedly, following this camp, we all had changed in our own ways, adopting qualities of being tough and a sense of responsibility. We had grown to face challenges and learned independence as we managed without much aid from our teachers. We also picked up new skills and learned new lessons as we went through 6 days of isolation from modern civilisation.

This camp had most definitely taught us a lot, from learning to live without adult supervision to not being ashamed to acquire assistance from strangers around us. We picked up communication skills and the virtue of patience as we managed our best to survive together. All in all, this camp is one that would always be etched in our hearts and minds as this was a turning point, for the newbies, and another journey to remember for us all.

# ANNUAL CAMP KRS FOR SECONDARY 4 & 5

27th- 28th June 2019 | Asli Adventure Camp

On 28 June 2019, Adni Islamic School conducted a KRS Annual Camp for Secondary 4 and 5 at Asli Adventure Camp Hulu Langat. This camp was held to test the skills they have learnt throughout the year and also to give students a firsthand experience on how camping in the nature with limited and scarce resources would be like. Upon arriving at the base camp site, students were given a briefing on the activities and precautions to be taken. The leaders then, distributed the equipment, utensils and tent which officially marked the start of the camp. The journey to the camping base was challenging as rain had just poured, making their path muddy. Leaders distributed jobs to their members on what to do. This activity can strengthen the bonds of the team members. Everyone worked hard to do the task they were assigned to. But the challenge didn't just stop there. They had to slaughter a chicken for their dinner. This was such a memorable experience!. On the next day, they were challenged with jungle trekking. This activity taught them patience as they had to walk through the jungle and hike up the hills. Nevertheless, they regretted nothing as they arrived to the final destination after successfully overcoming all the obstacles.

# KRS ANNUAL CAMP LOWER 2019

Teachers incharge: Teacher Zainab Ahmad Bahari  
Venue : Sekolah Islam Adni, Taman Sri Ukay  
Day: 28th - 29th June 2019

Pada 28th Jun 2019, Kadet Remaja Sekolah (KRS) dari Sekolah Islam Adni telah mengadakan sebuah perkhemahan tahunan di Sekolah Islam Adni. Perkhemahan ini berlangsung selama dua hari satu malam. Pelajar tingkatan satu dan dua telah menghadiri perkhemahan ini.

Pada jam lapan pagi, kami mengadakan perhimpunan pagi bersama-sama. Selepas itu terdapat beberapa aktiviti yang dilakukan dibawah penjagaan mentor dari setiap seksyen. Antara aktiviti yang dapat dilaksanakan adalah memasang khemah. Pelajar harus memasang khemah secara berkumpulan, setiap seksyen diberi dua khemah. Selepas itu, pelajar perlu membina peralatan, sebagai contoh rak kasut dan juga rak alatan memasak.

Selepas pelajar habis makan tengah hari, terdapat lagi aktiviti di dalam seksyen. Pada waktu petang pula, setiap seksyen menghantar dua orang wakil untuk menyembelih ayam. Pada mulanya, ramai pelajar tidak mahu menyembelih ayam kerana takut, akan tetapi dengan motivasi yang diberi oleh rakan-rakan dan mentor, setiap wakil dapat melaksanakan tugas dengan baik. Ayam yang disembelih itu dimasak oleh setiap seksyen dan dihidangkan untuk makan malam.

Pada malam itu, mentor telah menyediakan sesuatu aktiviti buat semua pelajar. Setiap pelajar perlu melakukan aktiviti 'night walk'. Pelajar perlu berjalan seorang diri di dalam kegelapan dan perlu mengikut cahaya lilin di atas lantai sahaja. Terdapat beberapa mentor pelajar yang bersedia di tempat masing masing untuk menakutkan pelajar yang lain. Terdapat segilintir pelajar yang menjerit kerana ketakutan.

Pada esok hari, aktiviti yang perlu dilakukan adalah sebuah pertandingan diantara setiap seksyen. Terdapat aktiviti pertolongan cemas, memanah tradisional, asas pergerakan BaSeD, dan juga kawad. Akhir sekali setiap seksyen perlu menurunkan khemah. Itu merupakan aktiviti terakhir dan tanda penamat untuk perkhemahan tahun ini.

Terdapat banyak aktiviti menarik yang telah dilakukan oleh setiap pelajar. Juga terdapat banyak pelajaran baru yang telah diperolehi. Perkhemahan ini juga mengeratkan perhubungan antara kesemua pelajar yang terlibat pada tahun ini. Setiap seksyen dapat mengharungi cabaran yang diberi dengan baik sekali dengan berkerjasama sebagai sebuah pasukan.

# KESUNAS 19

23th August 2019 | UPSI , Tanjung Malim

Since KESUNAS was a biannual sports event, it was of particularly great importance among the high school students to participate that year, because by the next KESUNAS, we would no longer be in school. This championship was organised by the Kementerian Pendidikan Malaysia, Musleh, Kadet Remaja Sekolah and IKRAM Musleh. The participation was open to Musleh schools, and a team from Adni Islamic School was invited to participate. It was like the many other times we had been invited to participate in Musleh programmes, we were treated hospitably.

The drive past the gates and into the battlefield (metaphorically) was when the fire of enthusiasm, fear, passion, and anxiety burst into flames. As we hopped off the van feeling unprepared, we first went into our lodging, which were vacated, humble dormitories. We had taken the time between our arrival and the first event to shake off the worries and have a good time; we prayed, talked, laughed, ate, and rested. The day following our arrival, on 23rd August 2019, were scheduled with various sports events: netball, badminton, chess, track and field, and traditional archery.

Objectively, the competition served as a training opportunity for us students. We took the time we had at Universiti Pendidikan Sultan Idris to train ourselves to socialise with others outside of school, and we made learning from the experience our main objectives. Over the span of just three days, we had developed stronger bonds between us Adni students and with the students from other schools, as we made insyaAllah, lifelong friends. Each one of us had strong support from the others. We would cheer on our friends who were competing, giving moral support and motivation to strive, for the sake of Islam and Adni.

We tried with utmost effort to win. However, winning was not our main objective. Our main objective was to do our best and to learn from the experience, as I have said before. We made learning from other schools an objective as well. We paid close attention to the skills other athletes from other schools had displayed and tried to think of how we could learn from them.

Throughout the entire period of the competition, we endured. We fought our way out of those challenges that came our way, head on. The most memorable, comical, and heart-warming incident was when we came to terms with the situation that came to be in the girls' badminton finals, and we mightily helped lift our friend to get to the car from the arena. As time ticked by, our energy was slowly draining out, through the sweat and energy we were giving out. Sometime during the night, after a whole day of playing badminton, one of our friends collapsed, after trying to fight her fatigue. Two female representatives of the Musleh organisation along with Teacher Thahirah and our friends, Nur Shahirah Fariha and Iman Saabira, accompanied Nurul Ain Satriya to the nearest clinic available.

Truly, the KESUNAS was remarkable, memorable and cherished. It was a great window of opportunity which can no longer open for me. As, in the next two years, it would open for a whole new generation of striving, young, Muslims. One big takeaway from this sharing is, whatever we throw ourselves into, we should fight till the end, just like our strong-willed friend, Ain.

# PERKHEMAHAN NASIONAL MUSLEH (PERNAS) 2019

14 -17 Dec 2019 | YPJ Kem PLKN Sekakap, Mersing Johor Darul Takzim.

On 14th December 2019, MUSLEH had conducted their triennial camp: Perkhemahan Nasional (PERNAS) in the coastal town of Mersing, Johor which lasted for 4 days. A total number of 29 students, in which the majority were of lower secondary level had participated along with two appointed teachers who are truly A1s, Ustaz Ameen and Teacher Fareeza.

## Weather Condition

For the last few months, Johor had been one of the most targeted area for constant rainfall; this however was a belated news for the participants of Adni Islamic School. As their destination neared, the students witnessed one of the closest depiction of the nation's 2020 vision flashing right in front of their eyes: floating cars. Thanks to the flood, city kids were awed.

Alas, the rain had caused flood at the campsite which then caused an order to be issued for all the participants to move their belongings to the dormitories provided. The rain remained active and loyal throughout the camp, which resulted all participants to be located in their respective dormitories.

## Competitions

After astonishing the judges with their performance in kawad despite only practicing for 2 weeks, the participants continued to strive for more. Out of all competitions, orienteering participants had to go through various challenges. With heavy rain working very hard to soak every corner of Johor, they had to run around in raincoats. The rain came without any warnings when Syabab was in the middle of orienteering, thus soaking them from head to toe. In such weather conditions, accidents can occur easily with one mistake. Puddles and bushes may seem harmless, but they managed to injure two participants from Adni Islamic school; one ended with stitches while the other was left with a sore body and an altered raincoat which have lost its credibility as a raincoat. Despite all that, participants of Adni Islamic School were still able to secure their victory with Naufarra awarded as one of the top winners. Following a famous saying: "Now or Never"; Naufarra, along with her glorious raincoat was cheered on loudly by fellow team mates for her incredible hard work.

Meanwhile, amidst the chaos of orienteering; participants for cooking competition were having a battle of their own in an open hall. The pressure of cooking in such crowded space with judges lingering around anytime they wished to; and non team members snatching bits of their dish with eager hands; it was permissible to be frustrated. Nevertheless, the Fatayat team of Sekolah Islam Adni managed to attain 3rd place with their unique signature dish: Couscous. After receiving questioning looks from judges with their foreign dish and having to pronounce and spell Couscous repeatedly, the presentation of their dish was explained wonderfully by Wan Aliyyah Ilesha; the leader of fellow A1 chefs consisting of Aliyah, Mane, Naufarra and Yasmeen.

The pouring rain not only affected participants of Orienteering, it also affected those who joined Obrace as well. Obstacles Race or better known as Obrace requires the players to go through checkpoints; each having their own challenge which is related to the basics of KRSM: ikatan, binaan gajet and bantu mula. The motto chosen for PERNAS 2019 was 'Ukhuwah, Iman dan Taqwa teras kekuatan Generasi Rabbani'. Ukhuwah plays a big role in Obrace as team work is one of the most important value in Obrace as students were shuffled into groups with students from other schools. Despite having to face new people in their first Obrace experience, young participants from Adni Islamic School had proven their determination in winning was their strongest point which helped them to overcome their worries. Arisya Irdina, Wan Amira Ilesha and their respective team members were awarded as winners, marking the first win for their first Obrace experience. Basic Self Defense (BaSeD) is one of MUSLEH's main curricular activity along with kawad. BaSeD was designed based on elements from various martial arts such as Silat and Taekwondo. Along with their leaders: Muhammad Danial and Najwa Asyila, both team flaunted their inner fighter self and took control of the hall with sharp "Shap!". The team work shown by each member throughout their practice sessions was one of the best attributes needed in a cadre. The short play performed by both teams also uncovered the participants' hidden talent in acting, and creating plots.

For participants of Memanah Tradisional (MeTra), their only concern when it started to rain was regarding their wooden bow and arrows' condition. Having themselves soaked in rain was such a small worry, but the same concept could not be applied when it comes to their precious bows and arrows. One wished to be as fast as Hawkeye, one wished to be as skillful as Sa'ad ibn Abi Waqqas, and one wished for a good time. Nevertheless, the thumped of an arrow on the target board is what all archers wished for. Wish, whoosh and win.

Practicing kawad for less than a month before the actual competition is undoubtedly a risky move. Fortunately, participants of Adni Islamic School are risk takers which made them unwavered by the school's decision. Led by their leaders: Ammar Irfan and Nurul Ain Farzanah, cold water became a huge enemy for both of them as their throat demanded for first class treatment. Despite training for a short period of time, both contingents ( male and female) performed wonderfully. Working in a team is a joy, if you have the right team mates; and joy is an understatement when working with both teams.

### Team Work

Working with new people is never easy. Especially when it comes to dealing with youngsters. Nevertheless, the energy emitted by these eager learners sure is enough to make us all beam with pride. Even when they played the smallest role as the caps-tower kid; the unofficial photographer; the dirty dish helper; the Maggie boy; chef wan; loyal shoe organizer and many more, it meant a lot to all of us.

For the secondary five seniors who joined the camp, it was hard to level up our energy to be at the same pace as theirs. But watching our precious young Padawans (apprentice), we can all leave the school at ease knowing we have our Padawans to continue this journey.

### Conclusion

With new line ups and a short span of time left to practice, the students have proven their capabilities to perform wonderfully. This year's line ups managed to push the par for Adni's achievement in MUSELH based events. It is everyone's responsibility to keep Adni's KRSM legacy alive and well, regardless of what management they are under. KRS can be cool, if you are cool towards it. Wear full uniform, kids.

## TAEKWONDO PRIMARY 5 & 6 GIRLS 2019

Alhamdulillah, praise be to Allah, The Most Gracious and The Most Merciful. The Taekwondo classes for primary 5 & 6 girls went very well for year 2019. The classes were held every Monday from 4.30 p.m until 6.00 p.m at MusollaSyafie.

Taekwondo is one of the most systematic and scientific Korean traditional martial arts, that teaches more than physical fighting skills. It is a discipline that shows ways of enhancing our spirit and life through training our body and mind. Today, it has become a global sport that has gained an international reputation, and stands among the official games in the Olympics.

In Adni school, students are divided into groups according to their respective grade known through the color of their belts. In general, the darker the color of

the belt, the higher the rank of the student. Students were taught the physical movements that will develop their strength, balance and coordination. Students were also able to improve mental discipline besides learning self-defense skills.

Alhamdulillah, the students went through the grading successfully at the end of the year and participated enthusiastically during the Taekwondo Challenge 2019 which was held on 3rd of August 2019 at Dewan Serbaguna MPAJ AU2, Taman Keramat, Kuala Lumpur. Well done and May Adni Taekwondo progress forwards gracefully for the next year!

## Celoteh Pena

Pena bosankan hariku meloret lagi,  
Merobek kerikil urat hitamku,  
Di otak dengan kotoran beku,  
Masih berantakan kacau-kacau luaran..

Sejenak ku,  
Apa rahsia yang semanusia ini gagal,  
Hingga suram alam membalas juga,  
Ramai terumbang ambing bak pujukan ombak,  
Membancuh di acuan indentiti berbeda..

Ohh hatinya, patutlah..  
Pusaran hati semasa kelilingnya,  
Rusing jalan mahu setaraf,  
Sedarjat, sepangkat, sekata dan seadat,  
Bila suara asing berbunyi..kenapa lain?  
Kecutlah hati malu lantas terasa jauh..

Hei..patutkah ia realitimu?  
Celikkan pandangan serta mata hati,  
Barangkali itu mimpi ngeri atau indah,  
Ia tiada harus pada fitrah lahiriah,  
Kamu sejahtera dari sejak dulu..

# YOUNG ENTREPRENEURS X FACTOR 2019 (NATIONAL LEVEL)

15th June 2019 (Workshop & Preliminary) & 16th June 2019 (Finals)

*"It doesn't matter where you are in your education or your social circle because when you're an entrepreneur, it changes everything."* - Mike Handcock

Coming up with a brand new idea is not easy. Most people these days tend to be innovative, instead of creative. This competition, which was organised by **Dwi Emas International School**, emphasised on the latter. Presenting a fresh idea could be considered as a difficult thing; to do it in three minutes is something else.

**Create. Ideate. Storify.** Three simple words that were used to describe the competition. Contestants were tasked to come up with a business idea that could help to change the world into a better place. Those ideas need to be presented in a slideshow to judges who were entrepreneurs themselves. The limit of 10 slides and three minutes made sure that the ideas were compact and simple.

Workshops and practices took place weeks before the event, led by Ustaz Nazmi. Adni only managed to send three hopeful students to compete and conquer the competition. We trained not only at school but even at cafés beyond the school compound. Each student had their own unique ideas along with the 'scientific researches' to back up those ideas. The slides would constantly change as every single day brought newer ideas.

These are the innovation of business ideas by Adni students :

1. 3D Light Advertising System by Danish Akmal Ahmad Amiruddin
2. Human Faeces Fertiliser by Aiman Hafiy Asnulhadi
3. Virtual Realty Lense by Muhammad Haikal Mohd Saroni

On the day of the competition, we were given a short sharing session where the students could present their ideas to the coaches provided by the organisers, or even among the contestants. Those coaches gave helpful feedbacks on ways to improve the already great business ideas. I personally kept on updating my slides,

even 30 minutes before the real pitching session. We also had the chance to personally meet any one of the 20 coaches for private sessions.

Once those final touch ups were done, all three of us along with our teacher head to the prayer hall to pray and gather our strength. After praying, we went to the information board to find out our class number. Each class consisted of a few contestants and two judges. I had to present my idea in a room of unknown people while the other two Adni students were lucky to be placed in a same class.

The pitching session began, all participants presented wonderful ideas that tackled different life problems. After more than an hour, the session finally ended. Results were not announced until the next day, so we had to go home not knowing whether we made it to the finals or not. Later that day, everyone started practicing their pitch again along with the possible questions, as the finals will have a five-minute Q&A session.

The next day, we arrived at the competition with hope. Everyone was directed to a huge hall where the final would take place. Results were announced, and by the bless of Allah, one Adni student, Danish Akmal, made it to the final round. He presented his idea in front of the crowd with confidence and determination. All the questions that were asked by the five-man judging panel were answered with ease. After his pitch, all we could do now is pray and hope for the best.

Final results were in, and Danish Akmal managed to get the consolation prize in the national level competition. Alhamdulillah! It was not an easy task, but he managed to do it and it even prompted him into joining more business pitch competitions. The competition taught us many lessons and certainly put Adni's reputation among the best schools. InshaAllah, it was a fruitful competition that has inspired us to do better in the future.

# Summary Murobbi Development Program Day-1

Umar al-Khattab said  
Teach the children for their time  
But now we have to prepare them  
For jobs that don't even exist yet  
For a future that is not known yet  
As the Industrial Revolution 4.0  
is moving so fast

What do we do with our precious chrysalis?  
Prepare them to be versatile  
Teach them to be creative  
Teach them to be strong  
At the same time insulate them  
With the beauty and strength  
of Deenul Islam

Allah is our Lord  
Muhammad saw our example  
Al-Quran our constitution  
To strive is our way  
To die in the path of Allah is our ambition

We have no choice but to be  
Saabikum bil khairat  
Those who precede in doing good  
When Allah permits so  
Let us increase our knowledge  
And upgrade our skills  
Guided by IHES

Also to prepare ourselves  
To meet our Lord  
Brothers and sisters,  
Let us be the wonderful army  
Led by a wonderful leader  
To strive, build and raise  
ADNI, our legacy before meeting Allah!
